Married In Petersburg June 23

Miss Elizabeth Ann Western became the bride of John Alden Simpson on June 23 at St. Mary's Catholic church in Petersburg, W. Va. The ceremony was performed by the Rev. Fr. Norman Murphy, of Keyser, W. Va. Parents of the bride are Mr. and Mrs. Fred Western, of Petersburg, and John is the son of Mr. and Mrs. Glen Simpson, Mt. Lake Park.

Organ music was presented by Jerry Crites, Petersburg. He also accompanied the soloist, Mark Fisher, of Buckhannon, W. Va., the groom's brother-in-law. Mr. Fisher sang "The Lord's Prayer," "More" and "Let There Be Peace on Earth."

The bride was given in marriage by her father. She wore a floor length gown of bridal over taffeta. The bodice was trimmed with Cluny lace in a "V" effect with a scalloped ruffle. The Bishop sleeves had a deep cuff of Cluny lace with a lace ruffle. The full skirt had a deep ruffle of scalloped Cluny lace. Completing the effect was a double mantilla edged in lace to match the gown. She carried a bouquet of pink sweetheart roses and white carnations, and wore a single strand of pearls belonging to her mother.

Mrs. Dollene Wilson, Petersburg, was matron of honor. Also attending the bride were two of her sisters, Miss Christine Western, Petersburg; and Mrs. Louise Miller Moorefield, W. Va.; and Mrs. Judy Fisher of Buckhannon, sister of the groom.

The matron of honor wore a floor length gown of white with a pink floral design. It featured short puffed sleeves trimmed in lace and a "U" neckline with a lace-edged collar, an empire waist and a slightly gathered skirt. The other attendants' dresses were of the same design in pale blue with floral print. All wore picture hats and carried carnations tinted to match their gowns.

Glen Simpson served as best man for his son. Ushers were David Biser, cousin of the groom, Erie, Pa., Fred Wilson and Harvey Brady, Petersburg.

The flower girl, Mary Western, sister of the bride, wore a floor length dress of pale blue trimmed with lace. Completing the wedding party were Andy Western, ring bearer, and James, Fred and Willie Western, who served as altar boys. All are brothers of the bride.

Mrs. Western and Mrs. Simpson both wore pink crepe dresses with white accessories and corsages of pink carnations.

The reception was held at St. Marys Hall in Petersburg. Miss Jenny Sites and Miss Kim Turley, Petersburg, served cake and punch, and Miss Barbara Western, another sister of the bride, registered guests.

For their wedding trip to Blackwater Falls the bride and groom chose matching pant suits. They are now residing at 38 Water street in Petersburg.

Hearings On Davis Dam Rescheduled

Hearings before the Federal Power Commission in Washington D. C., on the proposed Davis Power Project have been rescheduled by the Commission to begin January 8 1974. A previous order had set the hearings to begin November 6, 1973.

Application for a license to build the 1,000,000 kilowatt pumped storage hydro-electric power station in Tucker County was filed June 3, 1970 by Monongahela Power, West Penn Power, and The Potomac Edison Company. The three companies comprise the Allegheny Power System serving a population of 2,500,000 in five states.

The Commission order calls for the staff of the FPC to file a draft environmental impact statement by August 15, 1973. The rescheduling is a result of a request by the staff for more time to prepare this statement.

A public hearing may be held in the vicinity of the project December 7, 1973 prior to the filing of the FPC's final environmental impact statement. Location of the session has not yet been announced.

The applicants' environmental impact statement on the Davis Power Project was filed June 1, 1971 and has since been supplemented by other materials in response to queries by the Commission.

The hearing date of January 8, 1974 represents a compromise between the date of November 6, 1973, which had been announced by the FPC for the hearings and a request by the FPC staff for a date later in 1974.

"We are aware of the extreme necessity for construction of new generation at this time," the FPC order said, "however, we cannot overlook the requirements of the National Environmental Policy Act and recent court interpretations of the Act calling for an independent evaluation by Commission Staff of environmental impacts of proposed projects and circulation of an adequate draft statement for comment. Issuance of a draft environmental impact statement by Staff which is insufficient is obviously self-defeating and could well lead to much greater delay."

The three Allegheny Power System companies propose to create a lake of 7,200 acres on the Blackwater River in Canaan Valley. Water from this lake would be pumped to a reservior of 600 acres located 900 feet above the valley. Off-peak power from existing System generating stations would be used for this pumping. Then during periods when the use of electricity is at its peak demand the pumps would be used as turbines and water flowing from the upper reservoir would produce electricity.

A "Watergate course" has been set for the University of Chicago for this fall.

Meet The Staff

PAUL RODEHEAVER

This week, our Meet The Staff column is featuring Paul Rodeheaver. He has been working at Foodland for almost two years. His duties are in the meat department and carry a great amount of responsibility. He is responsible for all prepackaged meat such as lunch meat, bacon, hot dogs, etc., and also all frozen meats and fish. These items account for a large percentage of meat sales and it takes a special kind of person to be able to take care of this job. He not only must see that enough product is ordered, but that the cases are always full, and that all the products offered to Foodland customers are the freshest possible.

It's difficult to say enough good things about Paul. He works very hard at his job and has a sincere desire to make sure the customer is pleased with the products they are buying. Customers are used to seeing Paul when they come to Foodland.

The job that Paul does is one that is very important to the total operation of a grocery store. Everyone at Foodland is very proud to have Paul Rodeheaver as a member of our team. He is very well liked by all the employees and just an all 'round asset to the company.

Paul and his wife Linda live in Loch Lynn and have just recently been blessed with their first child, a boy, which they named Steven Allen. In his spare time Paul enjoys hunting and all other outdoor sports activities.

DON'T BE AFRAID!

Jeannie is still at the age when she can look at life unafraid. She's a happy and trusting little girl, and she is sure Daddy will catch her at the bottom of the slide.

As we grow older, our fears accumulate and sometimes they rule our lives. We grow afraid of losing our job, our health or our possessions. There is fear of being "different." We often go along with things that we know are wrong, just because we're afraid to take a stand. Many of our fears have no foundation. Yet we go through needless suffering, worrying about things that will never happen.

The Bible says, "If God is for us, who can be against us?" Through the Church, we receive assurance of God's constant love and protection in all our adversities. And we come to understand the comforting Truth . . . "Perfect love casteth out fear."

THAT ONE WORD

Lesson for August 12, 1973

Background Scripture: Leviticus 19:18; Deuteronomy 6:4-5, Mark 12:28-34; Luke 10:25-37, Romans 13:8-10. Devotional Reading: 1 Corinthians 13.

A little boy was being questioned by his grandmother concerning what he had learned in Sunday school. "Do you know the Ten Commandments?" she wanted to know. "Well," said the little boy, "I was going to learn them, but I heard talk that they were going to do away with them."

Rev. Althouse

Perhaps he had heard someone observe that the "new morality" seems to be doing away with the Ten Commandments. He may have gotten the impression that Jesus himself had repealed the Ten Commandments. For this is precisely what his enemies charged. This brazen Nazarene preacher with his "new morality" was undermining all the old moral absolutes.

Fulfill, not destroy

Actually, they misunderstood him and his intention. "Think not that I have come to abolish the law and the prophets; I have come not to abolish them but to fulfill them" (Matthew 5:17). Of course, even that statement made them angry, for why did the Ten Commandments need to be fulfilled? The Ten Commandments are quite clear.

If, however, they had listened to him carefully, they would have understood that Jesus was advocating not a lower standard of morality, but a higher one that went beyond the letter of the law to the very spirit and purpose of the law. His "new morality" actually aimed higher, not lower.

Jesus knew that moral choices are not always simple and clear-cut. There are times when one cannot make a moral choice that is wholly good and free from evil. A man working for a firm that indulges in unethical business practices, for example, may find it difficult to decide whether to resign and thus witness to his moral principals, or remain and do what he can to change the policies.

The law, he knew, was only an incomplete expression of the will of God. Thus, when they came asking him what was the most important of all the laws, he summed up everything with this: "You shall love the Lord your God . . . and your neighbor as yourself." In short, the purpose of God could be best summed up in that one word, LOVE.

Beyond the word

Love was always the key to his "You have heard . . . but I say to you . . ." God desires not only truth from us, he taught, but truth in love. The gift of sex finds fulfillment in love, not exploitation. In speaking of the child's responsibility to honor his parents, he called for love as both the motive and the power for this obedience. Again and again, fulfilling the law and the prophets was dependent upon the power of love.

He was not content, however, to merely speak this word "Love." It means too many different things to different people. He made that Word become flesh and in one agonizing afternoon on a cross he showed men all that he meant by that one word . . . LOVE.

HOW DO WE FILL A PRESCRIPTION?

Although it may sometimes appear to be a simple procedure there are many elements that go into getting a prescription ready for you to take home. First we will check to be sure that we have no record of other medicines that you may be taking that could interfere with the new one.

Then after carefully checking the name of the ingredient and the dosage we will put the medicine into its container. The label will then be typed with all the instructions, and along with any special cautions, will be attached to the container. The final step is to double check every step of the procedure before giving it to you.

★

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours?

Playhouse Closeup

After nine seasons with the Garrett County Playhouse, Milburn Mehlhop is at least a semi-permanent fixture in these parts. A native of New Mexico, Milburn came to our stage in 1965 from the University of New Mexico and now that his official residence is New York City he looks upon Garrett County as his summer home.

With a college career behind him, Milburn has in recent years performed in New York and on tour from Vermont to Tennessee with Maximillion Productions, Inc. Last year his original script, "Louise," was presented in New York's WPA Theatre under the direction of Norman Thomas Marshall. Between and sometimes during acting and singing engagements, he has worked with CBS, both in the newsroom and in the now-defunct EVR division.

Last autumn, Milburn worked with the H-P Stores advertising department in the absence of director Aza Stanton, an experience he found gratifying and enlightening. The position was also a perfect outlet for his recently-developed bent for cartooning and painting.

This season at the playhouse, Milburn realized a longstanding desire—to play Dracula. And now all he can say is "some people have all the luck."

IN MEMORIAM

In loving remembrance of our dear son and brother, Terry Lee Miller, who passed away in a tractor accident one year ago, August 10, 1972.

In memory's lovely garden
where remembered joys
bloom fair.
Your memory, dear Terry, is the
sweetest blossom there.

It's a little bit of Heaven that
has blossomed here on earth,
And seems to make the skies
more blue.
Just to have had a son like you.
Missing you, yes, we mourn,
but faith assures,
'Twas your entrance into Life,
Life that endures.

Sadly missed
Fondly remembered,

NEWS FROM THE Ruth Enlow Library

by Edith Brock

Magic is the drawing card for the summer reading club's closing party at 10 a. m. on Saturday, August 11, at the Ruth Enlow Library in Oakland.

"Ben Sinceli's Magic Show," a well-known production by a local magician, will highlight the party for members of the reading club, "Walk in My Shoes," and all other interested children. Melanie Ryan will serve as master of ceremonies.

A separate party will be held in the Grantsville Branch for the convenience of members in the northern part of the county.

That party will begin at 2:15 p. m., Saturday, August 11, with the feature being "Ghosts and Ghoulies," an English-made children's adventure film.

Door prizes at both parties will be awarded among those who qualified by reading 10 books including five on the "Walk in My Shoes" theme.

Certificates of completion will also be presented. Members should try to complete their book lists before Friday, August 10.

The reading club has been in progress since June in all county branches and on the bookmobile.

Art work by members will be displayed at the separate parties, and all the pieces will be placed in the main branch in Oakland for several weeks of display.

This week also, the library is participating in the Garrett County Fair for the first time.

To make known the variety of materials available, the exhibit is comprised of books and magazines for browsing and borrowing, and samples of audio-visual materials with a short film being shown every 20 minutes.

Library staff members are on hand to issue library card applications.

IN MEMORIAM

To the memory of Mrs. Albert Baker, who passed away one year ago.
Out of the pain of night-watching removed
Into the sleep that God gives His beloved,
Into the dawn of a glad resurrection,
Into the house of unbroken affection,
Into the joy of her Lord, thence confessing
Death in disguise is His angel in blessing —selected

Members answered this call last Friday following a two-vehicle accident on State Route 39, east of Hutton where three persons were injured. Edward Sines, left; Beverly Remley, Ben Sincell, kneeling; with Roy Hinkle, Jr., in the rear preparing the cot, are shown in this photo. IN MEMORIAM

In loving memory of our grandson, Terry Lee Miller, who passed away one year ago, August 10, 1972.
We do not need a special day
To bring you to our mind.
The days we don't think of you
Are very hard to find.
It's been a lonesome home
without you,
And sadness has been the way.
For life and home are not the same
Since you were called away.
Sadly missed by Grandma

IN THE COURT OF APPEALS OF MARYLAND
NOTICE
OF PUBLIC HEARINGS

Subject: Legislative Districting.

Time: 10:00 A.M., Monday, September 10, 1973.

Place: Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland.

The Court of Appeals of Maryland, by Order dated July 31, 1973, in the case entitled In the Matter of the Legislative Districting of the State determined that the legislative districting plan of the Governor of Maryland, submitted pursuant to #5 of Article III of the Constitution of Maryland, setting forth the boundaries of legislative districts for the election of members of the Senate and House of Delegates of the General Assembly of Maryland, which was introduced to the General Assembly as a Joint Resolution un January 10, 1973, and became law on February 24, 1973, as Joint Resolution 1 of the Senate and Joint Resolution 2 of the House of Delegates, was not prepared in conformity with the "public hearings" requirement of said #5 of Article III of the Constitution of Maryland and was therefore invalid.

In view uf this invalidity, and consistent with the provisions of said #5 vesting original jurisdiction in The Court of Appeals to review the legislative districting of the State and to "grant appropriate relief" where it finds that the legislative districting of the State is violative of either the federal or State constitutions, the Court has determined to "grant appropriate relief" in order to effectuate a legislative districting plan in full compliance with all constitutional requirements.

Accordingly, the Court has adopted the legislative distrletting plan submitted by the Governor of Maryland as the plan setting forth the proposed boundaries of the legislative districts for the election of members of the Senate and House of Delegates, unless cause to the contrary be shown in accordance with the following provisions contained in the Court's Order of July 31, 1973

ORDERED that public hearings be properly scheduled and held, commencing at 10:00 A.M. on September 10, 1973, and continuing until completed, in Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland, before the Honorable Hall Hammond, a Special Master heretofore appointed by the Court, under such rules of procedure as may be promulgated by the Court or Special Master, to permit members of the general public to provide pertinent and relevant information enabling the Court to make final the legislative districting plan in full compliance with the Constitution of the United States and the Constitution of Maryland; and it is further

ORDERED that notice of said public hearings shall be caused forthwith to be published by the Clerk uf the Court in two newspapers in each county, where so many may be published, or where not more than one may be published, then in that newspaper, and in three newspapers published in the City of Baltimore, once a week in each of four successive weeks; and it is further

ORDERED that the Clerk of the Court make copies of said plan available to such members of the public as may request the same at least three weeks prior to the scheduled public hearings; and it is further

ORDERED that any registered voter of this State, in addition to the petitioners in the present proceedings, who desire to show cause why the said plan, ur any part thereof, should not be duly adopted as the final legislative districting plan for this State shall formally intervene in these proceedings and present his objections to said plan on or before September 30, 1973.

Registered voters who intend to formally intervene in the proceedings should caption their pleadings "In the Matter of the Legislative Districting of the State" and file the same on or before September 30, 1973, with the Clerk of the Court uf Appeals, Courts of Appeal Building, Annapolis, Maryland.

THE REPUBLICAN

VOLUME 97 — OAKLAND, GARRETT COUNTY, AUGUST 16, 197[illegible] — PER COPY 10c — NUMBER 25

Break for Non-Smokers

Perhaps a break is coming for non-smokers in buses, at restaurant counters, and other places.

Not long ago proprietors of a popular restaurant in a Western city decided to set aside one of their dining rooms for non-smokers two nights a week. The idea caught on and the non-smoking area was enlarged. Other restaurants have followed suit.

There is growing public sentiment supporting the view that persons who do not smoke have a right not to be bothered by tobacco smoke in public places. Planes in many cases separate customers much like the railroads used to do. At restaurant counters, however, the non-smoker many times gets caught between a smoker and the ventilating fan.

There has been some legislation restricting places where a smoker may smoke, but legislation is not the only approach. Operators of restaurants, stores and other places open to a public clientele have the option of restricting areas where people may smoke. It is an option they might do well to exercise as good business, if for no other reason, since non-smokers are really in the majority.

Perhaps the air can be partially cleared. This would be an advantage for both the smoker and non-smoker. We are even having days of smog on the mountain top right now and it could become worse.

John Rollman Murdered In Houston, Texas

Episcopal Priest And Another Man Assaulted by Three Men Saturday

Three assailants abducted an Episcopal priest and his companion Saturday in Houston, Texas and took them to a remote river bank where the clergyman was stripped of his clothing, robbed and beaten to death with a tire tool.

The priest was Rev. John Frederick Rollman 43, native of Kitzmiller, and son of Mrs. Mary A. Gross Rollman, of Mt. Lake Park, and the late Clarence F. Rollman.

"I am a priest," the Rev. Rollman shouted moments before he was clubbed to death, said Perry John Lewis, his companion.

Sheriff's deputies said Lewis, 23, was also beaten, tossed into the San Jacinto river and left for dead.

"Then they dragged me out and hit me with a tire tool," Lewis said. "They dragged me to the water and tried to drown me. They pulled me out and struck me with a tire tool again." Perry struggled about one mile to the chemical plant guard house and called for help. He was hospitalized in poor condition.

According to Lewis three tall young men abducted the pair outside his apartment and forced them into the trunk of Rollman's car.

Rollman was director of chaplain education at St. Joseph Hospital in Houston. He was wearing street clothes when he was kidnaped.

He had the small Holy Cross Episcopal church near the Houston Ship Channel where according to Rev. John R. Birkmeyer he would take care of souls there every Sunday. "He pretty well carried on the whole program at the church and did a superior job, he said. "He would have been there this Sunday. He was a splendid man."

Birkmeyer said Rollman was always at the mission church when needed.

Also surviving in addition to his mother, are a sister, Mrs.

The subscription price of the newspaper also will be increased in the near future.

Most of the weekly newspapers in the Tri-State area had been at the fifteen cent mark for many months.

Golf Tourney Opens Friday; List Tops 100

Three Former Champions Will Enter Eleventh Annual Event This Weekend

The entry list for the eleventh annual Western Maryland Amateur Golf tournament, scheduled for this weekend at the Oakland Country club will again top 100, according to James Kreyenbuhl, golf pro. Kreyenbuhl said this year will be the largest field ever for the tourney which annually draws some of the area's outstanding golfers.

Three former champions will participate. Lindsey Gonder, Oakland; Jack Forbes, Morgantown; and Joseph "Pepper" Inskeep, McCoole.

Gonder won the first tournament in 1963, with a score of 302. Also among the contenders will be defending champion, Jack Forbes of Morgantown, W. Va., who won last year's matches with a score of 298. Forbes also won the tournament in 1969.

Meanwhile, during warm-up rounds on Tuesday Joseph "Pepper" Inskeep, of McCoole, registered a hole in one on the course. He aced the 165 yard par-three ninth hole while playing in a foursome with Gene Helbig, Bob Vanacci and Ellis Cogley.

Inskeep won the tournament in 1964 and 1965 recording a score of 291 in 1964. The tournament record is held by Steve Wood of Morgantown, who finished with a 290 in 1967. It was not known whether he would compete this year.

The tournament has had a Morgantown flavor since 1966. Forbes won the tourney three years while other Morgantown winners were Everett Wray in 1971 and Jimmy Goodwin in 1955. Steve Wood in 1967 and Jim Kuhn in 1968.

Tournament chairman is Phil[illegible] Prayer, who also is in charge of the prizes. Prizes and other trophies will be presented to the winners on Sunday evening following the conclusion of the tournament. A dance is being planned for Saturday evening at the clubhouse.

Deer Park Man Fatally Injured

Edward James King, 59, Involved In 3-Car Collision

Edward James King, 59, Deer Park was fatally injured in a three vehicle collision at 11:25 p. m. last Thursday night on state route 135 with the intersection of old Deer Park road. Mr. King was pronounced dead on arrival at Garrett County Memorial Hospital. Two other persons were injured in the crash.

A second operator, James Eugene Schmidt, 20, of Swanton, was taken to Garrett County Memorial hospital and subsequently transferred to the West Virginia University medical center at Morgantown where he underwent surgery.

The third operator was Donald Wayne DeWitt, 19, also of Deer Park, who was treated and released at the hospital.

Both the Schmidt and DeWitt vehicle were traveling east on route 135, police said, while Mr. King had been traveling west on the highway. Police indicated that Mr. King was attempting to make a left turn into the old Deer Park road when he was hit headon by the Schmidt vehicle and then struck in the rear by the DeWitt vehicle. Another vehicle driven by Barry Snyder, narrowly escaped the crash.

The Southern Garrett County Rescue squad was not called until some fifteen minutes after the accident occurred. The squad's ambulance was used to take the occupants to the hospital and later took Mr. Schmidt to Morgantown.

The mishap was investigated by Trooper John Foley of the Maryland State Police.

The Schmidt youth was reported improving yesterday at the medical center. A large number of people had gone to Morgantown since the accident to give some forty pints of blood for his use.

Born August 11, 1912 in Stricker, Mr. King was the son of Mrs. Laura M. Friend Flanigan and the late Amanuel B. King.

Also surviving are his widow, Hazel L. Hardesty King, three sons, Robert E. King, Las Vegas, Nev.; Richard E. King, Washington, D. C.; and Randall E. King, at home; a sister, Miss Lola R. King, Deer Park; a brother, Harry R. King, Deer Park, two half sisters, Mrs. Betty Beckman, Deer Park; Mrs. Dolly Bagett, Annandale, Va.; and two grandchildren.

The body was taken to the Minnich-Stewart Funeral home in Oakland. Funeral services were conducted from Kurtz chapel, near Swanton, on Monday afternoon at 2 o'clock with Rev. C. Franklin Mick officiating. Interment was in Deer Park cemetery.

The three cars involved in the accident were considered total losses.

Bean Yield Is Heavy This Year

1,300 Tons Harvested Up To Aug. 14; 39 Growers Participated

As of August 14, thirteen hundred tons of green beans have been harvested in the area and delivered to Jenkins Food corporation at Frederick. Harvesting began August 3.

Batty Ridder, field representative for the cannery, stated that the yield was exceptionally heavy with good quality beans, with the pods being long, slim and meaty. In some fields the vines have fallen due to the extra weight of fruit and foliage, making them difficult to pick mechanically. Thirteen tractor mounted picking machines have been working overtime to keep abreast of the maturing beans, he said.

Local gleaners have been enjoying a "field day" with entire families sometimes moving in after the machines have gone through. Most growers offer gleaner's privileges at $1 per bushel, when according to Mr. Ridder, is a nice bargain for all concerned.

"On the one hand the gleaner gets choice, garden-fresh produce at a surplus price and on the other the grower enjoys a small assist on his fertilizer, seed and labor responsibility," Mr. Ridder said. Growing costs are higher than for average field crops.

Beans were planted beginning May 30, continuing through July 4 at the rate of 40 acres for each weekday and must be harvested at the same rate to assure the canner a steady flow of choice quality beans.

Twelve hundred acres of beans are being grown under contract with 39 local growers this season. Mr. Ridder said that approximately 385 acres had been picked by August 14 and that the project should be completed by September 6 to 8.

The average yield per acre this year is three and one-half tons, Mr. Ridder revealed. The farmer receives $50 per ton with the cost of raising the crop about half this amount.

Record Attendance Swarms To Fair

A record-breaking crowd flocked to the seventeenth annual Garrett County fair, which ended Saturday evening.

According to Harley Brenneman, who was in charge of gate receipts, 20,000 paid to gain entrance to the fair. All children under 12 and those with season passes were admitted free, so no accurate count of the total present could be made. This year's gate fees topped 1972 by more than $1,500.

The biggest night, as usual, was Saturday, when over $1,000 was taken in at the gate.

The total number of all exhibits was also more than last year, although in some areas, such as flowers and baked goods, not quite as many entries as the previous year were listed.

A total of 1,800 barbecued chicken dinners were sold between Thursday and Saturday evenings by the Oakland-Mt. Lake Park Lions club. This is the same total as last year, according to Jim Simms, past president of the club. Saturday was the busiest night for dinner sales.

Maryland State Police To Use New 70-Series Tires

The Maryland State Police will be using the new 70-series tires on all patrol cars when the present standard size tire stock is depleted and urge the public to do the same.

They are presently using special bias 4-ply tires.

All patrol cars will be equipped with custom wide tread textile radial tires sized HR70 x 15.

The new radial construction will provide longer tire life, better control at high speed, increase traction, shorter stopping distance, higher gas mileage, a softer ride and reduced operating costs, say the police.

The large radial tires cannot be mixed with other standard tires on the car. They must all be alike, it was stated.

Art Work Of Olen Yoder Displayed

The art exhibit, which the Loar Auxiliary of Garrett County Hospital sponsors monthly, features the work of Olen H. Yoder, a native Garrett Countian. His early life was spent in Grantsville and after an absence of some years he returned here when he retired two years ago and now resides in Oakland.

He is a self taught artist and said he had no idea he possessed any artistic ability until his daughter gave him a "Paint by Number" kit to help occupy his time when he retired. When this was completed he was not satisfied as it was not his own work and when he then proceeded on his own his natural talent was revealed.

He prefers to paint in oils but does some animal, bird and other nature studies in charcoal. His work will be displayed throughout the hospital during August and through September.

The high cost of meat may be creating a new trend in stealing, as noted in St. Louis, Mo.

Sermonette By Area Ministers

by Rev. James Remley

We have just witnessed another successful County Fair in Garrett County beginning on Sunday evening with a Vesper Service. The speaker for the Vesper Service was Dr. Lawrence Sherwood who reminds us of some likenesses and some differences between our County Fair and an ancient Religious observance of the Hebrews which has influenced the Judao-Christian life. He pointed out that on both occasions people brought the best they had to exhibit but that one important difference was that we bring our exhibits to be seen, praised and enjoyed by man and to compete for personal gain while the Hebrews in their Harvest Festival brought their very best as an offering to God. It was their way of showing God is first and thanking Him for His blessings to them. Of those at the County Fair who brought their best to exhibit only a few won first place; of all those who put God first and offer their best to Him each one will win a crown of eternal life and that is worth more than money or a ribbon.

I want to go on to point out that at the County Fair only a few of the people had exhibits and there were a lot of mighty nice ones, but in the Christian Life we each have exhibits each day. For example our personal life is on exhibit every day. Our attitude: be it one of Faith and trust in God or one filled with fears and worries; one filled with joy and gladness and thankfulness to God or an unhappy, sorrowful one without thanksgiving. Our conduct is on exhibit every day; Our thoughts, words we speak, what we are interested in and our actions which originate in our thinking. Our home is an exhibit to the community; our Church, the condition it is in, the way we support it is an improtant exhibit in life. Also, our community life, our Country, our Government, business, industry, labor, all are exhibits before the world.

Each exhibit tells something about the person who presents it. It shows whether the person is careless, careful, sloppy or clean and neat; has imagination and knows and follows the regulations. It is also true that our exhibit in life shows a great deal about us. We may say we are a Christian but our exhibit reveals whether we really are or not. One song puts it this way, "They'll know we are Christians by our love."

The exhibits at the County Fair are judged by people, and the winners are determined by how well they meet certain guidelines such as skill, ability, imagination etc., our exhibits in life before God are judged by God, and the winning ones are determined not by the size of the exhibit, nor by its appearance, but rather by the condition of the heart of the person who presents the exhibit. You will remember the exhibit Cain and Abel brought to God and Cain's offering was rejected Abel's offering was accepted and the difference was that Cain had sin in his life, therefore, his offering no matter how big or how well done was not acceptable. Abel's offering was accepted because he did not sin against God.

We are all on exhibit each day of our life. These exhibits are being looked at every day by someone. If we will bring our best to God, exhibit it as best we know how, and walk with God in forgiveness and in love then in the great Fair of Life we will all be champions in life eternal.

WOULD YOU ...

sell your home for the face value of your homeowners policy? If the answer is no, your home may be underinsured.

Are you playing with fire? A recent survey shows more than half of the U. S. single-family homes lack adequate insurance. The most common reason for this is the impact of inflation on construction costs.

Homes bought no more than five years ago are likely to be underinsured. The median price of a home during that period has increased to $26,000 from $19,350.

WHAT TO DO: Find out what it would cost to rebuild your home. Contractors are estimating $22 per square foot to build a standard home in this area today.

The 80% rule: It's important to know that in order to be assured of full payment for any partial damage to your home, you must have it insured for at least 80% of its full replacement value.

EXAMPLE: If your $30,000 home is insured for $24,000 or more, and a fire does $2,000 damage to your basement, you will receive the entire $2,000, minus the $50 or $100 deductible. However —

If your home is insured for less than $24,000, you receive only a percentage of the $2,000, depending on how much the basement has depreciated in value prior to the fire.

WHAT TO DO: Shop for the best deal. Why? Rates vary from company to company. It's up to you to come up with the best price, check out the different homeowners policies available and see BEALL, GARNER AND GEARE.

Will Operate Hot Meals Project For Senior Citizens

The Garrett County Community Action Agency has received notification from the Maryland State Commission on Aging for the approval of a Grant to operate a Hot Meals Program for the County's Senior Citizens. The Program will initially operate in Jennings, Kitzmiller, and Crellin, and will provide three meals per week to the Senior Citizens in those areas. The delivery of the meals will either be through a community meals center, for those able to get out, or through a home delivery system for shut-ins or the handicapped.

Similar programs may be started in Friendsville and Oakland later in the year. This, however, depends upon the community interest and availability of facilities in these areas, it was pointed out.

The Hot Meals Grant represents the combined efforts of the Commission on Aging and Community Action. The County's Commission on Aging which was reorganized a year ago, have been actively involved in documenting the needs of the county's elderly, and attempting to develop programs to meet these needs.

Mrs. Vivian Tasker, Director of the Program, stated the expanded Hot Meals Program should begin operation in early September. She viewed the meals program as a project which will not only provide nutritious meals but also give the elderly a place to socialize with their friends.

Federal Grant Given Approval

U. S. Senator J. Glenn Beall, Jr. and Charles McC. Mathias have announced approval of a $1.9 million federal grant to the Maryland Water Resources Administration to combat acid mine drainage in the Georges Creek of Allegany County.

The two Maryland senators said the funds will be used to purchase several abandoned strip mines which will be graded and replanted to reduce or eliminate acid mine drainage pollution. The project will improve both the quality and supply of the water in the Georges Creek watershed, as well as its value as a recreational area, it was stated.

The grant from the Appalachian Regional Commission will be matched by $637,000 in state funds.

Methodist Conference Awarded Rural Church

The West Virginia Supreme Court upheld by a 3-1 margin a lower court decision that awarded ownership of a 130-year old rural Methodist church near Morgantown to trustees of the United Methodist church West Virginia Conference.

The litigation in Monongalia county circuit court grew out of the 1966 merger of the Methodist and Evangelical United Brethren denominations which formed the present United Methodist church.

Dissatisfaction over the merger and related matters caused the congregation of the 200-member Avery Methodist church to withdraw its affiliation with the UMC West Virginia conference.

The disaffiliation caused the conference to order the Avery congregation to surrender the church property to the conference. After the congregation refused the conference trustees sued successfully in circuit court to assert ownership.

There has been a similar situation in this county. When the merger occurred U. B. churches at McHenry and Paradise united with the Methodist church while U. B. churches at Loch Lynn and Crellin retained the old name of Evangelical United Brethren.

Summons To Greatness

"Summons to Greatness," is a collection of inspirational thoughts and practical ideas from the messages and addresses of Richard M. Nixon, president of the United States.

Here is another one of the messages:

"Two hundred years ago this was a new nation of 3 million people, weak militarily, poor economically. But America meant something to the world then which could not be measured in dollars, something far more important than military might.

"Listen to President Thomas Jefferson in 1802. We act not 'for ourselves alone, but for the whole human race.' We had a spiritual quality then which caught the imagination of millions of people in the world.

"Today when we are the richest and strongest nation in the world, let it not be recorded that we lack the moral and spiritual idealism which made us the hope of the world at the time of our birth.

"The demands of us in 1976 are even greater than in 1776. May God give us the wisdom, the strength and, above all, the idealism to be worthy of that challenge, so that America can fulfill its destiny of being the world's best hope for liberty for opportunity, for progress and peace for all peoples.

"One hundred years ago Abraham Lincoln stood on a battlefield and spoke of a government, of the people, by the people and for the people. Too often since then we have become a nation of the government, by the government, and for the government.

"We are approaching the limits of what government alone can do. Our greatest need now is to reach beyond government to enlist the legions of the concerned and the committed.

"To match the magnitude of our tasks, we need the energies of our people—enlisted not only in grand enterprises, but more importantly, in those small, splendid efforts that make headlines in the neighborhood newspaper instead of the national journal.

Tire Blowout Injures Two

Two Oakland youths were injured Saturday evening when a tire blew out on their motorcycle on Sang Run road about one-tenth of a mile north of Oakland.

Injured and admitted to Garrett County Memorial hospital were George Forrest Rohrbaugh, Jr. 18, star route 2, and Nicholas Stephen Everd, 16, of West Liberty street. Both were listed in satisfactory condition.

State Police said the Rohrbaugh youth was operating the motorcycle. The rear tire blew out, police said, and both youths were thrown from the vehicle which then came to rest on the roadway.

Trooper D. K. Williams investigated the mishap which occurred at about 7 p. m.

Columbia Gas Offers Budget Plan

Columbia Gas of Maryland Inc. is offering a budget payment program to its residential and commercial customers, in the Oakland area that will enable them to spread their cost of winter heating over the entire year, according to William Deems, company manager.

"The plan is optional," Mr. Deems said, "and there is no extra charge for those who participate."

Deems explained that the gas bill received by area customers in August or early September will indicate two amounts: one is the amount due for gas consumed during the previous month and the second is the budget payment plan amount. By paying the budget amount, a customer will automatically join the budget payment program. the average customer in the Oakland area uses about two-thirds of his annual gas consumption during the four coldest winter months.

"The budget payment program can spread this cost of winter heating over the entire year.

Local Teachers Attend H E Workshop

A team consisting of two teachers, a principal and a health nurse, attended a two-week workshop in health education at Charleston, W Va. This unit, the heart and circulatory system, is the second in a series of three units which will be taught in fifth, sixth and seventh grades.

The program was developed in Berkeley, Calif., and has been spread to other parts of the country by teams of teachers like the Kanawha County, W. Va. team. It is a child-centered program aimed at developing a knowledge of the body systems and a concern for good health.

Garrett county team members included Foster Riggs, principal; Harry Rubenstein and Betty Foy, teachers and Kathryn Speicher, health nurse. They will be teaching the unit in the sixth grade at the Dennett Road school this year and holding in-service workshops for other sixth grade teachers in the future.

At the Charleston workshop were teams from Washington and Allegany counties as well as Garrett and five teams from West Virginia areas.

LETTER TO THE EDITOR

Dear Sir:

Angust 15, 1973

I am writing in response to various oral criticisms directed towards the Southern Garrett County Rescue Squad the past few days.

Most of these comments originated at the scene of a serious car accident last Thursday night on Rt. 135 near Deer Park. One person was critically injured, obviously in need of immediate first aid. It was nearly 25 minutes before the Rescue Squad ambulance arrived on the scene seemingly more than enough time to respond to the call. People began complaining that the Rescue Squad was too slow, inefficient, and disorganized.

The truth of this situation, however, was that the Rescue Squad was not contacted until a full 15 minutes after the accident occurred. By a lack of communication and a few misunderstandings, which hopefully have been resolved, the call for the ambulance was late, almost too late.

If you come upon an accident and it's apparent, or even a suspicion, that an ambulance is needed, find a telephone and make two calls, one to the Rescue Squad and one to the State Police and please, in that order! The number to dial for the Rescue Squad is 334-3133. Learn it. If you forget it, simply dial 0 and ask the operator to dial it. It could save a life.

Oh, and for those of you who decided the squad acted too slowly last Thursday in removing the victim from the car, it was reported that a physician at the Medical Center in Morgantown commended the squad by stating that if the young man had been removed any other way, he probably would have died.

Trust the Rescue Squad. It is very capable and interested only in helping.

Column For Homemakers

By Mrs. Freda Denison Extension Agent

Summer Is A Peachy Season

Summer is a peachy season for more reasons than one. The height of the season comes from June to September. July and August should see the crop peaking, with produce from nearly 20 states on the market. If predictions are borne out, the crop should be good quality.

A luscious treat for all times, a fresh peach is appropriate for breakfast, lunch, dinner or snacktime. The freestone peach is the type you are most likely to find on the fresh market. When ripe, the flesh of the freestone separates readily from the pit. This makes it convenient to eat out-of-hand or to prepare for fruit dishes.

The U. S. Department of Agriculture says that good quality peaches should be bright and fresh with a yellow or creamy background color. Part of the surface usually has a red or pinkish blush. The amount and shade of surface blush varies according to variety and preharvest weather. Blush alone is not an indication of quality.

When buying peaches the homemaker should look for peaches that are firm but not hard. Peaches that are hard, with a green ground color, may not ripen. Unless they are for immediate use, avoid soft peaches. Also avoid fruit with bruised or discolored flesh. At room temperature decay will develop rapidly and may spread to other peaches.

Peaches are extremely perishable. So handle the produce with care lest you bruise fruit that others want to buy. Don't buy more than you can use or store without waste.

To ripen peaches, store at room temperature. If you want to slow the ripening process, put peaches in the refrigerator. But don't keep them there too long—they will begin to shrivel after a week in the "cool."

WASHINGTON REPORT

FROM SENATOR J. GLENN BEALL, JR.

Railroad Reorganization

The financial collapse of the Penn Central and several other railroads in the Northeastern United States has finally forced the government to face up to the problems of deteriorating rail service in this part of the country.

As a member of the Surface Transportation Subcommittee of the Senate Commerce Committee, I have devoted a considerable amount of time to this matter.

The committee recently sent a rail reorganization bill to the floor of the Senate, but unfortunately, it seems to me that the committee has taken the wrong approach to solve this problem.

The committee bill has several major drawbacks, not the least of which is the fact that it extends the reorganization into parts of the Midwest now served by financially sound railroads.

The most serious flaw, however, is the fact that it proposes a year of studies, to be followed by recommendations that would be sent to Congress for further consideration. This could delay implementation of a plan until 1976.

I have therefore joined in submitting a counter-proposal which will be offered as a substitute to the committee bill when the Senate returns to work in September.

Our approach would enable the government to move much more quickly to resolve the rail crisis, and I believe this is of great importance if we are to prevent further deterioration of the present system. It also confines itself to the Penn Central system and other rail carriers in the Northeast.

Instead of taking a year to study the situation and then asking Congress to deliberate further, our proposal would have a system set up and ready to operate under a new corporate structure within a year's time.

This would be accomplished in two stages. The first would be the creation of a non-profit Federal National Railway Association (FNRA). This agency would coordinate the reorganization of the affected railroads into a consolidated northeast rail system.

The basic rail network for the region, called the core system, would be prepared by the Department of Transportation in cooperation with the Interstate Commerce Commission and FNRA.

The core system would take into account such factors as economic efficiency, costs of alternative modes of transportation, the need to maintain efficient transportation for passengers as well as shippers, and the potential for joint use—such as facilities to transfer truck cargo to railroad cars for long hauls.

The final plan for a self-sustaining core system would be submitted to Congress within a year's time, and it would go into effect 30 days later unless it was rejected.

The core system would become the basic part of a new Northeast Rail Corporation, a private company which would acquire the assets of the affected railroads through stock issues and transfers. The corporation would begin to operate the system on a for-profit basis.

Our bill also contains two provisions to provide for persons affected by the rail consolidation. First, it would establish an industrial relations commission to negotiate a new working agreement with railroad employees who will be retained by the new corporation. The commission will also submit recommendations for compensation and other appropriate benefits to those whose jobs will be lost in the reorganization.

Additionally, there is a provision for subsidized rail service in marginal areas that may not be part of the core system. The subsidy would have to be initiated at the state or local level, but the federal government would be obligated to cover 70 per cent of the deficit.

I believe that this approach is much more responsive to the rail crisis that confronts us, and I believe its acceptance by the Senate would be in the interest of all concerned.

ED KOVACH

Many of you probably haven't seen this employee in the store for quite some time. He is Ed Kovach and he is a member of our night crew. Ed began working at Foodland five years ago while a student in high school. Shortly after graduating Ed left Foodland for a tour in military service. Upon completion of his military obligation, Ed returned to Foodland and has been working on the night crew as a grocery stocker.

Being a night stocker is a very special type of job. Ed rarely sees any of the customers, but he has one of the toughest obligations to fulfill for the customer. Each stocker has a certain section of the store for which he is responsible. He must see that his shelves are as full as possible, clean, and that all the popular brands are displayed for sale. Not only does Ed have to stock the shelves but also he must order the product to come in on the trailer load of groceries which arrives each night.

We at Foodland are proud to have Ed Kovach as one of our employees. He excels at his job and takes a sincere interest in his work. To be a good grocery stocker, you must develop speed and accuracy. Ed is among the best at these aspects of the job. He is a very likeable person, and gets along well with all his fellow employees.

Ed and his wife Bonnie reside in Mt. Lake Park and are presently expecting their first child. Ed is very interested in cars and spends much of his spare time working on his own.

Special Session Set By Governor

Gov. Marvin Mandel will call the general assembly into a seeood special session later this month to take up the issue of financial disclosure for public officials. A date of August 20 has tentatively been set.

This will depend on whether legislators can wind up the current special sessioo by August 17 or 18 as planned.

Agreement oo handling of the financial disclosure issue was reached in a meeting betweeo the governor, senate president William S. James, and house speaker Thomas H. Lowe.

The two houses went into recess until August 15. The 11-day recess will allow time for the three massive recodification bills to be printed for final action with the 300 or more amendments tacked on by committees and approved on the floor.

The bills are intended primarily to rewrite and clarify existing statutes which have been passed haphazardly over the years.

Frank A. DeFilippo, Mandel's press secretary, said the second special session would be convened specifically to consider the issue of financial disclosure. He didn't rule out the possibility that some other topic such as removing the interest ceiling oo home loans might be added to the agenda before August 20.

The governor's disclosure bill, designed as a substitute for one he signed into law Monday, will undoubtedly head the list of measures up for consideration.

Three other disclosure bills have already been introduced at the current special session, however, and they and others are likely to be back again for the August 20 session.

An increase in coal research funds is being sought.

More Land Open For Farm Crops

Set-aside requirements will not be included in the feed grain and wheat programs for 1974, J. Walter Margroff, Chairman of the Garrett County Agricultural Stabilization and Conservation (ASC) committee, has announced.

In addition, the requirement of maintaining the farm's conserving base as a condition of eligibility for loans and other benefits will be suspended under 1974 programs.

Other restrictions have been modified or lifted by the U. S. Department of Agriculture recently as the nation gears up for intensified crop and livestock production. Producers with existing long-term land reserve agreements with the Agriculture Department have the opportunity to terminate such agreements for 1974. First step, Mr. Margroff said is to check with the county ASCS Office. Until arrangements are made with the ASCS Office however, the existing agreements and their requirements will continue.

Mr. Margroff also cautioned that set-aside and conserving base requirements remain in effect through the rest of this year. He pointed out that conserving base acreage may be used for livestock grazing and haying without restriction, and that many producers, after first notifying the county ASCS office and agreeing to accept reduced program payments, are also using set-aside acreage for livestock production.

All of the various changes, Mr. Margroff said, were made to free farmers to go all-out to produce for domestic and export markets. Early announcements was made to enable farmers to make plans not only for 1974 cropping patterns, but also to look ahead to arrangements for marketing their 1974 crops.

Producers having questions or wanting more details on the announcements made concerning 1974 programs should check with their county ASCS office, Mr. Margroff said.

RESERVE CHAMPION—Debbie Friend, right, had the reserve champion among the baby beeves which went on sale last Saturday evening at the county fair. Her 1,010 pound Hereford was sold to the First National Bank of Oakland and went for $1.85 per pound. The bank has given the animal to the Garrett County 4-H program. Simulated Drills Feature Rescue Squad Meeting

New members having applications from the Northern Garrett County Rescue Squad are asked to get their registration forms in immediately.

The second training class for Emergency Medical Technician-Ambulance will start the second week in September. Classes are to be held at Northern High School. Class night will be announced later.

The Rescue Squad held a simulated drill at the home of Trooper-First-Class and Mrs. Carl Skidmore on Sunday August 12. Also on hand for the drill were prospective new members some volunteering as victims and others observing.

Butler-Carpenter Ford, Inc. supplied the necessary vehicles that enabled Ron Folk and Harry Michael, squad members, to set up the auto accident scenes.

The make-up crew, Shirley Baker Dotty Folk and Carol Michael, did the job of "applying wounds and injuries" to the victims. This aided ambulance crews to identify injuries and helped in their determining the type of emergency care to be given.

Volunteer victims of the first simulated auto accident were Joe Brown and Donnie Skidmore, in the second auto accident were Juanita Swanger and Jim Skidmore and in the third accident were Tom Galica and Edna McKenzie.

Lynn Newman was a victim of a supposed-to-be snake bite while on a camping trip and at the pond, two "drowning victims" were staged by Donnie Skidmore and Joe Brown.

Little Brenda Skidmore was treated for "pretend injuries" she received when she "fell" from the porch of her home.

The victims were given Emergency Care at the scene of the accidents and transported by ambulance to an area nearby designated as the hospital.

Fire Chief, Clair Folk, of the Grantsville fire department had the engine on stand-by during part of the drill.

A barbecue was held at the fireball after the drill. Mrs. Mary Browning contributed the variety of desserts. The regular monthly meeting followed.

FOP Members, Associates Enjoy Steaks August 8

Some 140 members and associates gathered at the Mountain Lodge 40, Fraternal Order of Police, Maryland State Police for a steak feed August 8 at the lodge.

Those attending enjoyed genuine beef steaks, which they had been collecting for more than a month. The meal was prepared and served by a committee of active members, and was the first social function at the new property.

The lodge is located off Hetz Road in the northeastern part of the county. The local FOP has 40 active members, 100 percent membership of the Cumberland barracks, and 560 associates. All twelve troopers from Garrett County are members.

Mt. Lodge 40, a non-profit organization, is building a recreation area for troopers and associates at the site. The property, purchased some months ago from St. Michael's Catholic Church, Frostburg, is being improved by the members. Thus far, a steak pit and pavilion have been built by the members. The pond is being drained and cleaned and grading for a ball field and better roadway is beginning.

A number of leading economists expect a recession in 1974.

Recent Accident Sends Two Youths To The Hospital

In a recent accident at Altamont, two Swanton youths were hospitalized but since discharged. There were no injuries in three other accidents the early part of the month.

Richard Wayne Wildesen, 16, driver of the car, and his passenger, Ronald Wayne Reckner, 15, both of Swanton, were taken to Garrett County Memorial Hospital following an accident August 1 about 9:30 p. m. on State Route 135 in the Altamont area. They were both discharged two days later.

Wildesen was traveling east on Route 135 and rounded a left turn. His car skidded on the loose gravel on the roadway, went out of control, ran off the road and struck a tree. Trooper J. E. Foley investigated the accident.

Harriett E. Buckel, Grantsville, and Harry C. Joseck, Coraopolis, Pa., were west bound on U. S. Route 40 at the intersection of State Route 495 the afternoon of August 4.

Harriett Buckel stated she was making a left turn when Joseck attempted to pass. Joseck stated he was west bound when Harriett Buckel pulled from the curb into his path. Trooper David Miller charged Harriett Buckel with making an improper left turn and Joseck with improper passing.

Neal F. Towne, Deer Park, was traveling north on Sand Flat road about 3:30 a. m. August 1, near the Pysell Cross Cut road. His small truck ran off the right side of the road and into a fence owned by Oley Weimer. Towne failed to stop after the accident but was located later by a tag he lost from his truck. Tfc. Ronald S. Lewis charged Towne with failing to notify owner of damage he caused to property.

Thomas A. Stewart, McHenry, and Charles F. Dove, Westernport, were traveling south on U. S. Route 219 just north of Mayhew Inn road at 2:40 a. m. August 2. Stewart attempted to make a left turn into a private drive. Dove attempted to pass Stewart and hit him. Stewart was charged with making an improper left turn and Dove with improper passing.

THE CROSSROADS

Who am I? What is life? Where am I going? Why am I here??? When will I know???

Almost everyone who's ever lived has at one time or another asked himself one or all of these questions. Or others--What shall I do? Where shall I turn? Why did this have to happen to me? Who will help? When? ? ?

Sooner or later every man seeks understanding. The seeking can be exhilarating, depending upon where one searches.

Those who turn to God and His Church find unlimited opportunities opening for them, as their concept of life is enriched and enlarged.

If you stand at the crossroads and the world seems a turmoil of conflicting ideas, turn to your church. Its truth never wavers. Its strength and purpose can make your life fuller and happier.

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

THE ANSWER WITHIN

Lesson for August 19, 1973

Background Scripture: Proverbs 23:19-21; 29:35; I corinthians 10:6-13, 31; Galatians 5:13-24. Devotional Reading: Philippians 4:4-13.

American adults, shocked and bewildered by the cancerous growth of narcotics addiction in the United States, often are overheard to ask: "Why? Where did we go wrong?" One observer, John Charles Cooper, thinks we ought not to be so puzzled. In his book RELIGION IN THE AGE OF ACQUARIUS, he says: "Most young people taking drugs today really learned about pills and the possibility of drug relief at home, not on the streets with their peers. A drug-oriented culture such as upper- and middle class America was bound to end up with child addicts sooner or later —and it has come very soon indeed" (Westminster Press, Philadelphia, 1971).

Rev. Althouse

Where God should be

Without necessarily agreeing with the extremity of his conclusion, I would agree that we must look more deeply in trying to assess the lure of the drug culture among youth and young adults today. Like many adults in the world about them, they are looking for the answers to life's problems and frustrations in things outside themselves. They have been conditioned by television and other media to believe that whatever is our difficulty, there is a pill or drug to be taken for its relief. The resource you need, they have learned, is something outside you, something you can ingest and absorb:

Do you have pain? Here's a pill to bring relief!

Are you unpopular? Here's a mouthwash that will change all that!

Do you need prestige and admiration? Our car will bring you that!

Do you want to be a man of distinction? Drink our whiskey and you will be!

The answer, we are lead to believe, is always outside us.

Yet, in fact, the answers we seek are more frequently within us. Even medically speaking, pills and drugs are not the answer, but often simply allow the healing power in the human body to do ils work. The answers to most of our problems are not "out there," but as close as the God who dwells within us. Pills, drugs, alcohol, and all kinds of material goods may very well become substitutes for God. They occupy the place in our lives where God alone should be.

Beyond drunkeness

Narcotics, alcohol, and other things outside of us are often used as the means whereby people try to cope with the problems and frustrations of life. Yet, as the writer of Ephesians puts it, "... do not get drunk with wine, for that is dehauchery; but be filled with the spirit" (5:18). These "outside" things may be alternatives to God's Spirit.

Drunkenness and addiction are bad enough by themselves, but the issue really goes beyond this. Addiction and Christianity are competing religions. Both are a total way of life.

SPINACH THAT TASTES LIKE POTATO CHIPS

Not too long ago nearly all medicines seemed to taste pretty awful. And just the thought of taking them was unpleasant. But, today advanced developments in flavoring agents have made most medicines taste almost "too good."

Along with the good comes some bad. When children no longer wince and make a bad face at medicine-taking then it creates a special need to be extra careful. More caution must be exercised to keep medicine containers out-of-reach and tightly shut. And, just because it might taste like something good to eat it should never be referred to in that way.

Small Child And Three Others Are Injured Last Friday

A small child and three other persons were slightly injured in accidents last Friday in different parts of the county. There were no apparent injuries in eight other accidents.

Michelle Joy Bray, 2½, Swanton, was treated and released from Garrett County Memorial last Friday afternoon in Swanton. A car driven by Parker W. Wilkioson, Keyser, W. Va. was traveling west on Swanton Hill road in Swanton when the small child stepped or slipped from the sidewalk onto the roadway and fell against the fender of the car. Michaelle's aunt, Mrs. Betty Wildesen, took her to the hospital. Mrs. Wildesen said the child sustained a slight abrasion of the leg but there were no bones broken where the car wheel ran over the edge of her foot. Tfc. G. D. Broadwater investigated the mishap. They were taken to the hospital by the Southern Garrett Co. Rescue Squad.

Robert E. Daly, Jr., 37, driver of the car, and David H. Fost, 13, a passenger, both of Hancock, were treated and released from Garrett County Memorial Hospital following an accident at the site of a fatal accident the previous day, State Route 135 and the old route 38 into Deer Park.

Daly and a car driven by Ferdinand C. Hahn, Davis, W. Va., were traveling west on Route 135. Hahn was passing two westbound vehicles with the Daly car at the head of the line. As Hahn passed, Daly made a left turn into the path of the Hahn car. Tfc. Broadwater charged Daly with improper turning.

Victoria L. Soto, Pittsburgh, was slightly injured in a one-car wreck on U. S. Route 40 about .8 mile east of Pigs Ear road last Friday near 1 p. m. She was traveling east on Route 40 when the right wheel dropped off the paved highway onto the shoulder. This caused her to lose control of the car which crossed the highway and struck a fence. Tfc. C. D. Skidmore investigated.

Freddie A. Tackett, Friendly, W. Va., was traveling north on State Route 42 near the Kisner road just before noon August 8. Tackett started to apply his brakes when one wheel locked. The vehicle then slid 145 feet, went through a fence and overturned. Trooper David Miller charged Tackett on two counts, failing to keep to the right side of the road and operating an unsafe vehicle.

A three-car accident occurred on State Route 135 in Mt. Lake Park about 4 p. m. August 7. Megan Sarah Eastman, Washington, D. C., Linda Sue Custer, Deer Park, and Herman Durst, Grantsville, were all traveling west on Route 135. Megan Eastman stopped, waiting to make a left turn. Linda Custer stopped back of her. Durst failed to stop, struck the Custer car in the rear forcing it into the rear of the Eastman car. Trooper J. E. Foley charged Durst with failing to reduce speed to avoid a collision.

Vera Anna Humbert, Hyattsville and Frank M. Godack, Baltimore, were both traveling west on U. S. Rottte 40 just east of Foster Inn road the afternnon of August 7. Vera Humbert ran off the roadway. Godack stated he thought the Humbert woman was going to park on the shoulder and continued to move on. The woman came back onto the roadway and was hit by the Godack car. Tfc. D. E. Tharp charged Vera Humbert with negligent driving and Godack with exceeding the posted speed limit.

Michael Charles Filsinger, Deer Park, was driving a heavy duty truck south on State Route 42 about 2 miles north of the Kisner road the afternoon of August 7. He was descending a steep grade when a brake drum broke, causing the truck to pick up speed. The operator immediately ditched the truck and in doing so struck a telephone pole. Tfc. Tharp investigated the accident.

Beverly E. White, Deer Park, was in the process of making a left turn from State Route 560 into the Bethlehem road last Friday afternoon. Bushrod K. Hardesty, Deer Park, was traveling west on Bethlehem road, approaching the intersection with Route 560, on the left side of the road. When Beverly White made the turn into Bethlehem road, she hit the rear of the Hardesty car. Trooper Foley charged Hardesty with failing to keep to the right side of the road.

Earl T. Glotfelty, Mellenry, was backing from a parking place on the Four Winds Restaurant lot last Friday afternoon and backed into a car of a Bedford, Pa., corporation. Tfc. C. D. Skidmore investigated the mishap.

OVER AND DOWN—Driver Larry Ritter, Pittsburgh, Pa., walks away from his overturned truck after a mishap Tuesday afternoon about 12:30. The truck, carrying a load of large tires for Hawkinson Tread, was traveling east on Route 39 when the load shifted, the driver lost control of the vehicle, and the truck overturned just west of the Youghiogheny bridge in Oakland. The truck belongs to the Herbert Schultz Co., Delano, Pa. Town police officer Frank Finch made no charges. — Photo by Terry Knotts.

Illegal Hunting Is Among Variety Of Cases Heard

Illegal hunting, destruction of property, fraud, larceny, assault and battery, misuse of telephone and worthless checks were among the cases heard in District Court by Judge Lewis R. Jones last week.

Earl Delano Foster, and James Milton Reckart, both of the Oakland area, were charged with hunting deer at night by casting rays of light on fields, with fire arms in possession.

Foster pleaded guilty and was fined $200 and $5 costs. Also, his hunting privilege was revoked for two years and all firearms were confiscated by the Department of Natural Resources, to be disposed of by the Director of the Fish and Wildlife Administration.

Reckart pleaded not guilty of the charges but was found guilty and fined $100 and $5 costs. His hunting privilege was also revoked for two years, all lights and some other equipment were confiscated and disposed of the same as Foster.

The original trials were held March 19 but were held suspended until further determination was made. Final dispositions were made at a trial last Friday.

Charles J. Powles, Mt. Lake Park, pleaded not guilty of destruction of property of Carlton J. Sines in Mt. Lake Park, valued at $50. Powles was found guilty and fined $200 and $10 costs. Part of the fine, $100, was suspended on condition he make restitution of $50 for the fence.

David Thayer, Star Route, Oakland, pleaded not guilty of destruction of a screen valued at $35 in the Garrett County Jail. He was placed on probation without verdict, without supervision, and to make restitution as required.

Mary Harvey, Deer Park, made no contest of the charge of obtaining public assistance by fraud in May. She was placed on probation without verdict and to make restitution of $97.20 to the Department of Social Services and to seek psychiatric assistance from the County Health Department.

Carroll M. Johnson, Baltimore, had been charged with larceny of a motorcycle (bike), property of Larry N. Schenk, Deer Park valued at $600. The case was dismissed as the title of the motorcycle (bike) was uncertain.

Richard Reckart, Hutton, made no contest of a charge of misuse of the telephone July 26 at Oakland by threatening Jeanne Glover. A 6-month jail sentence was suspended and he was placed on probation for two years and to seek psychiatric help.

Robert H. Stemple, Terra Alta, W. Va., made no contest of failing to stop for a property damage accident, having struck the car of George W. Keefer near Hutton July 17. He was placed on probation without verdict to the court for six months.

Several assault and battery cases were heard.

Diana Lewis and Audrey Lewis, both of Bradley Manor, Oakland, pleaded not guilty of assault and battery on Brenda Lipscomb July 25 at Bradley Manor. Both women were found guilty and fined $25 and $10 costs, each.

Larry Arbogast, Bradley Manor, pleaded guilty of assault and battery on Thomas B. Butscher, Jr., on Herrington Manor road north of Oakland July 12. A presentence investigation was ordered.

Francis Wilhelm, RD 1, Lonaconing, Garrett County, had been charged with assault and battery on Terry W. Garlitz on RD 1, Lonaconing, Garrett County, July 20. The case was dismissed as the witness was unwilling to testify.

Two cases of passing worthless checks at Tressler's Sport Center were slotted as restitution had been made. The two charged were against Jack Tusing, RD 1, Oakland, and Charles Herman, Ninth street, Oakland.

LETTERS TO THE EDITOR

Dear Sir:

Just got the word friends: The State Roads Dept. is ready to start graveling several previously paved roads. If you need a windshield broken you'll enjoy the news.

This time the news is out before the fact so we can get together and fight the Government and win. Some of you who recall the graveling of route 219 and the results of it will quickly join me in fighting the State Roads Dept.

Here's what is proposed, if we don't stop them: gravel route 39 (toward Crellin) and gravel route 135, where they don't know how to fix it. You know, the 2 or 3 mile stretch of road between the Kitzmiller turnoff and 495. That's the place where several trucking companies have gotten trucks stuck passing vehicles; where you can blow a tire just riding along; where they patch after so many complaints of accidents. We blew a tire and bent a front end on our car on that stretch of road. Since the roads people don't know what to do or how, maybe there should be a public hearing before they repair, resurface or rebuild a road. Please take action!

Thomas E. Doyle

August 9, 1973

To the Readers of The Republican:

During the past several years I have done considerable research on the Harvey family of Garrett County, and as a consequence have written a 440 page typewritten genealogy of this family. A copy of this manuscript has been placed in the Ruth Enlow Library in Oakland, Maryland, on a non-circulating basis.

Facilities used in doing this research include the Library of Congress, the Library of the Daughters of the American Revolution, and the Department of Archives, all in Washington, D. C.; the Enoch Pratt Free Library and the Maryland Historical Society, Baltimore, Maryland; and the Hall of Records and the Maryland State Library, Annapolis, Maryland. In addition, many persons have been contacted, and many cemeteries located in Garrett County have been visited. Perhaps the most informative source of information has been copies of The Republican from 1877 to the present, which are located in the Enoch Pratt Free Library.

Within the next year or two I plan to rewrite this genealogy, and, should there be sufficient interest in it, have a limited number of copies printed for those who desire a copy.

In order to make this genealogy as complete and accurate as possible, I would like to obtain information from the descendants of the progenitor of this Harvey family, namely William Harvey, Jr., (1744-1827?). This would include most people in Garrett County with the surname of Harvey, and also descendants of the following early families of Garrett County: William and Drusilla Harvey Lower, Henry and Sarah Lower Beekman, William and Milly Harvey Junkins, Sebastian and Emily Harvey Hinebaugh, Silas and Martha Harvey Walter, Benjamin and Hester Harvey Moon, John Franklin and Olive Harvey Ashby, Henry and Mariah Harvey Tasker, William and Susan Harvey Sharpless, and others.

I have an Information Form which is available upon request that would be most helpful in submitting information to me.

Thank you for your help and cooperation on this matter.

Sincerely yours,
Marshall G. Brown

Dear Editor:

Of the many unbelievable actions of the Nixon administration, which we do have in mind, the very worst seems to us to be the establishment now in process of some kind of tricky halfway recognition of, and diplomatic relations with, the so-called People's Republic of China. That vast group of suffering slaves is about as much of a republic as the United States Government is a Savings and Loan Society.

Not one of the montebanks now ruling China has ever been elected to any office by anybody. They all acquired and still hold their positions by brute force and terror, without the slightest semblance of legality. Why on earth should our President support their pretense that they represent in any least degree the people of China, when we all know better.

Yet our Senators are somehow influenced or pressured to accept the Fulbright Bill S.1315, which will turn loose within our country countless agents of the Red Chinese regime, with immunity from our laws and with many other privileges that our own citizens do not enjoy. Why?

Have our people in both Houses of the Congress become nothing more than puppets for President Nixon and his allegedly pro-Communist State Department, even at the very time that so many of our congressmen are bent on showing him up by the unceasing exposure of the Watergate mess. Are they willing to do his bidding and follow his leadership down any road that takes us into communism? May God forbid! And may He bring most of the members and that once great body, the United States Senate, back to its senses before it is too late.

Sincerely,
David A. Shafer

Congressman Goodloe Byron
Maryland—Sixth District

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U. S. House of Representatives, Washington, D. C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks.

As a member of the House Commerce Committee, perhaps you could tell me the status of legislation streamlining the rail systems in the Northeast?

The proposed measure, which would create a streamlined rail system from elements of six bankrupt railroads in the Northeast, has passed the Senate and is currently pending before the House Interstate and Foreign Commerce Committee.

What has Congress done about the Policeman's Bill of Rights?

This proposed legislation is currently pending before the House Judiciary Committee which held hearings on the bill in late July. The measure would establish a Grievance Commission to investigate complaints of police officers and it would also formulate a Law Enforcement Officers' "Bill of Rights" providing statutory protection for their constitutional rights and privileges.

Where can I obtain a copy of my birth certificate?

The Majority of Maryland-born residents can obtain a copy of their original birth certificate by contacting the Maryland State Department of Health, Division of Vital Records, 301 W. Preston Street, Baltimore, 21201 or you may telephone 301-383-2675.

What is being done to eliminate acid mine drainage which pollutes so many of the streams in our country?

I have been informed that the Environmental Protection Agency recently awarded a grant for the first phase of a project to demonstrate the feasibility of a new coal mining technique in helping control acid mine drainage. The four-year project is designed to remove shallow-laying coal without tearing open the ground above. Comprehensive testing and evaluation will probably begin later this year and interim reports will no doubt be available to the public.

How many animals are considered endangered species?

The Department of Interior now lists 109 native animals on the U. S. Endangered Species list. The most recent additions include the Utah prairie dog, Northern Rocky Mountain Wolf and Eastern cougar.

Review of The Play

"THE TWO OF US"

The final curtain is about to descend at the Garrett County Playhouse for this season. The last play Gene Yell, producer-director, has brought to local audiences is the delightfully witty "The Two of Us," by the English author Michael Frayn. Really there are three playlets within the framework of the current presentation. And as the title suggests, there are literally two characters in each of the plays.

And what superb performances Mary Beth Bratcher and Milburn Mehlhop turn out. Dialogue is long, but not tedious, and is complete with drama, pathos, and good and great humor. "Black Silver," the opening number, is set within a hotel room in Venice. Husband and wife return to the scene of their honeymoon, but this time with an infant. Many young couples can relate to this scene with little difficulty.

"Mr. Foot," the second playlet, consists of a near monologue by Mary Beth Bratcher. Her husband, played by Milburn is almost completely oblivious to his wife's presence and her conversations with an imaginary lover. However, she thinks that the only way she can get through to her husband is through his foot.

After intermission, the final play is "The New Quixote." Both characters seem to be fighting windmills in their attempts at understanding each other. This is a very sensitively written piece, and our two stand-bys as usual, do a tremendous job of getting their points across to the audience.

Oh, yes, there is a surprise at the conclusion of the formal presentation. But then you must go out to the Blue Barn on Beckman's Peninsula to find out for yourself.

Once again the entire community extends its deep appreciation to Gene Yell for bringing his company of players to Garrett County. This is his nineteenth year for the Garrett County Playhouse. He has chosen his plays well, and he has chosen well his players. Special thanks go to Ken Hill who has directed most of this summer's plays. His professional hand shows through in all he has done.

This reviewer highly recommends this week's presentation. This is your last chance to see summer theater at its best. 'The Two of Us' will run each evening through Saturday, with curtain time 8:30 p.m. Reservations are recommended. They may be made by calling Englander's Pharmacy, Prondfoot's Pharmacy, or Gregg's Pharmacy.

WASHINGTON REPORT

FROM SENATOR J. GLENN **BEALL** JR.

Gas Leaks and Explosions

Within the past 16 months, five residential areas of Maryland and Virginia have been shattered by natural gas explosions.

One of those explosions occurred in Bowie, Md., a few weeks ago, and it took the lives of two young children and their mother. Another explosion last year in Annandale, Va., also left three persons dead.

Leaks in natural gas pipelines and hookups turned these homes into deadly time bombs, just waiting for a spark to set them off.

The increasing frequency of these explosions has been of great concern to me, because it appears that we may not be taking the proper precautions to minimize the risk of these tragic accidents.

Twice within the past month, I have asked the Senate to finance a thorough study of gas explosions in residential areas, and I am glad to report that my proposal has been accepted.

The study which I proposed will be carried out by the U.S. Office of Pipeline Safety (OPS), which will receive a special appropriation of $275,000 for the project.

The recent explosions speak for themselves, but there is other evidence that our gas distribution system needs a safety analysis.

A survey by OPS found out, for instance, that 28 states are not fully enforcing the standards of the Natural Gas Pipeline Safety Act of 1968. They depend on federal enforcement in areas where they do not assume jurisdiction, and this increases the workload of an already overburdened agency.

In Maryland, the Public Service Commission has only two employees working on a part-time basis in its pipeline safety program, and only 22 inspections were made last year.

What this shows is that we are fighting a fire with an eyedropper, and that's just not going to do the job.

Before turning loose an army of pipeline inspectors, however, we should be looking for ways to improve the distribution system—and that is the object of the study which I proposed.

For instance, we ought to find out more about the strength and endurance of plastic pipes that are used as gas lines.

We also should examine the chemical odors that are used to give natural gas a distinctive smell. The gas is odorless by itself, and persons may not be able to detect its presence sometimes because the aromatic ingredients were filtered out as the gas seeped through the soil from an underground leak.

Actually, our whole approach to pipeline safety ought to be reviewed with the idea of designing a safer system instead of just patching up the leaks in the present one.

If we are to prevent the disaster of gas explosions from repeating themselves over and over, we must make certain that adequate safeguards and standards are provided and adhered to in the design, construction and maintenance to gas pipelines and residential service lines.

I believe that the study I proposed will be a great help in directing our efforts against this hidden danger in our homes and neighborhoods.

The prime interest rate set an all-time high of 9 percent in early August.

25 Are Killed On State Highways

Twenty-five persons lost their lives on Maryland highways last week, according to 1st Sergeant James E. Harvey of the State Police. Nine of those killed were drivers, eight were passengers and eight were pedestrians. At least eight of the deaths may have been prevented had seat belts been in use.

Alcohol was a contributing factor in nine deaths, speed in 14 and "driver error" in 18.

Because of the character and volume of traffic usually encountered during the summer months due to vacations, all drivers are urged to put every safety measure into effect.

In four of these accidents in which seven persons were killed, alcohol was involved.

Persons killed through August 12 totaled 505 compared to 500 for the same period a year ago.

IN THE COURT OF APPEALS OF MARYLAND

NOTICE

OF PUBLIC HEARINGS

Subject: Legislative Districting

Time: 10:00 A.M., Monday, September 10, 1973.

Place: Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland.

The Court of Appeals of Maryland, by Order dated July 31, 1973, in the case entitled In the Matter of the Legislative Districting of the State determined that the legislative districting plan of the Governor of Maryland, submitted pursuant to #5 of Article III of the Constitution of Maryland, setting forth the boundaries of legislative districts for the election of members of the Senate and House of Delegates of the General Assembly of Maryland, which was introduced to the General Assembly as a Joint Resolution on January 10, 1973, and became law on February 24, 1973, as Joint Resolution 1 of the Senate and Joint Resolution 2 of the House of Delegates, was not prepared in conformity with the "public hearings" requirement of said #5 of Article III of the Constitution of Maryland and was therefore invalid.

In view of this invalidity, and consistent with the provisions of said #5 vesting original jurisdiction in the Court of Appeals to review the legislative districting of the State and to "grant appropriate relief" where it finds that the legislative districting of the State is violative of either the federal or State constitutions, the Court has determined to "grant appropriate relief" in order to effectuate a legislative districting plan in full compliance with all constitutional requirements.

Accordingly, the Court has adopted the legislative districting plan submitted by the Governor of Maryland as the plan setting forth the proposed boundaries of the legislative districts for the election of members of the Senate and House of Delegates, unless, cause to the contrary be shown in accordance with the following provisions contained in the Court's Order of July 31, 1973:

ORDERED that public hearings be properly scheduled and held, commencing at 10:00 A.M. on September 10, 1973, and continuing until completed, in Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland, before the Honorable Hall Hammond, a Special Master heretofore appointed by the Court, under such rules of procedure as may be promulgated by the Court or Special Master, to permit members of the general public to provide pertinent and relevant information enabling the Court to make final the legislative districting plan in full compliance with the Constitution of the United States and the Constitution of Maryland; and it is further

ORDERED that notice of said public hearings shall be caused forthwith to be published by the Clerk of the Court in two newspapers in each county, where so many may be published, or where not more than one may be published, then in that newspaper, and in three newspapers published in the City of Baltimore, once a week in each of four successive weeks, and it is further

ORDERED that the Clerk of the Court make copies of said plan available to such members of the public as may request the same at least three weeks prior to the scheduled public hearings; and it is further

ORDERED that any registered voter of this State, in addition to the petitioners in the present proceedings, who desire to show cause why the said plan, or any part thereof, should not be duly adopted as the final legislative districting plan for this State shall formally intervene in these proceedings and present his objections to said plan on or before September 30, 1973.

Registered voters who intend to formally intervene in the proceedings should caption their pleadings "In the Matter of the Legislative Districting of the State" and file the same on or before September 30, 1973, with the Clerk of the Court of Appeals, Courts of Appeal Building, Annapolis, Maryland.

James H. North, Jr., Clerk
Court of Appeals of
Maryland
—Adv. 21-4t

7th Day Adventist Parochial School Is Set To Open

Charles E. Bird, Jr., Pastor of the Mountaintop Seventh-day Adventist Church announced the opening of the new Adventist parochial school in its new schoolroom which is part of the church complex at Star Route, on U. S. 219 north of Oakland.

Adding a further dimension to education without support of tax dollars, says Pastor Bird, the local school will follow the same curriculum as the public school—plus religion, using the Bible as the textbook. The purpose of the religion course is to train students to become better citizens by applying the Golden Rule in their lives. Teachers are certified by the state as well as by the denomination. Principal and teacher Kenneth Timmerman will be locating here from Riverside, California.

This school will be one of the more than 4,000 educational institutions operated by the denomination, with an enrollment of nearly 2,000,000 students.

Supplemental Assistance To Come Automatically

People already getting public assistance because they're 65 or over, or blind, or disabled do not have to apply now for Federal supplemental security income payments, according to Jmes E. Rodertson, Social Security District Manager in Cumberland.

"Some people getting State or local assistance misunderstand and are coming to apply for supplemental security income—but they don't have to," Mr. Robertson said. "We're taking applications now only from people who aren't getting public assistance but who think may be eligible for the new Federal peyments that start next year.

"People already getting State or local assistance don't have to do anything now about the supplemental security income program. They'll get more information and instructions later this year," he said.

The first monthly supply supplemental security income payments will be made in January 1974.

New noise regulations are coming for planes, trucks and trains.

14-Year-Old Boy Collapses, Dies

Michael Wright, 14, son of Gordon and Hazel Wright, of Dares Beach, near Prince Frederick, collapsed while walking with a friend Wednesday evening, July 25, and was pronounced dead on arrival at the Calvert County hospital.

His parents were former residents of Friendsville and McHenry. According to a close friend of the family Michael and a friend had been to the beach area and had been doing a little running before starting to walk back home. Suddenly he collapsed.

Parents were called and Michael's father rushed to the scene and gave his son mouth to month resucitation but to no avail. Maryland State Police Trooper V. W. Russow, arriving at the scene, also gave artificial respiration.

An autopsy was performed but no report of the result has been learned by Garrett county relatives.

Michael was a young athlete, participating in the fifteen and under basketball league sponsored by Recreation and Parks last winter. He was an active member of Trinity United Methodist church; member of the Senior Youth Ministry of the church; a sophomore at Calvert Senior High school, was on the school soccer team, varsity squad, and a member of the Babe Ruth Baschall league.

He is survived by his parents; two sisters, Miss Victoria A. Wright and Miss Rhonda E. Wright, one brother, Bradley R. Wright; his maternal grandmother, Mrs. Alvena Mosser, of McHenry; and paternal grandparents, Mr. and Mrs. Russell S. Wright of Akron, Ohio, formerly of Friendsville. Mrs. Kathleen Schenk, McHenry, is an aunt.

Funeral services were conducted Saturday, July 28, from Trinity Methodist church, Prince Frederick, with Rev. James Shannon, pastor, officiating. Interment was in Wesley cemetery, Prince Frederick.

Child Development Program To Begin Co. CA Agency

The Garrett County Community Action Agency announced that it is accepting applications of children, ages to 5, for the Early Child Development Program. Miss Patricia Finan, Director of Child Development stated plans include a Family Center at Bradley Manor, a Mobile Van and four Home Visitors.

The Family Center at Bradley Manor will serve 24 children from that development with two groups of 12 attending for half a day. The center hours will be 8:30 a. m. to 4:30 p. m., beginning Wednesday, September 5, with each group of children receiving a hot lunch. Along with child development activities, health and nutrition components, parent workshops and education will be provided.

The Mobile Van will function as a "classroom on wheels" and is designed to reach those towns or clusters of homes which are not being serviced by other child development endeavors. The Van will contain various play materials and will serve as a "moving classroom" traveling weekly to eight different areas throughout the county. The communities in which stops will be made will not be designated until enough applications are received to indicate which areas are most interested.

Four Home Visitors will also be available for those families who are interested in having their children participate in the program but live in isolated areas which are not reached by either the center or van. Child Development equipment and material will be made available in the family homes for these children, Mrs. Finan said. Parent volunteers and participation are encouraged.

Any persons interested in obtaining applications for their children may do so by visiting or calling the Community Action Office in Oakland. Staff will be available to assist in filling out the applications at the office or in the family's home.

Bean Gleaning . . .

Hundreds of residents are benefiting from the availability of beans to eat and can, and these are being gathered for $1.00 a bushel and even free. Gleaning is permitted over hundreds of acres after the mechanical bean pickers have gone over the territory. The average yield per acre this year is three and one-half tons. Obviously the mechanical pickers miss many, many pounds and the gleaners seem to be having a "field day".

In many instances these gleaners are not open and above board, and in some instances leave the fields with a lot of sacks, sandwich and candy wrappers, empty tin cans and other refuse. Already some of the farmers are voicing complaints for their unprincipled behavior and rightly so. Picking beans at $1.00 per bushel is a real bargain and many farmers are not charging at all. It would seem the only decent thing to do would be to leave the field in as good a condition as it was when the gleaner stepped on the field.

We point out the obvious. Raising the beans is providing a good cash crop for thirty-nine farmers who signed up to grow them. The project also provides many gleaners with garden fresh produce for very little or nothing.

It would be fitting if every single gleaner would express thanks and appreciation to the farmers, and carry out good citizenship practices in every respect. This would leave a good taste in everybody's mouth and insure a similar procedure next year.

Fall Meeting Of Teachers Is Set Sept. 4th

New School Term Will Begin Thursday, Sept. 6

The annual fall meeting of the county teachers in preparation for the opening of the school term next month, will be held at Northern High school, Accident, on Tuesday, September 4, from 9:30 to 2, it was announced by Dr. William Buser, county superintendent.

The program will center about the theme, 'Educational Strategies for the 70s in the county's schools. Topics to be discussed will include the new organization and administration of the county school system, its goals and objectives, its current and projected curriculum development, accountability, evaluation, the building program, and other facets related to an effective school system, Dr. Buser said.

Lunch will be served in the Northern High cafeteria for $1.75 per person.

At 2 o'clock teachers will attend a meeting of the Garrett County Teachers' association to plan for the official opening day of school on Thursday, September 6.

A principals conference is scheduled for Friday, August 31, at 9 o'clock. On Wednesday, September 5 the teachers will have a full day of preparation at their respective schools. A half day of school is scheduled for Thursday, September 6, with a full day on Friday.

Traffic Volume At McHenry Shows An Increase

U. S. Route 219 at McHenry is one of four Western Maryland traffic checkpoints which showed an increase in volume of traffic in a recent count.

The point in McHenry on Route 219 showed a volume of 167,457 vehicles in June with a daily average of 5,581, up from last year's average of 4,126.

The McHenry checkpoint showed a steady increase over last year of the total volume of traffic from January 1 of 19.2 percent.

The other four points showing an increase are: U. S. Route 40 at Town Creek; Clarysville and Maryland Route 36 at Lonaconing. McHenry had the largest increase of the four.

Armory Selected For EMT Classes

The National Guard Armory in Oakland will be the site for lectures and practical training for the new Emergency Medical Technician-Ambulance class which begins Tuesday, August 28.

Water Company Included In Voluntary Program

The Deer Park Spring Water Company a unit of The Nestle Company's Water Division has been accepted for the Food and Drug Administration's Cooperative Quality Assurance Program. It is the first water bottler to sign under the voluntary program.

In accepting the water company under the program, the F. D. A. congratulated Nestle for its "recognition of the value of Cooperative Quality Assurance in the attainment of our common goal of consumer protection."

The federal program is a voluntary arrangement between the F. D. A. and industry members whereby high standards for all phases of quality, product and operational controls, including sanitation and bacteriological analyses, are commitments of the participating members. Also, under the program, such members agree to voluntarily report to the F. D. A. any performance exceptions that might occur.

Nestle also announces that the Bureau of Laboratories of the Maryland State's Department of Health and Hygiene has issued a certificate which approves the quality control supervisor at the Deer Park Mountain Spring Water bottling plant at Deer Park, Md., to perform total coliform membrane filter and plate count membrane filter tests on water.

Since September, 1972 Deer Park Spring Water Company has held an "approved" classification from the U. S. Environmental Protection Agency as a water supply used in interstate commerce.

Membership Drive Begun By Farm Bureau Groups

The 1973 membership drive for the Garrett County Farm Bureau was initiated and organized at a dinner meeting of fifty members of the farm bureau boards, Women's committee and Young Farmers, held at St. John's Lutheran church, Cove, last Wednesday.

Gary Fratz welcomed the group and recognized James McHenry for his efforts in helping to organize the Young Farmers group.

William Clem and David Hager, Maryland Farm Bureau staff members, reviewed services of Farm Bureau and emphasized the importance of unity in agriculture.

Clark Kolb, Accident, membership chairman, announced the goal for this year as equaling or bettering last year's figure. The Women's committee and Farm Bureau directors then met separately to finalize the membership drive and nominate officers and directors to be elected at the annual meeting this fall. Pastor of the host church, Rev. August B. Kreutz, gave the invocation.

Lindsay Gonder Wins W. Md. Golf Tourney

Tied With John Armstrong At End Of Regulation Play

Lindsay Gonder of the host Oakland Country Club, made a 25-foot par putt on the first extra hole to capture the 11th annual Western Maryland Amateur Golf tournament in a sudden-death playoff with John "Slug" Armstrong of Maplehurst club, on Sunday. His final score wass 221.

Gonder appeared on the verge of elimination when his tee shot on the extra hole lodged against a tree. The new champion chipped to the fairway then chipped into the green to set up the winning putt.

Meanwhile Armstrong, on in regulation, saw his 30 foot birdie attempt slide five feet by and his par putt slipped past on the left.

Armstrong, starting the final 18 seven shots back, enarged home with a 70 to force the playoff. A message Tuesday indicated they were working on a fire in Montana at Sand Springs, the "Dove" fire, involving seven thousand acres.

From this fire they could see six other fires burning beyond control which involved 100,000 acres.

The certificate, presented to Sheriff Browning Tuesday morning in his office, is the first such annual award presented by the Association. Since the June elections, Sheriff Browning is first vice president of the group. Shortage of Newsprint Causing Cutback in Size of Republican

A drastic change in the format of The Republican has been made necessary because of a shortage of newsprint throughout the United States. The shortage of the newsprint is due to strikes in Canada which have shut down 11 plants in four Canadian provinces, including the plant which supplies The Republican with the paper.

The office received a truckload of newsprint last Thursday and unless things change drastically no additional newsprint will be available until after the first of the year. This means that in place of 22, 24, 26 and 28 pages, the weekly issues will have to be curtailed to 16 or 18 pages each week with other restrictions. Newsprint suppliers have said that we have surpassed our quota.

The Republican is not happy in reducing the number and size of advertisements because income from advertising is what helps substantially to pay the bills. There must be a semblance of balance in advertising and news so both areas must be cut.

Here are some of the new regulations which must remain in force as long as there is a scarcity of newsprint.

No new accounts will be opened until the shortage is eliminated.

No Cards of Thanks" or "In Memoriams." All accounts which become thirty days in arrears will be automatically cut off. Large illustrations will be reduced or eliminated completely. No new classified display ads for non-commercial accounts. Public sale notices will be printed two times only. Legal ads which are required by law, will not be affected.

Advertising will be accepted on a first come, first served basis.

When the total inches for the week is achieved, no more ads can be accepted for that particular issue.

Letters to the editor must be kept very brief. Writers of the weekly news letters from various towns of the area will have to eliminate local items such as local dinner guests with other local people, and visitors from one nearby area to another.

It is planned to set the type in a way that will save space. Usually type for news stories is set 8 point on 10 point line, meaning there is a 2-point space between lines. But most of the lines will now be set on 8 point solid. It will be necessary to limit news stand sales to their present level.

Being required to cut back in this manner is most regrettable and the staff would like to believe there is some other way. Up to this time we see no break. When and if the situation eases The Republican will return to normal.

To Receive Plaque

Terri Georg, Accident, will receive the Oakland Rotary club plaque as the outstanding youth at the county fair, at the regular weekly meeting of the club this evening at the American Legion home. She will talk about her various activities and how she accumulated points at the fair for her vegetables, ... crafts, clothing, foods, home arts, ... and her participation in the dress revue.

Beard, Moustache Contest Planned

The Oakland Jaycees will again sponsor an Autumn Glory Beard Contest. The contest will be similar to last year with the same categories for beards. However, this year the contest will cover moustaches also, according to Brad Stewart, of the committee.

The Jaycees will also be dressed in the Keystone Cops uniforms for Saturday during the parade as well as before. All day Saturday any male caught without a beard or moustache will be fined and possibly thrown in jail, he declared.

The three, Donald Allen Warren, 16; Thomas Edward Bowman 15; and Ronald Michael Welch, 20; were taken into custody late Saturday by Erie police. They were in a vehicle at the time of the arrest.

Sheriff's deputies went to Erie on Monday to return the trio to the county jail.

All three had been in jail since June and were awaiting grand jury action next month. Warren is charged with larceny, illegal use of firearms and is reported as being an escapee from Victor Cullen School for Boys and Springfield State hospital.

The Bowman youth is charged with grand larceny, forgery, and breaking and entering. He also is an escapee from the Boys Training school. Welch is charged with breaking and entering an Oakland residence and larceny.

The case against the three youths has been waived from Juvenile court to Circuit court for grand jury action.

The three made their escape from the jail by tearing out a toilet bowl and making their way to the basement of the jail. They used a piece of pipe which they broke off to pry loose the bars on a window to get outside, the sheriff's office said.

The sheriff's office also reported Saturday night that the pickup truck stolen by the three escapees was found in Cambridge, Ohio. The three escapees had been seen early Saturday at the Lone Star restaurant on U. S. route 40, near the Pennsylvania State line.

Immunizations Are Required For Pupils Through Grade Six

Children attending Garrett County Schools, kindergarten through sixth grade, are required to have immunizations for diphtheria tetanus, whooping cough, polio, measles, and German measles, Lloyd Robertson, Pupil Personnel Supervisor, advises parents of elementary school children to have the immunization form completed by their physician or the county heath department before school begins. Each student enrolled in kindergarten through sixth grade should have received the health department form from school last spring or when they registered. If parents do not have the form, they should contact the school principal.

Workers At Water Plant On Strike

Members of Local 453, Teamsters Union struck the plant of the Deer Park Spring Water company at midnight last Wednesday.

The strike came after rejecting a company offer. The union had made a counter offer prior to the strike action by twenty-five members of the union.

Joseph Freno, union business agent, said that picketing was going on around the clock of the Deer Park plant which buttles spring water for shipment to cities where it is sold in supermarkets and other stores. The firm is a subsidiary of the Nestle corporation.

Main issues of the contract dispute involve overtime payments for holidays and weekends, job bidding, vacation scheduling and wages, according to Mr. Freno.

Negotiators have been at the bargaining table since the middle of July. Mr. Freno said the union would accept a three-year contract provided the conditions were sufficient to warrant such a pact.

DONNETTE WELLING
For the past year and a half it has been our pleasure to have Donnette Welling as an employee. If all the good qualities of cashiering were listed, she would score A+ on each.
As many of our cashiers have done in the past, Donnette started working for us while still a student in high school. We were delighted when she chose to stay with us after graduation. Due to her enthusiasm and interest in her work, she has advanced rapidly and is now one of our full-time cashiers.
The ability of making a costomer feel welcome comes naturally to Donnette. Her cheerful smile and pleasant disposition have helped to build a closer relationship between our company and its customers.
Not only does Donnette possess an outstanding personality but she is also accurate. Her balancing record is superb. To do this one must be constantly alert. We use her to work in the office each week because her work is always neat and concise.
Persons with a sincere interest in their work are hard to find. Donnette has this interest and is always eager to learn something new. What more can we say except "Thank You" to our exceptional employee?
Donnette resides at 404 "D" Street in Mt. Lake Park with her parents, Mr. and Mrs. George D. Welling. In her spare time she enjoys seasonal sports activities. Also she enjoys socializing especially with a certain fellow named "Mark".

LETTERS TO THE EDITOR

Fellow Americans:

We are living in a modern day world. Today prices are higher, taxes are higher and more people are out of work than ever before. The government, instead of trying to solve the problem, is actually making it worse with its different administrations such as OSHA..

The OSHA (Occupational Safety and Health Administration) sounds as though it is looking out for your safety and health, but really it is out to put the small business man of America out of business. They put so many requirements on the small business man that it is impossible to comply with them, so he is forced to close his operation.

This is the way Communism gets its start by eliminating the small business and baeking the big organizations. Is this the kind of country you want to live in, where "Big Business" controls everything and eventually where the government will control in the end. If not, I suggest we, (the American people) stand up for our rights and let people in higher office know our feelings. Let your Senators and Congressmen hear from you. After all, how can we expect their help if they don't know how we feel.

With the help of good and concerned Americans, and God's help, we will be able to put down organizations like OSHA.

Gary G. Glotfelty, Deer Park

—o—

Dear Sir:

In response to letters written on Red China in recent issues of The Republican, we the people have not put enough emphasis on the faet the drugs our young people are getting are being supplied by Red China and neighboring countries. I would think our government could stop this flow of drugs if it were interested. It is said we must be neighborly with other countries to help insure peace. I question how you can he neighborly with known murderers.

One of the planks of the Communist Manifesto is: "Corrupt the Young." What better way to corrupt the young than to get them hooked on drugs.

It is high time the U. S. citizen wakes up to the fact our government is getting too big. It is now out of hand. When this country was founded it was given a Constitutional Republic type government. A government of the people, for the people and by the people. The Constitution was written as laws for this government to abide by and to protect the people from the government. The government was the servant and the people the master. It would still be this way today if every citizen would stand up for his constitutional rights. The people could insist the government stop wars, stop the flow of drugs, etc.

Sincerely yours, Charles H. Bowman, Mellenry.

DID YOU GET THE FULL TREATMENT?

Statistics show that approximately 17% of the prescriptions doctors write for their patients are never filled. Thus the patient never gets the result from the medicine that his doctor wanted him to have. There are several reasons why an Rx may go unfilled; doubt about why the doctor wanted him to have it in the first place; difficulty in finding a pharmacy stocking the ingredients or fear of high cost are just a few of the explanations.

If for any reason you ever hesitate to have an Rx filled please check with us. Whatever the reason we welcome the opportunity to discuss it with you. We carry a complete supply of drugs.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours?

Not Far From Main Street

Just for a minute, think about the local places you have loved . . . the old swimming hole, the town park, the walk by the river, the view from the hill—your church! Life would be so much less without them; yet we tend to take them for granted.

What a beautiful world God has created for us! How much He must love us to have given us shaded valleys and sparkling waters! He planned for us the constant variety of the changing seasons, for our enjoyment. He made trees and grasses, flowers and fruits. Before such miraculous inventiveness, science stands baffled and incredulous.

It is obvious that behind all creation there is a power greater than we, a power constantly concerned with man's development. In the church of your choice you will find the opportunity to give thanks for the gifts of creation. Here, too, you will learn to understand better the complexities of our world. You will find a faith that will sustain you throughout life.

Church Group Aids 11-Year Old

An 11-year old American Indian girl has a better chance in life thanks to the Church Women of St. Paul's Lutheran Church in Accident.

The Lutheran women are sponsoring the girl, Adrianna Ostle, through the Christian Children's Fund of Richmond, Va.

"We felt the American Indians deserve our help as well as foreign children," said Mary Miller Strauss, spokesman for the group. "We decided to sponsor an American child as part of our outreach fellowship and Christian action objectives of our group."

Adrianna's parents are very poor but hardworking. Her father has not been able to meet the needs of his family. Her mother is resourceful, but she could find no way to provide the clothing and other basics Adrianna needed. Finally, they asked the Christian Children's Fund for help.

Now, under the sponsorship plan of the Christian Children's Fund, the St. Paul's group contributes $12 a month towards Adrianna's support. Their efforts help provide her with food, and other necessities.

Adrianna's teachers report that she is in good health and is making progress in her studies.

The Lutheran group received a photograph and personal history of the girl, and they will be kept up-to-date on her progress. The group also writes to Adrianna.

"We encourage all members to write," said Mrs. Strauss. "And we enjoy her letters and the effort it takes to write them. From the comments in each letter, she seems to appreciate our help."

Mrs. Strauss believes that Adrianna is not the only one who has benefited from the church women's involvement.

"We have the satisfaction that we are concerned for someone other than ourselves," she said. "It is a worthy project and spiritually fulfilling to do something that benefits a child in need."

Fourteen Injured In Recent Wrecks

Fourteen persons were injured in recent accidents in various parts of the county. A few were hospitalized, several were treated and released from a hospital while others were injured but, apparently, not treated at the time of the accident.

Carl S. Klink, 53, operator of one of the cars of a two car wreck, and three of his passengers, Kathy J. Klink, one year old, Nancy Lee Klink, 26, and Mildred H. Klink, 49, all of RD 2, Frostburg, were all treated and released from Frostburg Community Hospital.

Lanny Edward Dillon, 28, Finzel road, RD 2, Frostburg, operator of the other car, was taken to Sacred Heart Hospital, Cumberland, where he had been listed in satisfactory condition.

Klink was traveling south on Finzel road the evening of August 13 and had crossed the center of the road to make a right turn into a private drive. Dillon failed to reduce speed and struck the Klink car. Tfc. C. D. Skidmore charged Klink with failing to keep to the right side of the road and Dillon with failing to reduce speed.

Milton James Jones, 18, Frostburg, a passenger on a motorcycle operated by George D. McKenzie, Meyersdale, Pa., was admitted to Frostburg Community Hospital and listed in fair condition following the accident which occurred on U. S. Route 40 just west of the Allegany County line. McKenzie was apparently not hurt.

They were traveling west on Route 40 and rounding a curve on a wet roadway. The vehicle started to skid, going to the right and striking a guard rail. Both were thrown from the motorcycle which upset in the eastbound lane. McKenzie was charged with operating without proper license by Tpr. Dale K. Williams.

The operator, Kenneth E. Thompson, 38, of Hagerstown, and four of his seven passengers: Robert T. Louden, 40, and Anna Louden, 46, both of Inwood, W. Va.; Kristy L. Thompson, one year old, and Kenneth E. Thompson, 5, both of Hagerstown were all treated and released from Garrett County Memorial Hospital following an accident on U. S. Route 219 at Sid Harvey road the evening of August 12. Melanie Rae Potts, McDonald, Pa., operator of the other car was apparently not injured. The injured were transported to the hospital by the Southern Garrett County Rescue Squad.

Melanie Potts had pulled from a westerly direction on Sid Harvey road onto Route 219 to go south. Thompson, traveling north on Route 219, applied his brakes, went to the left but was unable to avoid a collision with the Potts car. Tpr. Williams charged Melanie Potts with failing to yield the right-of-way before entering a highway.

James C. Broadwater, 64, operator of the car, and his passenger, Loretta Mae Broadwater, 46, both of Elizabeth, Pa., were both injured in a one-car mishap on U. S. Route 40 about a mile east of the Finzel road the evening of August 12. They were traveling east on Route 40, failed to make a left turn, ran off the shoulder, and hit a guard rail. Tfc. Skidmore charged Broadwater with negligent driving.

In eight other accidents there were no apparent injuries.

The car of Robert J. Kirkham, Lake Shore Drive at Deep Creek Lake, was parked on the Garrett County Fair grounds the night of August 8. When Kirkham returned about 11 p. m. he had discovered the right front of his car had been hit by an unknown vehicle. Trooper Ronald C. Georg investigated.

Mark S. Duckworth, Swanton, and Robert D. Pernell, Elizabeth, Pa., in a light truck were traveling on North Glade road about a mile west of Route 495 last Thursday evening. Pernell failed to keep to the right of the center of the road and sideswiped the Duckworth car. Tpr. Georg investigated.

Lyle F. Cosner, Mt. Storm, W. Va., was traveling east on the Foodland parking lot, near Oakland, at noon August 11. Richard E. Welch, East Oak Street, Oakland, was traveling north at the same location. Both reached intersecting lanes at the same time and collided. Tfc. G. D. Broadwater investigated.

Merlyn E. Corby, Star Route 2, Oakland, was traveling north on the Crellin - Underwood road about a mile north of the Underwood road the evening of August 11, when he ran off the road and struck an embankment. Corby stated another vehicle forced him off the road. Trooper J. E. Foley investigated.

Linda B. Robeson, Star Route, Oakland, was waiting to make a left turn into the Garrett County Fair grounds from Mosser road, the afternoon of August 8. Sandra Kay Dice McHenry, following the Robeson car, failed to stop and struck it. Tfc. Friend charged Sandra Dice with failing to reduce speed to avoid a collision.

The light truck of Dorsey E. Chapman, Chestertown, was parked on Main Street in Kitzmiller the early morning of August 11. Richard R. Fout, Shaw, W. Va., traveling west on Main Street was unable to make a left turn, crossed the road and hit the Chapman truck. Tfc. Friend charged Fout with failing to keep to the right side of the road.

Dorothy J. Shumaker, RD 2, Frostburg, traveling north on U. S. Route 219, failed to notice a light truck of Edgar L. Houser, Route 2, Oakland, traveling south and turned into his path.

Gene W. Maxson, Pennington Street, Oakland, traveling north hit the Shumaker car in the rear. Tfc. Broadwater charged Dorothy Shumaker with failing to grant the right-of-way when making a left hand turn.

Donald E. Shaffer, Deer Park, was traveling south on Route 219 just north of the Oakland town limits the early morning of August 14. He applied his brakes to slow for a reduced speed zone. The truck went out of control and turned over on its side. Tfc. Friend investigated.

LEGAL NOTICE

Continued From Page 15

General Assembly as a Joint Resolution on January 10 1973 and became law on February 24, 1973, as Joint Resolution 1 of the Senate and Joint Resolution 2 of the House of Delegates, was not prepared in conformity with the "public hearing" requirement of said #5 of Article III of the Constitution of Maryland and was therefore invalid.

In view of this invalidity, and consistent with the provisions of said #5 vesting original jurisdiction in the Court of Appeals to review the legislative districting of the State and to "grant appropriate relief" where it finds that the legislative districting of the State is violative of either the federal or State constitutions, the Court has determined to "grant appropriate relief" in order to effectuate a legislative districting plan in full compliance with all constitutional requirements.

Accordingly, the Court has adopted the legislative districting plan submitted by the Governor of Maryland as the plan setting forth the proposed boundaries of the legislative districts for the election of members of the Senate and House of Delegates, unless cause to the contrary be shown in accordance with the following provisions contained in the Court's Order of July 31, 197.

ORDERED that public hearings be properly scheduled and held commencing at 10:00 A.M. on September 10, 1973, and continuing until completed, in Room 114 New Treasury Building, Calvert Street, Annapolis, Maryland before the Honorable Hall Hammond a Special Master heretofore appointed by the Court, under such rules of procedure as may be promulgated by the Court or Special Master, to permit members of the general public to provide pertinent and relevant information enabling the Court to make final the legislative districting plan in full compliance with the Constitution of the United States and the Constitution of Maryland; and it is further

ORDERED that notice of said public hearings shall be caused forthwith to be published by the Clerk of the Court in two newspapers in each county, where so many may be published, or where not more than one may be published, then in that newspaper, and in three newspapers published in the City of Baltimore, once a week in each of four successive weeks, and it is further

ORDERED that the Clerk of the Court make copies of said plan available to such members of the public as may request the same at least three weeks prior to the scheduled public hearings; and it is further

ORDERED that any registered voter of this State, in addition to the petitioners in the present proceedings, who desire to show cause why the said plan, or any part thereof, should not be duly adopted as the final legislative districting plan for this State shall formally intervene in these proceedings and present his objections to said plan on or before September 30, 1973.

Registered voters who intend to formally intervene in the proceedings should caption their pleadings "In the Matter of the Legislative Districting of the State" and file the same on or before September 30, 1973, with the Clerk of the Court of Appeals, Courts of Appeal Building, Annapolis, Maryland

Southern Rescue Squad Keeps Busy

The Southern Rescue Squad members were kept busy during the week and Tuesday night made their 50th run since June 30.

They answered a call to the home of Crawford Booth, Monte Vista road last Thursday evening where he suffered a fatal heart attack.

Two calls were made Saturday, one at 11:15 on U. S. Route 219, south of Gortner and brought Mr. and Mrs. Robert Zurcher, of Pittsburgh to the hospital after being involved in a collision.

The other was to Crellin on Saturday evening where Mrs. Helen Reid, 16, had been overcome after taking an overdose of prescription medication.

A call was answered Sunday to the Thousand Acres-Sky Valley road where Gary Reckner had collided with a car occupied by two couples from Greenbelt. Reckner was unhurt and two women and a man were taken to the hospital and later released. An account appears elsewhere.

Later on Sunday both Northern and Southern Rescue squads were called to the intersection of route 135 and New Germany road where another collision occurred. Lester K. Pancake, Keyser, suffered a fractured right arm and was brought to Garrett County Memorial hospital. The other persons, husband and wife, were taken by the Northern Rescue squad to Sacred Heart hospital. The cars had California license tags.

C & P Telephone Is Reorganizing

Reorganization at the C and P Telephone Company of Maryland is bringing new telephone people and changes in operations to Western Maryland.

To have its operating units closer to its customers and more responsive to their needs, the C and P is in the process of changing to area management, effective October 1.

Each of four areas across the state will be headed by a general manager responsible for almost all aspects of customer service within his area.

Charles H. Schmenner, Jr., will be the General Manager for the Outstate Area, which includes Western Maryland as well as Southern Maryland and the Eastern Shore. The Western Maryland Division is headed by Division Manager Joseph C. Mace. Thomas T. Lankford III is District Manager, Cumberland.

C and P serves about 36,200 customers through 23 central offices in the Cumberland District, which includes Allegany and Garrett Counties plus Fridgeley and Blaine, West Virginia.

Angus C. Porter, Jr., is District Traffic Manager-Operator Services for the Western Maryland Division.

William N. Keller Jr. is District Manager-Construction for the area.

There will be no change in C and P business office locations and managers.

Frank H. Eberly, Jr., local C and P manager, said "We are reorganizing for one basic reason: to provide good telephone service.

"Two factors that brought about this new approach in the way we are organized to provide service are growth and change.

Man Treated At Hospital After Tuesday Incident

A Loch Lynn area man was treated and released from Garrett County Memorial Hospital following an incident Tuesday night on U. S. Route 219 about a mile and a half south of State Route 135, south of Oakland.

Donald Shaffer of near Loch Lynn had gone through a red light at the east end of Oakland and was pursued by Tfc. G. D. Broadwater of the State Police. Trooper Broadwater caught up with Shaffer on Route 219.

Shaffer allegally assaulted the officer and in the process of the incident sustained lacerations of the head which required several stitches at the hospital. He was taken to the hospital by the Southern Rescue unit.

We're experiencing tremendous growth in the number of telephone customers and in calling volumes, as well as change in the technology that's available to meet these increasing service demands.

"By being closer to the scene in many of our operations, we expect to be able to serve our customers even better."

Shaffer has been charged with assault on a police officer and intoxication.

LETTER TO THE EDITOR

We would like to take this opportunity to tell the citizens of our confidence in the Southern Garrett County Rescue Squad.

This past Monday evening, several members of the club were shown the facilities the squad has to offer. Various items of equipment were demonstrated.

Everyone should show their support by visiting the headquarters and become better acquainted with the service they have to offer.

To see the concern and interest of these volunteer workers is quite an experience.

Sincerely, The Oakland Homemakers, Mrs. Lois Martin, President.

THE REPUBLICAN

VOLUME 97 | OAKLAND, GARRETT COUNTY, MD. AUGUST 30, 1973 | PER COPY 10c | NUMBER 27

School Time . . .

School bells are no longer ringing, but if they were they would be telling an invitation to Maryland's young people to return to the classroom for the 1973-1971 term. Schools open in the county on Thursday, September 6. Intermixed with the laughter, conversation and renewed friendships will also be death, injury, tears, whispered comments over broken fenders and all the things that accompany traffic accidents. This we are told by the Maryland cooperative extension service.

The service gives out Maryland facts for 1972. There were 130,150 traffic accidents involving over 200,000 vehicles, killing 816, injuring 6,621 persons and losses of property valued at $178,860,000. Every four minutes during the entire year a traffic accident occurred somewhere in Maryland, 15 every hour, 360 every day.

Young were the victims. Of the 816 deaths 81 were under 14, 205 were under 19. Of the 1,813 pedestrians killed and injured, 922 were under 14, 1,177 were under 19.

All of us are urged not to be a contributor to these statistics for 1973. We are urged to use common sense and extra care to protect the young people traveling to and from school.

This is excellent advice.

Foresters Back From West Fires

Eight men from the Maryland Forestry Service in this county returned to their homes Monday afternoon after spending ten days helping to light fires in Montana. They were among the twenty-one persons from the state forestry service who participated. Five of the number were from Allegany county.

The Marylanders were part of over 10,000 men who fought fires the past several weeks in eight of the western states. Garrett county personnel included Roland Schoch, fire control supervisor for the county; Joseph Mechem, John Walters, Charles Thomas, Robert Hershberger, Dale Fike, Ronald Thrasher, and Norman Livingood.

The Maryland contingent arrived at Friendship Airport near Baltimore Monday at 1:30. The group had left August 16.

Mr. Schoch, who resides in Deer Park said his group were flown to Boise Idaho and then to West Yellowstone where there was a 500 acre fire. They then were flown to Billings, Montana where they helped fight a 40,000 acre fire called "Dove" at Sand Spring. This was cattle range territory on land of the Bureau of Land Management, Department of the Interior. They remained there until Friday when they were returned to Boise and thence headed for home.

Mr. Schoch explained that the many fires had been caused by "dry lightning." He explained the territory as very rugged and mountainous.

All of the men from this area were volunteers, but no one was taken over forty years of age. The men were part of an army of 10,500 from throughout the country who fought blazes in Montana, Wyoming, Nevada, Utah, Idaho, Washington, Oregon and California.

The Maryland contingent was under direction of Osmar G. Hebert, chief of forest protection for the Maryland Forest Service.

They worked under a compact arrangement coordinated by the U. S. Forest Service. The federal agency was bearing all costs. Meals were flown to the firefighters twice daily, with the workers using C rations for the noon repast. They slept on the scene in paper sleeping bags, Schoch said.

Dental Office To Open In Oakland

John G. Warnick DDS is announcing the opening of his office in Oakland on Tuesday, September 4, for the practice of general dentistry.

Dr. Warnick's office will be located in the Garrett County Medical Center which is under construction next to the Garrett County Memorial Hospital. Until that office is ready in October Dr. Warnick will be seeing patients in the dental clinic at the hospital with office hours by appointment.

Dr. Warnick is a 1971 graduate of the University of Maryland Dental school and has completed serving two years with the U. S. Army Dental corps at Fort Bragg, N. C. He is the son of Mr. and Mrs. Harry T. Warnick, Lonaconing. Dr. and Mrs. Warnick and their two daughters reside in Mt. Lake Park.

Hanging Attempt Said Accidental

The thirteen year old youth of Loch Lynn who was taken to the Medical center at Morgantown Tuesday after having been found hanging by a rope by members of his family, is out of intensive care and now convalescing.

The youth was Dorsey Shillett, and his sister, Carolyn, 25, said the youth always was playing with ropes and that the hanging was accidental. This statement was confirmed by the youngsters father.

Teachers To Meet Prior To Opening Of School Term

Principals of schools of the county will meet for a principals conference on Friday, August 31 as the first of a series of meetings preparing for the opening of school next Thursday, September 6.

The annual fall meeting of the teachers will be held at Northern High school, Accident on Tuesday, September 4 from 9:30 to 2.

Topics to be discussed will include the new organization and administration of the county school system, goals and objectives, current and projected curriculum development, and related subjects. Lunch will be served at $1.75 per person. Retired teachers will be guests at the luncheon.

Legislators Defeat Effort To Up Interest

Delegate Balden Explains What Financing Is Available At Present Time

During the recent special session of the Maryland General Assembly the effort to increase the home mortgage interest rate from 8 to 10 percent was rejected and a limited disclosure measure was approved.

In explaining the former Delegate DeCorsey Bolden, of Oakland, went into detail to explain what would be available.

Bolden said as a result of the rejection, many lending institutions were not in position to finance home loans.

Delegate DeCorsey Bolden reports that during the recent special session of the Maryland General Assembly the effort to increase the home mortgage interest rate from 8 percent to 10 percent was rejected. As a result many leading institutions are not in a position to finance home loans. Therefore, "I would like to bring to the attention of the residents of Garrett County in the low and moderate income range, who are unable to get mortgages through the normal sources of the availablity of the Maryland Home Financing Program. In order to qualify for the program, the applicant must meet certain income limitations, be a resident of Maryland for the last three years and intend to use the home as a personal residence. The income limitations are geared to the average family income in the various areas of the state, for instance in Garrett County a family of four having an income below $12,469 would qualify in that respect. The interest rate is 6 percent and an additional feature of the program is the minimum down payment of five percent of the total cost of having the property which includes closing costs and prepaid items. There is no restriction on value but there is a $25,000 limit on the loan amount."

The steps in using the program were outlined briefly by Mr. Bolden.

1. Find a house that suits your needs. As a general rule the house should be selling for a price that ranges from two to two and one-half times your annual income depending on the size of your family and the amount of your monthly bills.

2. Enter into a sales contract that includes a provision that will cancel the contract if you cannot get the financing. Your real estate broker can help with this.

3. Apply for the financing with at least two mortgage lenders. If they reject the request get letters from them briefly stating why.

4. If you have two letters of rejection contact the program for an application.

The program is administered by the Department of Economic and Community Development. The Department has followed a policy of a minimum of $200,000 set aside for each county and Delegate Bolden points out that the number of applications committed, processed or settled in our county is ZERO. Your real estate broker can help in this area. Delegate Bolden urges residents in the market for a home of their own to take advantage of this opportunity. If further aid is needed he said individuals could contact him.

He had been severely injured August 9 in a three-vehicle crash on Route 135 near Deer Park. Impact with the steering column split his sternum, punctured a hole in the major blood vessel to the heart, broke ribs of each side, and damaged his liver.

His parents were told that 98 percent of those with injuries such as Schmidt sustained bleed to death in their cars before help can arrive and that the other two percent die on the operating table.

He is a son of Mr. and Mrs. Henry Eugene Schmidt, who operate a farm at Swanton. It will be at least a month before he is able to return to work at 135 Meat Market. He will be returning to the Medical Center September 7 for further x-rays, according to his mother.

The YAF Convention

As conventions go the Seventh Biennial Convention of Young Americans For Freedom in Washington, D. C. in August was outstanding in many respects.

As pointed out by YAF Executive Director Wayne Thorburn, most youth political organizations tend to "shoot onto the scene like skyrockets, make a momentary impact, then dive into oblivion."

Not so Young Americans For Freedom. In this, its thirteenth year, it is bigger, better, and stronger than ever. The youth delegates from chapters representing 46 of our 50 States welcomed a star-studded cast of outstanding speakers who addressed the four day convention. These included luminaries as Senator Barry M. Goldwater of Arizona and Jesse C. Helms of North Carolina; Congressman John M. Ashbrook of Ohio, Stanford E. Parris of Virginia, John Rousselot of California, and a host of others.

The miracle of YAF is that although college-campus oriented, where students constantly shift, coming and going, the organization carries on, year after year. If there is any explanation as to what kind of glue keeps an organization going, it is found in the "Sharon Statement" adopted September 11, 1960 at Sharon, Connecticut, and which today is the torch-light of YAF:

"We as young conservatives, believe: That foremost among the transcendent values is the individual's use of his God-given free will whence derives his right to be free from the restrictions of arbitrary force. . ."

Almost like frosting on the cake, the Young Americans For Freedom convention was capped by the campaign victory of former National YAF Director Robert E. Bauman, 36, for the office of Representative of the First Congressional District of Maryland, formerly held by the late Rep. Wm. O. Mills.

Who says the youth of our nation aren't doing a great job?

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It Is an open invitation for you to question me on issues, let me assist you with your problems, request informa- typical of the kind asked of me tion or comment on whatever happens to be on your mind. While space is obvlously limited for priming all replies, I shall make every effort to answer each person who contacts me.

I am writing to tell you that you just can't get service anymore. Both my refrigerator and washer went on the blink in the past three months and I had a devil of a time getting a repair man out to the house. Can't something be done?

Here's a possible solution—why not contact the Major Appliance Consumer Action Panel (MACAP). MACAP was founded two years ago by several trade associations to resolve difficulties between consumers and manufacturers of freezers, stoves, ovens, refrigerators, washers, dryers, dishwashers and air conditioners. According to the Office of Consumer Affairs, "MACAP is an important organization capable of making authoritative recommendations toward equitable resolutions of problems arising between the consumer and the home - appliance industry. The panel has been open handed and fair in its dealings with the consumer and the industry." The organization apparently wants to help more consumers, so if you have an appliance problem, such as repair service, drop them a line at 20 North Wacker Drive, Chicago, Illinois 60606. Remember though, it is usually better to discuss your complaint first with the dealer from whom you bought the appliance.

I am a 68-year-old veteran with a $10,000 National Service Life Insurance term policy. Recently I suffered a disability which kept me from working for six months. Can't I qualify for a waiver of premiums on my insurance?

The VA informs me that your disability must have been incurred before your 65th birthday in order to qualify for such a waiver.

Does the National Park Service have any films available to showing to junior high school students?

Sale and rental of some 33 National Park Service films covering a wide range of scenic, natural history, historic site preservation and other subjects, are handled by the Harpers Ferry Historical Association catalog describing each title and detailing ordering procedures is available on request by writing to: Film Librarian, Harpers Ferry Historical Association, P. O. Box 147, Harpers Ferry, West Virginia 25424.

My husband and I receive monthly social security benefits on my husband's earnings record. I have been told that if I should die my husband would not receive a death payment from Social Security. Is this true?

Yes, because you received retirement benefits on your husband's record but were not yourself incured under social security. If your husband dies, however, a lump-sum death payment would be made to you because he was insured under social security.

Grantsville Faces Sewage Treatment Overload Problem

Grantsville faces a problem on its sewage treatment system, it was learned at a meeting this week when the matter was discussed by the Mayor and Council, State Health Department and State sources Administration officials, with State Senator William A. Wilson and Delegate DeCorsey Bolden.

The problem is compounded by the fact that Country Belle Dairy company is using a large part of the rated capacity of the treatment plant, according to state officials.

The waste which emanates from the dairy is a type which is said to be difficult to treat. The dairy has been placed on notice that the waste will have to be pre-treated.

The 50,000 gallon per day facility was built in 1966 but in three years an engineering study was made on expansion of the capacity. No action has been taken on the engineering study.

Cost of the extra facilities in 1969 were estimated at $500,000, but this would be over $750,000 at present rates.

Cost of additional treatment facilities would be so high that the tax base could not take care of the financing, according to town officials. It would require grants from state and federal sources to pay for almost all of the needed expansion they added.

Also attending the sessions were Robert V. Creter, regional supervisor, Water Resources administration office, Cumberland, Duvall Powell, an engineer with the state office of WRA; and Jeff Parker and Sylvan Baker, officials with the Solid Waste division, State Department of Health and Hygiene.

Immunizations For School Stressed

Dr. William Pope, Health Officer for the Garrett County Health Department, and Dr. William Buser, superintendent of Garrett County Schools, are again reminding parents of children who will be attending county schools in grades kindergarten through six of the Maryland State Immunization regulation.

By Maryland law, every child attending public or private schools must be immunized against diphtheria, tetanus, pertussis, polio, measles, and rubella prior to entry in school. Failure to comply with this regulation may result in the child's being excluded from school.

Parents registering children in school should take any medical documentation of immunization to their local health center for certification. In the event that a child has not been immunized, parents are urged to contact their physician or local health clinic for immediate enrollment in the immunization program.

Health department personnel have established the following schedule for clinic:

Bloomington, Wednesday 1-3 p. m.; Friendsville, Tuesday 1-3 p. m.; Grantsville, Thursday, 1-3 p. m.; Kitzmiller, Thursday, 1-3 p. m.; Oakland, Friday, 9-12 a. m. and 1-3 p. m.

Several Injured In Recent Wrecks

Several persons were injured in recent accidents in the northern part of the county, some were taken to hospitals by the Northern Garrett County Rescue Squad while others apparently did not need treatment.

Joseph Russell, 29, Lovettsville, Va., operator of the car, and his passenger, Norman A. Russell, Leesburg, Va., were taken to the Frostburg Community Hospital following a one-car accident on U. S. Route 40 about a half mile east of the Zehner road. Russell traveling east on Route 40, lost control of his car, crossed to the left side of the road, struck an embankment and turned over. Tfc. G. D. Broadwater charged Russell with failing to keep to the right side of the road.

Ralston B. Shultz, 56, operator of one car, his passengers, Marjorie M., 53, and Sue Ann, 17, all of Allentown, Pa. and Ruth A. Wiley, 21, operator of the other car, and her passenger Roger Lee Wiley, 17, both of Salisbury, Pa., were all taken to the Sacred Heart Hospital, Cumberland, by the Northern Garrett County Rescue Squad following an accident on U. S. Route 40 at the New Germany road the afternoon of August 20.

Shultz was traveling east on Route 40 when Ruth Wiley pulled from New Germany road into his path. Tfc. C. D. Skidmore charged Ruth Wiley with failing to yield the right-of-way at an intersection. Randall Bittinger, Grantsville, another passenger in the Wiley car was apparently uninjured.

James E. Kent, Deer Park, in a light truck traveling south on old Route 38 at Boiling Spring road in Deer Park the evening of August 21, attempted to make a 90 degree turn. He was unable to complete the turn, ran off the left side of the road and hit a fence. Trooper Robert Friend charged him with operating at excess speed.

David Lynn Wagner, 16, McHenry, operator of the car, and his passenger, Joy Brook Sisler, 17, Accident, were slightly injured in a one-car mishap on U. S. Route 219 at Bumble Bee road late the evening of August 20. Wagner was driving south on Route 219 and attempted to make a right turn into Bumble Bee road. At this time the vehicle went out of control, skidded off the road, struck a ditch and overturned. Trooper J. E. Foley charged Wagner with operating at excess speed for conditions. The car was called a total loss.

Susan Carol Preston, 25, Accident, was slightly injured in a one-truck mishap on Rock Lodge road about a mile south of the Accident-Bittinger road the afternoon of August 20. Susan Preston was driving north on Rock Lodge road and stated she was forced off the road by another truck. Her truck struck an embankment and overturned. Floyd Clement Collins, Deer Park, was charged with failing to keep to the right side of the road by Trooper Miller.

David N. Shaffer, Dennett road, Oakland, was traveling south on the Oakland-Sang Run road the afternoon of August 20 driving a Coca-Cola truck. Suzanne M. Marley, Indiana, Pa., traveling north started to kid, crossed the center line of the road and hit the truck on the left front. Trooper Williams charged Suzanne Marley with failing to reduce speed under certain conditions.

Evelyn J. Heise, Route 219, Oakland, and Edwin C. Hollada, Grantsville, were traveling north on Route 219 near the Glendale road the evening of August 20. Evelyn Heise attempted to make a right turn. Hollada applied his brakes, skidded off the traveled portion of the road and hit the Heise car in the right side. Hollada and his passenger stated Evelyn Heise gave no signal. Trooper Foley charged Evelyn Heise with improper turning and Hollada with failing to keep to the right side of the road.

Authorize Purchase Of Co. Machinery

Sitting as the Roads Board the County Commissioners accepted bids for a dump truck, front end loader and distributor, it was announced following this week's meeting at the court house.

A decision on proposals for a fleet of seven dump trucks has been delayed for further study, Commissioner Wayne Hamilton declared.

The commissioners endorsed Governor Marvin Mandel's recognition that farmlands be considered a valuable resource for the State of Maryland. The governor made the comment at the Maryland Association of Counties conference held last week in Ocean City.

State and county officials had a mixed reaction to federal programs designed to shift more authority back to the local level of government, at the Ocean City conference. The idea of federal revenue sharing had strong support initially but some officials have become disenchanted with the program. Comments came during panel discussions.

Some said the changing government policies were confusing and "demoralizing."

The commissioners also made an on-sight inspection of the county jail to determine the problem behind the recent escape of two prisoners. There are now repair men on the job to help prevent the situation from occurring again.

The commissioners will meet next Tuesday, September 4, because of Labor Day on Monday.

Several Minor Accidents Occur In Post Week

Several relatively minor mishaps occurred on the highways in the county during the past week.

Donna M. Carr, McHenry, and William J. Frantz, Friendsville, were traveling north on U. S. Route 219 just north of the Foster road about 3 p. m. Monday. Donna Carr had slowed or stopped, waiting to make a left turn into a private drive. Frantz failed to notice the Carr auto in time and hit it in the rear. Frantz was charged by Trooper J. T. Foley with failing to reduce speed as necessary.

Earl J. Cozad, Kingwood, W. Va., and Tex G. Lloyd, Kitzmiller, were both traveling east on State Route 135 just east of the limits of Mt. Lake Park last Saturday evening. They were both following another vehicle and both started to pass it at the same time and sideswiped each other. Tfc. Ronald Lewis investigated.

Francis S. Grata, Robertsdale, Pa., was traveling west on U. S. Route 40 at Keyser Ridge last Friday evening. Grata making a left turn onto Route 219 failed to yield the right-of-way to a rig driven by David W. Taylor of Friendsville traveling east on Route 40. Trooper Ronald C. Georg investigated.

Joseph F. Gibson, Terra Alta, W. Va., traveling south on U. S. Route 219 last Thursday morning was making a left turn into Paul Friend road. John B. Workman, Grafton, W. Va., following Gibson, started to pass him as he was making the left turn and the two collided. Tfc. Lewis investigated.

Saturday Wrecks Injure 5 Persons

Saturday one-car accidents in the Oakland area resulted in five persons being treated and released from Garrett County Memorial Hospital. One man was injured on State Route 560 south of Loch Lynn and four were injured at Mt. Nebo.

Michael William Smith 25, of New Windsor, was treated and released from the hospital following an 11 a.m. wreck Saturday when his car overturned on Route 560 at a curve just south of the Dr. Tolson road. He was rounding a left turn traveling north, ran off the road, struck an embankment and turned over. The car was a total loss. Smith was charged with excessive speed by Trooper J. E. Foley.

Four persons were injured in a one car mishap on U. S. Route 219 at the Mt. Nebo road last Saturday about 1:30 p. m. They were all treated and released from the hospital. Michael Carl Goldstein, 30, was driver of the car. Passengers were his wife, Zana Dell Goldstein, 29, and their two children, Adrian Michael, 3, and Elise Joy, 4 months, all of Potomac. They were all taken to the hospital by the Southern Garrett County Rescue Squad.

Goldstein was traveling north on Route 219 when his wheels dropped off the traveled portion onto the shoulder. In attempting to bring the car back onto the road, it went out of control, hit an embankment and turned on its side. The car was called a total loss. Trooper Foley investigated.

Four persons were injured in a two-car accident on U. S. Rt. 40 just west of Beall School road about 1:30 Saturday afternoon. Eleanor Jean Clupp, 22, driver of one car and her passenger, Nellie Frances Pattison, both of Lonaconing, and Robert P. Hershberger, 49, driver of the other car, and his one passenger, Lucille B. Hershberger, 48, both of Scottsdale, were all taken to the Frostburg Community Hospital by the Northern Garrett County Rescue Squad.

Hershberger was traveling west on Route 40 when Eleanor Clupp entered Route 40 from a parking lot on the north side of the road and was hit by the Hershberger car. Both came to rest in a field on the north side of Route 40. Eleanor Clupp was charged with failing to stop before entering a highway by Trooper David Miller.

Cresaptown Wins Girls' Baseball

Also named on the all tournament team were Kathy Fauber, Northern and Donna Moore, Southern.

Cresaptown was unbeaten in the tourney. It eliminated Southern Saturday by the score of 7 to 1. Southern had defeated Barton earlier in the double elimination tournament. In Friday's play LaVale stunned Southern 11 to 7, the first setback for the Garrett County team.

WRONG COMPANY

Lesson for August 26, 1973

Background Scripture: Matthew 12:43-45; Mark 2:13-17; Luke 15:11-32; 1 Corinthians 9:19-23; Galatians 5:25 through 6:5
Devotional Reading: James 1:22-27.

About six years ago my wife and I became involved in an ecumenical coffee house ministry in a nearby city. Beyond providing a good atmosphere for refreshment, "The Source," as our coffee house was called, served as a place where people could meet for fellowship and, at times, to minister to one another's needs. It was an attempt to reach out beyond the four walls of the churches.

Rev. Althouse

The "tax collectors and sinners"

Many of us were dismayed when the local council of churches refused support or recognition of this ministry on the grounds that the coffee house might be frequented by the "wrong kinds of people." The coffee house was located on the town's main street and there was a good possibility that it would be frequented by alcoholics, drug addicts, and people of unsavory character. To many of us, even worse than the refusal to support us, was the apparent outlook and attitude of many church people towards those who might be termed "the wrong company."

Actually, Jesus himself was on the receiving end of this kind of criticism. "Why does he eat with tax collectors and sinners?" asked the scribes and pharisees (Mark 2:16). Nor is this an isolated reaction: Jesus was frequently criticized for his association with people whom the "righteous" regarded as sinful and unworthy of any contact whatsoever. People were frequently indignant that he would associate and even help prostitutes, drunkards, lepers, collaborators with the enemy, criminals, etc.

His reason for coming

They were no less shocked when he reminded them of the true nature of his mission (and theirs if they followed him): "Those who are well have no need for a physician, but those who are sick; I came not to call the righteous, but sinners." (Mark 2:17). If these people were really so immoral, than they needed him all the more. Unlike the Old Testament religion, the heart of Christianity is not judgement, but redemption. The New Testament is no less concerned with human sin, but it is even more concerned for sinners. Christ came into the world to save sinners, to redeem people with stained lives, not simply to gather up and certify the righteous.

Unfortunately, many of us are too often afflicted with the unredemptive attitude of Jonah. Jonah agreed to preach to the people of Nineveh and pronounce God's judgement upon them. He was surprised, however, to find that these godless people heeded his preaching and repented, thus saving the city and themselves. Jonah would have preferred for God to rain down fire and brimstone upon them and, angered by this turn of events, he sulked in steamy silence.

Too many people, like Jonah, would rather use the Gospel to "divide the sheep from the goats," to pronounce judgement upon sinners, and enjoy their divine punishment. But the purpose of the Gospel, as Jesus demonstrated so clearly, is to save and redeem those whom we frequently judge to be "the wrong company."

Limited Disclosure Measure Approved

The Maryland General Assembly has enacted a limited financial disclosure bill less than a week before the deadline for filing statements under a broader disclosure act now on the books.

The legislators gave final approval last Thursday. Assuming the governor signs the new bill into law Maryland's public officials will have until next April 15 to file personal financial statements.

The bill requires officials to disclose all property holdings, all corporate holdings and holdings in other companies doing business with the state; all property and other holdings of an unincorporated business in which the official owns more than 30 percent interest, all gifts of money and property gifts valued at more than 50 cents any state job held by a spouse or dependent child of the official.

The bill covers elected state officials, as well as sheriffs, registers of wills, court clerks, state's attorneys, etc. It does not cover local officials or judges.

Newsprint Shortage Has Not Changed

The newsprint shortage continues and it is necessary that The Republican continue to eliminate names of people attending reunions, items in weekly newsletters where one neighbor visits another neighbor, and similar items.

The Republican simply does not have enough space for advertisers and the day to day happenings and events of the area. It is necessary that the pages each week be maintained at sixteen or no more the 18, which is a sharp reduction over the number of pages the newspaper had been having prior to the newsprint shortage.

If conditions change, people will be notified.

THE IMAGINARY INSOMNIAC

Researchers are putting together sleep data that is dispelling old notions and helping doctors to guide patients with sleep difficulties. Studies of sleeping subjects and analysis of their brain wave patterns show that there are gray periods of many shades between being fully awake and deeply asleep.

The imaginary insomniac for instance, arises in the morning with the sensation of not having slept at all and is very tired. Now, it is possible for the physician to show this imaginary insomniac that he spent a night punctuated by frequent periods of light sleep on the border of waking.

Beginning of the year TWO

How did we ever get into the habit of looking backwards? By-product of some shoddy mathematics, no doubt. If the day you are born is your birthday—then it's undoubtedly your *first* birthday. And when you are a year old you should celebrate your *second* birthday, and begin your second year.

Of course, we are not seriously advocating that everybody add one to his next birthday. That would be too confusing for certain friends of ours who are *39 and holding!*

But you will agree, won't you, that on birthdays we ought to be looking ahead? The only year we can do anything about is the one we're about to live. Opportunities do a great deal more for human character than memories, no matter how fond the memories.

The churches with their tremendous resources for spiritual training and growth always celebrate our children's birthdays by looking ahead.

Wheat Program Details Given

County wheat producers' allotments for 1974 will be about 3 times the size of their 1973 allotments, according to J. Walter Margroff, Chairman of the County Agricultural Stabilization and Conservation (ASC) Committee.

Mr. Margroff said 1974 allotments will be based on the National allotment of 55.0 million acres, announced August 16 by Secretary of Agriculture Earl L. Butz, and that individual allotment notices will be mailed to farmers in a few days.

The allotment represents the number of harvested acres of wheat, based on the estimated average yield, which would result in production equal to estimated domestic and export disappearance in the 1974-75 marketing year. The allotment does not restrict the amount of wheat that can be planted.

Mr. Margroff listed the following 1974 Wheat Program details:

New to the Wheat Program is the target price feature. If the average market price for wheat is at or above the $2.05 per bushel target price, the producer will receive no payment, Mr. Margroff said. If the price average is below the target, the producer will receive the difference between the target price and the average price received by all farmers during the period from July through November 1974.

There will be no preliminary payment, Mr. Margroff said. Any payment due will be paid after December 1 1974 if the five-month average price falls below the $2.05 target, a producer would be paid on an amount of bushels determined by multiplying the farm allotment times the projected yield established for the farm by the County ASC Committee.

As announced earlier, there will be no set-aside requirements for 1974 and there will be no conserving base requirements for the four-year life of the 1973 act, Mr. Margroff said.

And, for 1974, producers may substitute any annual nonconserving crop or a cropland conserving crop used for Haying or Grazing in oder to preserve their wheat allotments and to make them eligible for any payments under the target price feature. Crops for which a marketing quota is in effect are, of course, excluded, Mr. Margroff said.

Loans will be available to producers on their 1974 crop wheat at a National average of $1.37 per bushel, an increase of 12 cents over 1974 crop loans.

The requirements that processors purchase certificates valued at 75 cents per bushel on each bushel of wheat processed for Human Consumption was eliminated by the 1974 act, Mr. Margroff said.

LETTER TO THE EDITOR

Dear Sir,

Senators and Delegates to the Maryland General Assembly will be elected from new legislative districts in 1974. Many voters fail to realize how this affects their voice in state government until just before election time.

Citizens have a last chance to be heard on how legislative district lines should be drawn when the Maryland Court of Appeals opens hearings in Annapolis on September 10.

Any registered voter in the State may appear at the hearings to propose changes in the present plan. The Court is seeking "pertinent and relevant information" before the final legislative district lines are drawn. Individuals or organizations wishing to testify should write James H. Norris, Jr., Clerk of the Maryland Court of Appeals, 361 Rowe Boulevard, Annapolis.

The hearings will be held on Monday, September 10, in Room 114, new Treasury Building, Calvert Street, Annapolis. The Honorable Hall Hammond, retired Chief Judge of the Court of Appeals, has been appointed as Special Master to preside over the hearings.

Citizens and civic groups are urged to take advantage of this opportunity.

Sincerely, Jane Ducoli, President, The League of Women Voters of Garrett Co.

o

Dear Sir:

I have read the recent letters in your paper concerning Red China's sale and distribution of drugs to the United States and other countries. I personally feel that our beloved nation is racing down a suicide course which our leaders seem determined to enjoy. I must agree with Mr. Bowman's statements in last week's Republican Paper. The U. S. citizens can prevent the death of this nation but we must work fast. RAISE your voices and be heard, AMERICANS! And we who call ourselves Christians, must live up to that Name. Be CHRIST-LIKE: We must pray for America, for our neighbors and our leaders, and for our Enemies! Jesus Christ can change our world but we must do our part to speak out and uphit HIM to those around us. The conversions of such men as Japanese Capt. Fuchida who led the attack on Pearl Harbor and Sergei Kourdakov, former Russian Communist youth leader are a testimony to the power of Jesus Christ. He will bring Peace to a troubled soul or nation who will but call on His Mercy.

Sincerely, Mrs. Carol M. Leake, Deer Park, Md.

Christian Day School Coming for Mountain Top

A Christian day school is scheduled to open on the Mt. Top for the fall term of 1974; it will be located one mile east of Mt. Lake Park on State Rt. 135. The School will emphasize the Bible and Americanism and its doctrinal position will be as follows:

1. The inspiration of the Bible, equally in all parts and without error in its origin;
2. The one God, eternally existent Father, Son, and Holy Spirit, Who created man by a direct immediate act;
3. The pre-existence, incarnation, virgin birth, sinless life, miracles substitionary death, bodily resurrection, ascension to Heaven, and the second coming of the Lord Jesus Christ;
4. The fall of man, the need of regeneration by the operation of the Holy Spirit on the basis of grace alone, and the resurrection of all: to life or damnation;
5. The spiritual relationship of all believers in the Lord Jesus Christ, living a life of righteous works, separated from the world, witnessing of His saving grace through the ministry of the Holy Spirit.

Help make it happen — Building expenses are high and all concerned persons can help; no donation too small to be appreciated or too large to be utilized. We can also use volunteer help: Block layers, carpenters, laborers, etc.

Send inquiries, checks, donations, etc. to Mt. Top Christian School: P. O. Drawer A D; Deer Park, Md. 21550. Make checks payable to MT. TOP CHRISTIAN SCHOOL or call (301) 334-9121.

Position Paper Given On Land Use Planning

The position paper presented to the Maryland Association of Counties last week in Ocean City by their Land Use Committee strongly encouraged local government say-so in land use planning for the state of Maryland. The paper stated, "Land use and development control should be vested as far as is possible in the hands of the local jurisdictions, where the individual citizen can express his wishes and exert some measure of control. The history of the relationship between state agencies and local governments reflects an inability on the part of the state to respond to local area constituencies."

Governor Marvin Mandel, speaking to the group, supported the position of the Maryland Association of Counties. "Land," the position paper continued, "in addition to being a commodity protected by a long-established collection of property rights, has also come to be considered an important and irreplaceable public resource."

The governor said further that, agricultural lands fall into the area of critical concern and should be carefully taken care of. A critical area could be defined as, "land or other resources where the use or change of use has an impact on the **health, welfare and safet**y more than a single jurisdiction."

The position paper further stated that it may be deemed appropriate that the state take action to protect such areas which may be termed areas of critical concern. The Maryland Association of Counties recognizes the possibility exists that long-established procedures for compensating offended owners may be applicable.

At the conference last week, the Maryland Association of Counties unanimously adopted the position paper to be presented to the Governor's Land Use Committee and endorsed the feelings of the governor that land must be protected.

IN THE COURT OF APPEALS OF MARYLAND
NOTICE
OF PUBLIC HEARINGS

Subject: Legislative Districting.

Time: 10:00 A.M., Monday, September 10, 1973.

Place: Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland.

The Court of Appeals of Maryland, by Order dated July 31, 1973, in the case entitled In the Matter of the Legislative Districting of the State determined that the legislative districting plan of the Governor of Maryland, submitted pursuant to #5 of Article III of the Constitution of Maryland, setting forth the boundaries of legislative districts for the election of members of the Senate and House of Delegates of the General Assembly of Maryland, which was introduced to the General Assembly as a Joint Resolution on January 10, 1973, and became law on February 24, 1973, as Joint Resolution 1 of the Senate and Joint Resolution 2 of the House of Delegates, was not prepared in conformity with the "public hearings" requirement of said #5 of Article III of the Constitution of Maryland and was therefore invalid.

In view of this invalidity, and consistent with the provisions of said #5 vesting original jurisdiction in the Court of Appeals to review the legislative districting of the State and to "grant appropriate relief" where it finds that the legislative districting of the State is violative of either the federal or State constitutions, the Court has determined to "grant appropriate relief" in order to effectuate a legislative districting plan in full compliance with all constitutional requirements.

Accordingly, the Court has adopted the legislative districting plan submitted by the Governor of Maryland as the plan setting forth the proposed boundaries of the legislative districts for the election of members of the Senate and House of Delegates, unless cause to the contrary be shown in accordance with the following provisions contained in the Court's Order of July 31, 1973:

ORDERED that public hearings be properly scheduled and held, commencing at 10:00 A.M. on September 10, 1973, and continuing until completed, in Room 114, New Treasury Building, Calvert Street, Annapolis, Maryland, before the Honorable Hall Hammond, a Special Master heretofore appointed by the Court, under such rules of procedure as may be promulgated by the Court or Special Master, to permit members of the general public to provide pertinent and relevant information enabling the Court to make final the legislative districting plan in full compliance with the Constitution of the United States and the Constitution of Maryland; and it is further

ORDERED that notice of said public hearings shall be caused forthwith to be published by the Clerk of the Court in two newspapers in each county, where so many may be published, or where not more than one may be published, then in that newspaper, and in three newspapers published in the City of Baltimore, once a week in each of four successive weeks; and it is further

ORDERED that the Clerk of the Court make copies of said plan available to such members of the public as may request the same at least three weeks prior to the scheduled public hearings; and it is further

ORDERED that any registered voter of this State, in addition to the petitinners in the present proceedings, who desire to show cause why the said plan, or any part thereof, should not be duly adopted as the final legislative districting plan for this State shall formally intervene in these proceedings and present his objections to said plan on or before September 30, 1973.

Registered voters who intend to formally intervene in the proceedings should caption their pleadings "In the Matter of the Legislative Districting of the State" and file the same on or before September 30, 1973, with the Clerk of the Court of Appeals, Courts of Appeal Building, Annapolis, Maryland.

James H. Norris, Jr., Clerk
Court of Appeals of Maryland
—Adv. 24-3t.

Pickles and Relishes

Pickles and relishes are easy to make. The cost is rarely high, storage is no problem and no special equipment other than a preserving kettle and jars are required.

Your success in making pickles depends partly on the kind of vinegar you use. You'll get best results with a high - grade vinegar cider. White vinegar is best for light pickles. Check acidity on label. It should be from 4 to 6 percent. Best guard is to use a known dependable brand.

Soaking cucumbers in a salt brine makes them crisp - use 1 cup salt to 2 qts. water. Remove scum; dip out water. Add 1 tablespoon vinegar per gallon. Be sure all vegetables are covered with salt water.

You'll get the best results from your pickles if you use a pure coase - medium salt. You can use table salt, but results may not be as good because of the chemicals added to prevent lumping.

Tough or shriveled pickles may be due to too much salt, too much sugar or too-strong vinegar. Hurrying the process of brining or cooking may cause shriveling. Hollow pickles are due to not fresh cucumber, too large, so follow the rule - "24 hours from vine to brine."

The flavor of good home-made pickles lends an individuality to meals that is hard to match with the commercial variety.

Receive Suspended Sentences In District Court

Obtaining public assistance by fraud, a worthless check and larceny drew suspended jail sentences in District Court from Judge Lewis R. Jones Tuesday.

Patricia Bennett, Friendsville, made no contest of the charge of obtaining public assistance by fraud during 1972 and through March this year. A 6-month jail sentence was suspended on condition she make restitution of $1,200 by making $20 monthly payments for one year and then $50 a month.

Profit Motive . . .

Dr. George Benson, president of the National Education program and author of the column, "Listen Americans," has a strong feeling that young citizens are not getting sufficient education on our American System to be strong defenders of its basic principles, and that there has been so much damaging left-wing propaganda beamed to our adult population that a substantial number of them have weakened in their support of the foundation stones in our freedom structure — faith in God, Constitutional Government, private ownership, and competitive market economic system, called "capitalism."

So in a recent article he starts at the very bottom of the structure, the keystone element in American capitalism — private ownership of property and the facilities of production and distribution.

He explained this clearly by taking an incident in the early history of the colonies when Jamestown was settled with a communist-socialist type of economic system. No private property, everything owned in common, a common storehouse. Food was doled out in equal shares. But what happened? After a year it fell apart. The less industrious pilgrims found they could get their full share no matter how little they worked. Production decreased, the workers eased off on their share. Food became scarce. Colonists faced a crisis.

So every family was given a plot of ground. They could keep whatever they produced. A system of bartering was devised. Capt. John Smith wrote in Jamestown history that when the people owned their own property and could keep what they produced they worked harder and produced more.

Dr. Benson concludes: "This was really the birth of the American private ownership, private enterprise system. It was founded on the principle of private ownership and its accelerator was the profit motive."

Harry Carey, Jr. Visits County To Work On Father's Biography

The real Harry Carey, Jr. as he appears without makeup and his "inexpensive" screen wardrobe of ragged clothes. Carey was photographed while relaxing on the front porch of the Ed Price residence near Deer Park. Ed, a freelance writer and photographer, is currently working on a book about Carey's father, and because the two careers were so closely entwined, about John Ford. Mrs. Price is a teacher at Friendsville School.

by Carol Canan

What do Rome, North Hollywood, and Deer Park, have in common? They have all been visited recently by Western movie actor Harry Carey, Jr., here to collaborate with Ed Price on a book about his father, Harry Carey. Price is a free lance writer.

Mr. Carey's father starred in some of the earliest westerns, making his first film in 1909. His father worked under the phenomenal director John Ford, who will be included in their forthcoming book.

Mr. Price met Harry "Dobe" Carey, Jr. while in California to do research for the American Film Institute, and they hope to get the first two chapters completed very soon so that they may get a commitment from a publisher.

Mr. Price plans to fly to California later this fall to speak with others including Olive Golden Carey, Carey's wife; John Wayne, Ben Johnson, and John Ford to fill in details on Carey and his career, which was so closely entwined with that of director John Ford.

Mr. Carey, Jr., whose own varied experiences make amusing and interesting listening, said that he had "sorta fallen into" the film-acting business himself. His first career tendencies led him to try opera singing; his second interest was thoroughbred horse racing, both far removed from acting. When he did begin acting, he says he "never got to kiss the girl," and he was "killed" in over half of his 60 movies.

Carey made his first acting debut in New York, when his voice teacher went there to conduct the orchestra and chorus in a musical history called "Railroads on Parade." Carey rode a horse in the production. The following summer, he played some stock productions with his father, but says he still "was not at home on the stage."

Gas Rupture Causes Concern

Workman Strikes Gas Line While Repairing Basement

The rupture of a six inch gas line in Mt. Lake Park on Monday afternoon by workmen preparing a foundation for a home created a dangerous atmosphere and much concern for a time, but the event passed without serious trouble.

Fire companies from Oakland and Deer Park were summoned in case of an emergency and members of Deer Park Co. were starting to alert the citizens to evacuate their homes and assemble at the tennis court in the Park when a gas employe, Edwin Gaither, turned two valves and shut off the escaping gas. The Kitzmiller fire company was on alert at Deer Park.

Contractor for digging the basement was William Clary who was on the scene with the bulldozer and operator, Mark Uphold. The gas line was a connection between the old Dawson gas well and the gas company's transmission line and was under high pressure. When the rupture occurred rocks and dirt flew in all directions and a spark at the time would have caused a terrific explosion that could have killed both workmen. The odor of gas was heavy in the area before the valves were closed.

Workmen were digging a foundation for Randy Donham, on his property on E. street, near the camp meeting auditorium.

Members of the Southern Rescue Squad also were called to stand by for any emergency.

Native Youth Is Fatally Injured Near Thomas

A native of Oakland, now residing in the Thomas, W. Va. area was fatally injured last Friday August 31 in an accidental shooting, about four miles north of Thomas near a limestone quarry, at the home of his father, Sam Roth, it was learned from the West Virginia State Police.

The victim was identified as Darren Roth, aged 7 who was accidentally shot after he and two brothers, 9 and 11, took a .22-cal. gun from a cabinet while the boy's parents were away. He was struck when the weapon discharged, police said.

The boy was pronounced dead on arrivial at Garrett County Memorial hospital in Oakland.

The case was investigated by Cpl. M. M. Davisson and Trooper J. L. Hissam of the West Virginia State Police, along with State Conservation officers Forest Blume and Charles Haverty.

He was born in Oakland, September 1, 1965, and would been eight years old Saturday. He was a member of St. John's Lutheran church, Red House, and was a student at the Thomas Elementary school.

Besides his parents he is survived by two brothers Dennis Keith, and David William, both at home; paternal grandparents, Mr. and Mrs. William Roth Finrse Shoe Run, W. Va.; and his maternal grandmother, Mrs. Cora Hudnall, of Davis, W. Va.

The body was taken to the Hinkle Funeral home in Davis. Funeral services were conducted Monday afternoon, September 3, at 1 o'clock from St. John's Lutheran church with Rev. Donald Thomas, pastor, officiating. Interment was in the Red House cemetery.

Oakland Man Is Injured In Route 560 Accident

An Oakland man was listed in fair condition in Garrett County Memorial Hospital Friday morning following a one-car mishap on State Route 560 just north of King Wildesen road about 10 p. m. last Wednesday.

Randall P. Skiles of Hillsville Dr., Oakland, was reported to have a broken nose and chin injuries.

Mr. Skiles was traveling north on Route 560 when he lost control of his car. The car then went off the roadway and hit some guard rails.

Tfc. G. D. Broadwater charged Skiles with excess speed.

A two-pickup accident occurred earlier the same evening in the Northern part of the county but there were no apparent injuries.

Paul J. Fike, Friendsville, was traveling East on Gravel Hill road and approaching a private road. At that time Paul Lindman came out of the private road, failed to stop and grant the right-of-way to the Fike vehicle, and the two collided.

Tfc. C. D. Skidmore charged Lindman with failing to grant the right-of-way at an intersection.

City Hall Getting Upstairs Remodeled

The upstairs of City Hall in Oakland has been getting a facelift during the past few weeks.

Remodeling of the ceiling, walls and floors have been underway since two weeks ago. This is the first major repair and remodeling work to be done to the upper story since construction of the building in 1918.

New lighting fixtures will also be installed. Work is being done by Community Action personnel, who have been active locally in construction and remodeling work.

The room, approximately 30 feet by 30 feet in size, will be open for public inspection following completion of remodeling work this week. Civic groups, Scouts, youth groups and others are welcome to inspect the room, and may use it for a meeting place if they wish. For further information, contact Terry L. Bell, council member in charge of the renovations or City Hall.

Cost of the renovations is $1,100. The entire building was constructed in 1918 for $1,463.

UNUSUAL BLAZE EXTINGUISHED—Oakland firemen answered a call to an unusual fire on Tuesday about noon. A motorcycle was refueling at the Yough garage at Crellin, along Maryland Route 39, with the motor idling, and an apparent explosion of the cycle caught both the cycle and gasoline pumps, causing extensive damage to the vehicle and the two pumps plus the overhead sign which is not visible in the photo. Sam Meyers, Jr., Oakland fireman, is operating the hose.

Cycle Explodes As It Is Refueled

A motorcycle owned by Skip McCartney exploded while being refueled Tuesday about noon, at the Yough garage in Crellin, setting fire to the gasoline pumps.

Members of the Oakland fire department were called to the scene. No one was injured but the motorcycle and two gasoline pumps were badly damaged by the flames. The garage is owned by Mrs. Caroline Gibson.

Oakland firemen were called on three other occasions since the end of the month.

On September 1, at 11:10 p. m., the firemen were called to Liberty street in Oakland where a 1965 Plymouth automobile owned by Larry Crosco, was on fire. Damage was estimated at $25.

The next day at 1 o'clock a bulldozer owned by Norman Thomson, of Deer Park, was on fire, near the Youghiogheny Mountain club on the Cranesville road.

On Labor day, September 3, firemen called to E. street in Mt. Lake Park when a gas main was ruptured by a bulldozer and there was fear of an explosion.

Three Injured In Weekend Mishaps

Three persons were injured in weekend accidents in the central part of the county, and one was hospitalized.

Estyl Kester Smith, 74, New Creek, W. Va., was admitted to Garrett County Memorial Hospital, following a one-car mishap on the North Glade road .6 mile east of Harvey's Peninsula road last Saturday afternoon. Mrs. Smith was discharged the following day.

Smith was traveling east and making a left turn in the road allegedly on the wrong side. An oncoming car caused him to swerve to the right, run off the road and strike a fence. Tfc. Robert E. Friend investigated the mishap.

Two persons were injured in an accident Sunday at noontime on U. S. Route 219 at the Misser road. A small child was treated and released from Garrett County Memorial Hospital, following the accident.

Jana Kay Park 3, was treated and released from the hospital but Mary Jane Park, 38, both of Cumberland, was apparently not treated at the scene of the accident. They were passengers in a car driven by Stanton R. Friend, Friendsville, who, apparently, was not injured.

A car driven by Roger B. Fletcher, Winchester, Va., was traveling south on Route 219 and turned left into Mosser Road. There it made a U-turn, failed to stop at a 'stop' sign or grant the right-of-way to the Friend car as it proceeded south.

Judge Denies Order To Force Miners Back To Work

A temporary restraining order to force striking Island Creek Coal Co. workers back to work was denied the company by an Elkins court Tuesday.

A suit by Consolidation Coal Co. seeking a temporary restraining order was taken under advisement in U. S. District Court Tuesday.

Judge Robert E. Maxwell said he denied Island Creek's request in a shutdown of its South Branch and Alpine mines near Bayard because he feels somebody in management is thwarting the arbitration procedures and thereby reducing the efficiency of the arbitration agreement.

Both suits were filed against United Mine Workers Local 2178 at the North Branch mine.

Pickets from there moved into Monongalia County as Friday and prevented about 2,000 miners at five Consol mines from working.

Maxwell said he would consider whether he has jurisdiction to rule on Consol's request for a temporary restraining order, and said he would confer with attorneys on his findings Wednesday.

The hearing on the Bayard dispute lasted 3½ hours, and included testimony by company and union officials.

Testimony revealed that job openings for mechanics were posted at North Branch, and when no one was qualified for the jobs, the union filed grievances. At the same time the arbitration meeting was begun August 28, one mechanic's job was filled by the company and a walkout took place at once.

Island Creek has contracts with power companies which might lose if the contracts can't be filled, according to Donald E. Bassett, industrial relations manager for the firm.

Coal tonnage loss at the North Branch and Alpine mines is 4,500 daily, and there is $25,600 daily loss in pay and fixed loss of $8,000 per day, Bassett said.

The municipal water supply plant will replace existing privately owned water supply which the application states is quantitatively and qualitatively inadequate.

Wastewater will be treated by aeration, activated sludge and chlorination, with discharge point on the river near its confluence with Bear Creek. Plans for the plant have been certified by County authorities as in compliance with the Garrett County water and sewerage plan.

OPEN LINE

By
Congressman Goodloe Byron
Maryland—Sixth District

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problem, request information, typical of the kind asked of me on opinion or comment on whatever happens to be on your mind. Letters should be sent to me, c o U. S. House of Representatives, Washington, D. C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks:

Are you taking applications for appointments to the military academies?

Yes, my office is currently accepting applications for appointment to the United States service academies for the class entering in July 1974. Applicants should be single, residents of this Sixth District, in good health, possess a good academic background, and not be younger than 17 or older than 21 on July 1, 1974. Interested candidates should write my office for an application form which should be completed and returned by October 31, 1973.

I am a veteran eligible for G. I. home loan benefits. Will VA guarantee a loan to buy a used mobile home?

No. Current regulations authorize only the purchase of new mobile homes with VA-guaranteed loans.

Are there any government films available on environmental preservation which could be shown to a class of elementary school students?

The Department of Interior has dozens of fine films available however, since you expressed an interest in wildlife resources I might suggest a film entitled "So Little Time." This is an unusually beautiful film about waterfowl and other marsh birds and animals, and the problems of providing and protecting their habitat in an era of fast-growing human populations. The film may be obtained by writing the Department of Interior, Bureau of Sport Fisheries and Wildlife, Peachtree-7th Building, Atlanta, Georgia 30323.

As a member of the House Commerce Committee perhaps you can tell me what kind of contingency plans electric power companies have in case of brownouts or blackouts?

The Federal Power Commission (FPC) is asking the nation's utility systems to develop contingency plans for power shortages and to explain in detail how each utility will operate during an emergency and what it will do about load reduction and curtailment of service to customers. FPC hopes that electric utility systems will voluntarily submit plans. The object, in line with your thinking, is to encourage electric utilities, which have not yet done so, to develop contingency plans for operating in emergency situations.

As a new resident in the State I would be interested in knowing the location of public hunting lands and trout streams?

Wildlife Resource maps of Maryland are available from my office in Washington. These maps pinpoint wildlife management areas and public hunting lands, trout streams, and lakes and ponds open to public fishing.

I read that the National Park Service has developed environmental lesson books for school children. Can you send me information on these books?

These new "Adventures in Environment" books are designed for use by middle elementary and some junior high school classes and consist of three soft cover books. Two are for pupil use, one of these for the classroom, and the other—small enough to slip into a jacket pocket—for outside environments. The third book is a teacher's guide. The lessons were conceived as a means of giving young people a greater enjoyment and appreciation of parks and an expanded sense of citizen responsibility for the stewardship of the parks. More than 80 areas within the National Park System, including Catoctin Mountain Park in Thurmont, are being utilized as schools for environmental learning in conjunction with the lesson books. Information on ordering the "Adventures in Environment" publications may be obtained by writing to the Silver Burdett Company, Morristown, New Jersey 07960.

Did Congress pass the Mortgage Protection Life Insurance Bill for disabled veterans?

The bill, H. R. 943, was enacted into law last year and authorizes the Administrator of Veterans Affairs to purchase a commercial group mortgage life insurance policy for veterans who have received the specially adapted housing grant provided certain seriously disabled service-connected veterans. The veteran will be required to pay a portion of the cost of such insurance, with the remainder borne by the VA. The maximum coverage is $30,000, or the amount of the mortgage loan, and the insurance protection does not extend beyond age 70.

By what criteria are wildlife restoration funds distributed among the states?

Wildlife restoration funds are derived from the 11 percent excise tax on sporting arms and ammunition and distribution is based on a formula which takes into account the number of hunting license holders and the area of each State. Maryland received $226,000 in fiscal year 1972 and these monies must be used on approved State wildlife projects which include acquisition of land suitable for habitat, development of the habitat and research to aid in managing game species.

Several months ago I applied for Veterans Education Benefits to pay for correspondence course lessons in heavy equipment. I have not heard anything from VA and am running out of my own money to pay for the schooling. Could you check with VA?

Your inquiry concerning the GI educational assistance allowance was brought to the attention of the Veterans Administration. VA regrets the delay and inconvenience caused you and a check for $800 has been sent to cover your educational and related training expenses.

Summons To Greatness

"Summons to Greatness," is a collection of inspirational thoughts and practical ideas from the messages and addresses of Richard M. Nixon, president of the United States.

Here is another one of the messages:

"A great nation must always be an exploring nation if it wishes to remain great.

"Let us reject the narrow visions of those who would tell us that we are evil because we are not yet perfect, that we are corrupt because we are not yet pure, that all the sweat and toil and sacrifice that have gone into the building of America were for naught because the building is not yet done.

"Now I realize that the argument is often made that there is a fundamental contradiction between economic growth and the quality of life, so that to have one we must forsake the other. The answer is not to abandon growth, but to redirect it.

"If the time comes when the young lose their spirit of adventure, when they want to play everything safe, when they don't want to take the risks, when they don't want to take a chance, when they consult their fears rather than their hopes, and desires and dreams no country will have the capability of greatness.

"If I were to set forth the objectives, for our approach to the problems of this hemisphere, it would be in these words: I want our policies to be ones which are derived from open eyes, open minds and open hearts.

"Let us leave a heritage—not just for our children but for millions yet unborn: of a nation where every American will have a chance not only to live in peace and to enjoy prosperity and opportunity, but to participate in a system of government where he knows not only his votes but his ideas count, a system of government which will provide the means for America to reach heights of achievement undreamed of before."

Harry Carey, Jr. Visits County

(Continued From Page One)

A younger Harry Carey, Jr., looking very much like his father appearcd in his young years, hugs the heroine in "Copper Canyon." This was one of the very few times Carey got to play a "good guy" and to hug the girl. "Copper Canyon" was released in 1949, soon after Carey, Jr. began working under John Ford, director.

After the racehorse craze, as Mr. Carey phrases it, he stayed for a time with Andy Jauregui, world-famous roper, who taught him tricks of the cowboy trade.

Following this, he moved to Beverly Hills, where he discovered his voice was not large enough for opera. When World War II broke out, he remained home for a time, helping manage his father's ranch in California. In 1943 he joined the Navy and served for 3 years.

His first screen break was after his Naval service, in Robert Mitchum's "Pursued." He got that part following what he says was one of his very best screen tests, defeating 27 other young men to get the part.

John Ford became interested in young Carey after his father died in 1947 and co-starred him in "Three Godfathers."

Although Carey, Jr. says he now loves Ford "like a father," Ford was so rough on him during production of that film that he wanted to quit and go home three times. After the death scene, Carey could scarcely move, he actually FELT as though he had died.

Even beyond his affection and respect for Ford the man is his respect for Ford the director. Carey feels that he studied and served his apprenticeship "under the greatest director of all time."

Two of Mr. Carey's greatest heros, next to his father, are John Wayne and Ben Johnson. Wayne for his professional acting and down-to-earth approachable manner, and Johnson for both his acting and his prowess as a professional cowboy.

In his own hard-riding career as a bad guy, he has never been injured seriously, never even been actually hit in a fight. His best fight scene was in one of the "Whispering Smith" movies.

Harry Jr. and his sister Ella are offspring of Harry Carey and Olive Golden, who met while working on a picture with Hoot Gibson. Miss Golden was warned by those on the set that Carey was "a wild one" and best left alone, so naturally she grabbed the first opportunity to meet the prominent young actor. Their marriage lasted until his death in 1947.

Harry Jr.'s best memories of his father are not of Harry Carey, the movie actor, but of Harry Carey as he was to his son, a man of warmth who was a nearly ideal father. His fondest boyhood memories center on the family ranch.

Mr. Carey and his wife Marilyn have four children, Steve, 27; Melinda, 26; Tom, 22, and Patricia, 20. Tom is the only one who has been bitten by the acting bug, and is currently reer will be stage, rather than working in Little Theatre in Hollywood. He hopes his career will be stage, rather than screen-oriented.

Hollywood is almost as notorious for typecasting its actors in a certain type of part as for its divorce rate. Although Carey, Jr. likes working in western movies better than in other types, he now feels it is time to branch out into other parts. He has often felt he would enjoy playing comedy, perhaps on stage rather than screen.

His most recent film, made in Rome, will be released here as "The Magnificant Ones." Just before that, he played in a John Wayne movie, "Cahill, U. S. Marshal."

Off-screen activities Carey enjoys are golf, riding (he plays polo--not good polo, just for fun, he says), and works periodically on some writing. He hopes to someday complete a book-cum-screen play about his life, but notes that he hasn't made much progress so far.

Probably because he's far too busy living, working and enjoying life, to have time to sit down and reminisce.

Harry Carey, Jr., right, appears to be watching intently as Tereoce Hill acts a part in their latest film, "The Magnificent Ones," recently completed in Italy. Mr. Carey appeared in another film with Hill, "My Name is Still Trinity," in which Carey played Trinity's parent.

Traffic Decrease Noted At McHenry

A July traffic check on U. S. Route 219 at McHenry on Deep Creek Lake revealed a .5 percent decrease in traffic from the total in July 1972.

Ordinarily there is a peak of motor traffic at the lake in July, due to summer vacation travel. The shortage of gasoline experienced in some parts of the state may have helped produce the decrease.

This July, there were 221,550 vehicles counted at the McHenry location, compared to 222,669 in 1972.

Deer Park VFD Called To Douse Two Fires

An electrical wiring fire on a tractor sitting idle at Deer Park brought the Deer Park firemen to the scene Tuesday at noon.

The firemen took two trucks and eight men to douse the fire, which totally destroyed the electrical system and wiring on the farm vehicle.

The tractor was the property of Wilbur DeWitt, who had loaned it to a young man from Deer Park to do some mowing. The exact extent of damages was not ascertained by the firemen. The tractor was parked in a field by the Frank Perry residence.

The Deer Park firemen were called out on Sunday to help extinguish a furnace motor fire at the Dick Perando residence on Route 135.

Nineteen men and two trucks responded to that call, which stemmed from a fuel oil buildup in the bottom of the motor. No estimate of damages was given. The firemen were able to return to the firehouse about 15 minutes after arriving at the scene.

Investigations Continue on Wrecked County Tractor

Investigations are continuing in attempts to discover who was responsible for wrecking a county roads department tractor found last week one mile west of Swanton.

The roads equipment, consisting of a tractor with power broom and small blade, had been taken down Stricker Road to an abandoned trash dump, and driven over the edge of a small cliff. The tractor came to rest approximately 200 feet from the railroad tracks in that area, near the river. James Brady found the vehicle, and notified authorities.

Considerable damage was done to the vehicle, but no parts had been removed. County roads officials plan to remove the wreckage as soon as some grading work can be done.

CELERY

Do you have a craving for something crisp and crunchy? If so, choose a bunch of crisp celery and crunch to your heart's content. It is over 90 percent water, and has only about 7 calories per stalk. Celery also has fair amounts of vitamins A, B, C, and G plus many health giving minerals.

Selecting celery at the food counter is a fairly easy job. You can tell almost all you need to know about its quality by the way it looks. Good quality celery looks fresh and crisp—both leaves and the stalks. It should be free from bruises or any other damage. The stalks should be medium in length, about 15 inches.

Celery needs a cool, moist temperature to keep its crispness. After you purchase it, wash the stalks to remove any dirt particles and cut away any bruised parts. Dry stalks slightly and store them in a covered container in the refrigerator. They will remain crisp for several days. Slightly wilted celery can be revived usually by putting it in a pan of ice water for a short time. Buy only the size bunch or as many bunches as you can use within a week.

To get maximum food value from the celery, use the whole bunch—stalks and leaves. We usually think of celery as a raw vegetable. It is a good tidbit item, especially in combination with cheese or peanut butter. Its flavor is a welcome addition to many cooked dishes, such as meat and vegetable stews, meat sauces, soups and creamed with other vegetables. For an elegant and delicious appetizer serve stuffed celery stalks. For filling, whip cottage cheese to a smooth consistency and to this add chopped pecans, or crushed pineapple, or chopped chicken, or sweet pickle, or any finely chopped fruit, meat, or vegetable.

Garrett Stays No. 1 In Bond Sales

Garrett county remained number one in Maryland sales of series E and H Savings bonds for July according to a tabulation released last week by Mark F. Collins state chairman.

The Maryland quota is $138,200, and 60.6 percent of that quota has been attained.

A release from Mr. Collins said: "Garrett County has consistently led the 1973 Savings Bonds sales in Maryland. It has maintained its number one position every month of this year, and through July it has achieved 91 percent of its sales quota.

"In comparison with last year Garrett's sales this year are 79 percent ahead at this time. If current trends continue, Garrett county will surely be way out in front at the final tally for 1973."

The tabulation showed the following figures: Garrett county quota $406,308; July sales $43,258, cumulative for 1973, $369,594, 91 percent of quota, compared to $206,372 for the same period last year.

Standing in the number 2 spot is Carroll county with 76.1 percent of its quota, Howard county with 73.5 percent of its quota, and Allegany county with 71 percent of its quota.

Recent Accident Injures Man And Damages Two Cars

In a recent accident on State Route 135, a Keyser, W. Va., man was slightly injured when his car ran off the road, hit a garage and damaged two cars in it.

Carl R. Ludwick, 44, was driving west on Route 135 just east of Chestnut Grove road about 10 p. m. August 22. His car ran off the road onto the shoulder, while going around a left curve in the road. The car came back onto the road, crossed it and hit a tree and a garage containing the two cars. The cars belonged to Joseph H. Cave, Swanton, and Robert K. Cave, Andrews Air Force Base.

Tfc. Robert E. Friend charged Ludwick on two counts: operating a motor vehicle in an intoxicated condition and failing to keep to the right side of the road.

The Ludwick car was called a total loss.

Hot, Muggy Days Make The Week Uncomfortable

The hot, muggy weather of the past week has made it one of the most uncomfortable this season. The mercury soared to the 90-degree mark two days. A strip across the central part of the county received some rain during thunder storms Monday evening.

Skies have been partly cloudy and hazy. Light to heavy fogs have shrouded the landscape most every morning. About .17 inch of rain fell during the thunder storms in the Sang Run, and across the North Glade areas.

It was 90 degrees last Thursday and Saturday and near that mark Friday and Sunday.

The air has been mostly still with very light breezes at times.

The high humidity during August made the 79.4-degree average seem hot but this was actually 1.1 degrees below the normal. The hottest days were last Wednesday and Thursday with 90-degree readings. The only two 'cool' days were the 21st and 22nd when the mercury only went to 66 degrees. Morning lows averaged 58.1 degrees or 3.4 degrees above the normal. On the 28th it got no cooler than 69 degrees. The coolest morning was the 23rd with a 41-degree reading.

Precipitation-wise the month was .6 inch on the dry side with 3.9 inches of rain falling. The normal is 4.5 inches. The wettest day was the first with 1.2 inches. On the 17th, 1.06 inches fell. Only on 14 days was there a measurable amount of precipitation. Local thunder storms on the 12th dropped only half an inch of rain.

August statistics are based on information from Logan Weber, local observer for the National Weather Service.

Three Births Listed

All three new arrivals at Garrett County Memorial Hospital's nursery during the past week were boys.

Sons arrived for Mr. and Mrs. James Edward Cooper, Route 4, Deer Park, and for Mr. and Mrs. Eugene William Jones, Elk Garden, on August 31.

On September 3, a son was born to Mr. and Mrs. James William White, Oakland.

Census at the hospital at 8 a. m. was 44 patients, following 38 admissions and 40 discharges during the week.

Sixteen Are Killed On State Highways

Sixteen persons lost their lives on Maryland Highways last week, according to 1st Sgt. James E. Harvey of the State Police. Three of those killed were drivers, eight were passengers and five were pedestrians. At least five of the deaths may have been prevented had seat belts been in use.

Alcohol was a contributing factor in three deaths, speed in ten and "driver error" in 12.

Persons killed through August 26, totaled 544 compared to 553 for the same period last year.

At Petroleum School

Donald Fratz, manager of W. H. Fratz Cooperative Service agency at Accident, recently returned from Texas City, Texas, where he attended a special petroleum school and studied operations of Texas City Refining, Inc., a refinery of which the cooperative is a part owner.

Fratz was one of a group of twenty making the trip to acquaint them with petroleum production techniques. The refinery is currently undergoing a several million dollar expansion program to increase its capacity to some 80,000 barrels of crude oil per day by 1975.

Ralph Beachley Carol Pirosko Wed August 11

Miss Carol Ann Pirosko, daughter of Mr. and Mrs. Michael Pirosko, Irwin, Pa., became the bride of Ralph H. Beachley, Jr. on August 11. He is the son of Mrs. Ralph H. Beachley of Friendsville, a the late Ralph H. Beachley, Sr.

The triple ring ceremony was solemnized in Immaculate Conception church, Irwin, with Rev. Father James T. Gaston officiating. Vases of white gladioli, pink carnations and baby's breath enhanced the altar. Pink bows were placed at the pews.

Escorted to the altar by her parents, the bride wore a floor length gown of nylon organza. The Venetian lace bodice featured a V-shaped neckline and long lace sleeves. A panel of matching lace trimmed the A-line skirt. Her cathedral length mantilla of imported silk illusion was bordered with scalloped Venetian lace. The bride carried a bouquet of pink sweetheart roses, white daisies, pink carnations and baby's breath with pink and white satin streamers.

Vee Weakland, Montoursville, was maid of honor. Bridesmaids were Roberta Pirosko, McLean, Va., sister of the bride, and Connie Spong, Hagerstown. They wore floor length gowns of pink polyester featuring short French pouff sleeves trimmed with white Cluny lace. The lace also defined the empire waistlines. Interwoven throughout the lace was dark pink velvet ribbon. They wore matching pink picture hats featuring bows with floor length streamers. Each carried wicker baskets of white daisies, pink carnations and baby's breath with pink satin streamers.

Donald Nowaskey, Alexandria, Va., was best man while Robert T Nicholas, Hollywood, Md., and Vincent Spong, Hagerstown, ushered. They are all Sigma Chi fraternity brothers of the groom.

For her daughter's wedding, Mrs. Pirosko chose a floor length yellow double knit with matching tinted carnation corsage and ribbon. A turquoise floor length double knit was the choice of the mother of the groom. Her carnation corsage was tinted blue with matching ribbon.

Following a reception at Irwin V F W, the couple left for their new home in Greeley, Col.

The bride is a graduate of Norwin high school and Indiana University of Pennsylvania. The groom, a graduate of Northern high school, Accident, and the University of Maryland, will pursue a master's degree at University of Northern Colorado They both previously taught in Prince George's County, for four years.

Pre-nuptial events included a shower by the faculty from Thomas Addison school at which the bride taught. A separate shower was hosted by her fourth grade students. The rehearsal dinner was hosted by the groom's mother at Teo's Steak House.

Sunday morning in Buffalo—and a button falls off my last clean shirt: "Sorry, sir, valet service does not answer!"

Little girls can sew on buttons. Tailors can sew on buttons. My tough old sergeant could sew on buttons. But not me! I never got around to it.

I'm going to church *anyway*. Long time ago I realized that it may take a bit of effort, and some determination, and quite a lot of experience to become a regular churchgoer. But life is full of *real* crises that demand faith and courage and a Source of guidance. There isn't much comfort in discovering that others can overcome such crises—while *you* never get around to it.

So any Sunday . . . in Buffalo, Rochester, Syracuse or Troy . . . you'll be seeing me in church. (I'm the stocky fellow, with the red hair—and the button missing from his shirt!)

WISE AND OTHERWISE

Lesson for September 3, 1973

Background Scripture: I Corinthians 1:18 through 3:23.
Devotional Reading: I Corinthians 3:10-23.

There is an old East Indian saying that says: "You can convince the wise; you can convince with more difficulty the ignorant; but the half educated you can never convince."

There is no one more difficult to teach anything than the person who already believes he knows a great deal. To most of us, the word "Sophomore" generally denotes a second-year student. This word is actually derived from two contrasting Greek words, sophos and moros. Sophos means wise, as in philosophy and the love of learning. Moros means fool, as in moron, one whose mind is not fully developed. So the sophomore is really a "wise-fool" who knows enough at least to realize that he does not know everything.

Rev. Althouse

Thinking we are wise

Thus, Paul, in writing to his problem-church, Corinth, advises: "Let no one deceive himself. If any among you thinks that he is wise in this age, let him become a fool that he may become wise. For the wisdom of this age is folly with God" (3:18,19).

There is nothing more deceptive than our own illusions of wisdom. It is when we are puffed-up with our cleverness, our craftiness, that most often we are our most foolish. We fail to make that vital distinction between knowledge and wisdom. We may have lots of knowledge, yet without the wisdom to use it, that knowledge is useless.

Socrates, the great Greek philosopher who lived before the time of Christ, once said: "As for me, all I know is that I know nothing." This may sound strange coming from a man who is still remembered for his great knowledge and wisdom. Yet, the conclusion to which he came has been shared by many of the great thinkers of all time.

The famous preacher Spurgeon once put it this way: "The doorway to the temple of wisdom is the knowledge of our own ignorance." He had discovered that the more a man learns of this life, the more knowledge he accumulates, the more wisdom he attains, — the more he discovers how little he really knows. It is this recognition that can often open a person to receive far more understanding and wisdom.

"I have observed one thing"

There's an old legend about a flock of crows who were frequently chased from a certain cornfield. One day, holding a council of war, the crows were addressed by a young crow who said according to the facts, they could drive the men from the cornfield. "Fact number one, there were more crows than men. Secondly, men can't fly as crows do." Finally, an old crow rose and said, "That is all very well, but in my lifetime I have observed one thing: where there are no men, there are no more cornfields."

This is why many who feel they are wise, are really otherwise. It is God in all his seeming foolishness who is really and truly wiser than men.

The News Is Better

W. A. Leavell, in a column appearing in the Grifton (North Carolina) Times, says that since there didn't seem to be much good news for the 1970s, he would go back in time to find some good news to report. And so back he went, to the 1870s, and this is what he found to report for the news of the day:

On the crime front, "the 1870's have a law and order problem. No fooling. The crime rate is about twice what it is today. People are going around shooting each other and the indians are also on the rampage. In the cities traffic clogs the streets by day and you can hardly get around for the horses and wagons. The toughs and crooks take over the streets at night and it is not safe to go out.

"In New York City the Irish are rioting and demanding their rights. In Savannah the blacks are marching in the streets and in San Francisco the Chinese are giving the establishment a hard time.

"The taxpayers of New York found out that Boss Tweed has taken them for millions. Confidence in our political leaders is at an all-time low.

"Inside plumbing and sanitation are almost unknown and public health is nil. Pneumonia and tuberculosis strike down many, and scarlet fever and diphtheria combine with malaria and typhoid to make long life a slim gamble. No-good young people are racing around on fast bicycles scaring the daylights out of horses and older people. They are also taking to hard drink and many think the young generation will be the ruination of the country. The drug culture is serious. Poppies grow in Florida, New Mexico, Texas, Vermont and New Hampshire and can't supply enough opium for the market so we import sizable tonnage from China. England and Germany (it wasn't until 1881 that the import of opium from China was prohibited.)"

Sums up Mr. Leavell: "As far as I can see, things have not gone that far down hill since the 1870's . . . except for one thing. In 1872 the total federal budget was $278 million and we are trying to get our present down to only $250 billion. How is that for good news???"

—U. S. Press Association.

WASHINGTON REPORT
FROM SENATOR J. GLENN BEALL, JR.

Labor Day Outlook

Some of the most important legislation to be considered by the 93rd Congress will be coming before the Senate when Congress reconvenes in September.

The Labor Day weekend, which marks the end of the summer recess, is a particularly appropriate time for one of the first bills that will come up: pension reform.

Income security has become one of the foermost concerns of the American wage earner, especially as we have been pressed by the steady rise in our cost of living.

Nearly half of our nation's labor force, or over 30 million men and women, are now participating in a private pension plan, and they have made these programs a big business with assets in the neighborhood of $160 billion.

To assure that there will be basic standards of protection and benefits, Congress has been at work on pension reform legislation for some time now.

As a member of the Labor and Public Welfare Committee, I joined in sponsoring a bill which the committee considered and reported to the full Senate earlier this year.

The Finance Committee also has been working on a pension bill, and its report also will be submitted to the Senate as we return. Although there are certain disagreements on the details of bills, there appears to be consensus on the major provisions.

Those are the vesting of an employee's pension rights, the need to protect pension funds in case a company goes out of business, and the need for a mechanism to allow self-employed persons to set up their own retirement fund. However, the issue of portability, or the transfer of pension rights from one job to another, have proven to be more complicated and may not be resolved in this bill.

The final Senate version of the pension reform bill is expected to be sent to the House of Representatives as an amendment to a much more limited House bill that deals with military pensions. The procedure will enable us to get final congressional action on pension reform in a considerably shorter time.

Another major bill coming out of a committee on which I serve will be the no-fault insurance legislation, which has been cleared by the Commerce Committee and sent to the Judiciary Committee for consideration there.

This legislation makes improvements on a similar no-fault bill that was reported out of committee last year, and it has the backing of our nation's largest automobile insurer.

The no-fault bill died last year after it was sent to the floor of the Senate and back to the Judiciary Committee, but I would hope that this year's bill has a chance to be brought to a vote.

The Senate also is expected to take up the TV sports blackout bill, which has generated a great deal of interest and controversy since last year when I joined Senator Pastore of Rhode Island in sponsoring it.

This legislation would prohibit professional football teams from imposing the now-familiar TV blackout of a home game if it is sold out at least 48 hours in advance.

In an area such as Washington, where the Redskins are sold out for the entire season in advance, it would end years of frustration for fans who have helped pay for a stadium but have been unable to see a home game under any circumstances.

The bill calls for a one-year experiment with the "sellout-or-blackout" rule, and I would hope that it could be passed in time for a full and fair test in the upcoming pro football season.

Assumes Presidency

Mrs. Karen Wilson assumed the presidency of the Junior Woman's Civic club at a recent special meeting of the club. She fills the position vacated by Mrs. Edie Cartwright, who had been officially elected to the position but who recently moved to another community.

Mrs. Wilson had been the vice president. Moving up to the vice presidency was Mrs. Pat Stemple. Installation ceremonies were conducted at the special session.

THE REPUBLICAN

VOLUME 97 OAKLAND, GARRETT COUNTY, MD. SEPTEMBER 13, 1973 PER COPY 15c NUMBER 29

Where Is the End? . .

Community newspapers with circulations of less than 25,000 are said to be the backbone of the nation's free press. They are free to express their opinions within the limits of good taste and the libel laws.

If there is unethical practices in the Courthouse, the State Capitol, the City Hall or in commercial business enterprises, news gatherers of the newspapers are likely to be the ones to dig up the facts and let the public know about them.

Most people in the United States would strongly resist any move to muzzle the press, but by way of the back door of an inefficiently-run enterprise called the U. S. Postal Service, thousands of independent newspapers could eventually be put out of business. The method is simple. The Service keeps raising postal rates until small newspapers won't be able to pay them. Raise them high enough and the bigger ones won't be able to either, nor our magazines.

One authority pointed out that along with the general pressure of inflation, postal increases are one of the major reasons why over 600 community newspapers went out of business in the past ten years.

This week the post office has scheduled another increase in rates. This is one of several in the past few years and further increases are already scheduled for the future. Some effective limitation on these financial depredations which the U. S. Postal Service is permitted to commit upon the free press seems much in order.

Enrollment In County Schools Reaches 5,736

Number Is Seven Less Than Year Ago; Schools Running Smoothly

The seventeen schools of the county, including the two high schools, which opened for instruction last Thursday, have added seventy to their enrollment during the early days of this week and the total now stands at 5,736. Additional students are expected to enroll within the next week or two. The total compared to last year was [illegible] at the same time 5,743 a decrease of seven.

Dr. William Buser, county superintendent of schools, said the school year had begun satisfactorily, and he expected activities to proceed smoothly.

Enrollment on opening day last Thursday was 5,666 and another head count Monday of this week showed an additional 70 enrolled.

Southern High school showed an enrollment of 1,555 on opening day with twenty-two added by Monday to make 1,577. Northern High at Accident began with 893 and now has 917 enrolled.

The other schools enrolled showed increases and decreases, but an overall increase of 24.

Co. Bi-Centennial Committee Hears State Chairman

The Bi-Centennial committee for this county met at the home of Dr. and Mrs. Raymond McCullough in Friendsville on Sunday afternoon.

Attending the afternoon session was Miss Louise Gore, of Annapolis, chairman of the State commission by appointment of Government Marvin Mandel, who spoke on the three important goals of the commission—Heritage, Festival and Horizons.

She stressed the importance of heritage, what we have received from our forefathers, the great principles of our nation as indicated in our constitution and bill of rights, and the importance of heritage in the buildings and landmarks still standing.

The importance of "festival," rests in what activities would be planned for the celebration, and in horizons, what we can preserve for future generations, she continued.

She pointed out that "what we are celebrating is not the Revolutionary war itself but two hundred years of what has taken place to make us a great nation."

The celebration is expected to continue to 1984, the year the constitution was formally adopted by the states.

Also attending the meeting were Thomas Butscher, chairman of the county bi-centennial committee and president of the county Historical Society; Dr. and Mrs. McCullough, Delegate DeCorsey Bolden, B. O. Aiken, commissioner Bernard M. Guy, Mr. and Mrs. Paul Calderwood, Judge and Mrs. Lewis R. Jones, Mr. and Mrs. Robert J. Ruckert.

Title I Funding May Be Reduced

Garrett County, along with many other counties in the state, stands to lose considerable money for Title 1 programs in the school system, according to Dr. William Buser, County Superintendent, due to last minute shifts in allocations of federal school funds.

A reduction of 35 percent, or approximately $90,000 is the possimistic outlook for the county if the government decides to use the 1970 census socio-economic figures for distribution of funds.

Until this fall funds were distributed according to 1960 census figures. Changes would occur if the funds were to be distributed according to 1970 census.

Kent county would be hardest hit, with a 60 percent fund reduction followed by Worcester, Queen Annes and Somerset, each losing approximately 50 percent.

Anne Arundel, Baltimore, Montgomery and Prince Georges counties and Baltimore city would benefit from the revision, with the city receiving nearly $1 million more than the $10.5 million it had expected.

Such cuts would leave two choices to the local education

Judge Hamill Delivers Charge To Grand Jurors

The charge to the September term grand jurors was delivered by Chief Judge Stuart F. Hamill, Jr., on Monday morning in the court house in Oakland, touching on the duties of the jurors and the normal procedures of the investigating body.

Grand jury charges over the years remain much the same in that the law and duties of the grand jurors remain the same.

He again stressed the fact that law and public order were "basic conditions of satisfactory social organization and that the criminal law is the most fundamental of all the branches of the law."

He added that there was a "double duty cast upon you as grand jurors: a duty to society to see that parties against whom there is just ground to charge with the commission of a crime shall be held to answer that charge; and also a duty to the individual to see that he or she is not subjected to prosecution upon accusations having no better foundation than public clamor or private malice."

"Under our practice," he continued, "it is the duty of the police to detect and apprehend criminals; present or indictment is for the Grand Jury; preparation and trial is for the State's Attorney; determination of guilt or innocence is for the Court or Petit Jury as the accused may elect; punishment within the limits of which the legislature may have prescribed is for the Court. Should any of these agencies for any reason fail to discharge their duties, then the entire structure of criminal justice is weakened to the extent of their failure."

Judge Hamill also pointed out their responsibility to inspect the jail, courthouse, sheriff's residence, county roads garages and the hospital and report on conditions found and make proper recommendations.

Jurors may also inspect the three boys' forestry camps in the county. They are to review recommendations of former grand juries and to see if their recommendations have been complied with.

Nearly 650 Attend Republican Beef Roast Saturday

Nearly 650 persons thronged the fairgrounds Saturday evening for the second annual Republican Beef Roast.

Speaking briefly to the crowd after dinner were Miss Louise Gore, Potomac, Md., National Republican committeewoman, and U. S. Sen. Charles McC. Mathias.

Thomas Butscher, master of ceremonies, gave a short talk and introduced the various speakers, including Lawrence Hogan Maryland Fifth District Congressman, principal speaker and guest at this year's event.

Congressman Hogan's talk focused briefly on the Watergate hassle. He noted that Republicans should not feel unduly embarrassed or dejected over the findings since both Republicans and Democrats have both good and bad points in their political systems. Personally, he feels that the Republicans will be able to weather the adverse publicity and that the political "applecart" won't be upset by the findings.

Some 700 pounds of beef had been bought for the meal, and the remaining 50 pounds of meat were auctioned of for $1.60 per pound after the meal.

The after-dinner speaking was held at the 4-H pavilion at the fairgrounds. Profits from the beef roast go into campaign funds of the Republican State Central Committee and to the two county Republican Women's clubs.

It's Exasperating And Frustrating

It is still exasperating and frustrating. There is much more news than the Republican is able to print, being limited to sixteen pages each week, in order to have enough newsprint to finish out the year.

We ask our county correspondents and regular writers to have patience and "hang on." Things may improve a little later on. No sermonette, no Sunday School lesson this week, no church notices. Several county [illegible] omitted. We are sorry!

Luther D. Parrack, Jr., principal of Southern High School, consults with a student, Connie Thayer, about her schedule. Helping students in their orientation to Southern has been one of Mr. Parrack's chief responsibilities this past week. Mr. Parrack replaced Robert Redecheaver who is now Supervisor of High Schools for Garrett County. Before coming to Southern, Mr. Parrack served as Vice Principal of Northern High School for five years.

Juveniles Found Neglected, Need Of Supervision

Two juvenile cases, involving three persons, were heard in Circuit Court by Chief Judge Stuart F. Hamill, Jr. sitting as juvenile judge. All were placed under the custody of the Social Services Department or supervision of Juvenile Services.

A 17-year-old male of the Friendsville area had been charged with being in need of supervision by reason of being habitually disobedient, ungovernable and beyond control of his foster parents; and second, running away from home.

At a hearing Tuesday he was found by Judge Hamill to be in need of supervision and placed under the supervision of the Garrett County Department of Juvenile Services until released by due process of the law.

Two females, 12 and 15 years old of the Grantsville area were charged to be neglected by reason of being neglected by the step-mother due to assault and battery upon them and providing inadequate food for them and second, they were suffering serious harm from improper home environment and guardianship.

At the hearing Tuesday Judge Hamill found the children to be neglected and ordered that they be placed under the permanent custody of the Garrett County Department of Social Services for placement in a foster home.

Injuries Light or Absent In Some Recent Accidents

Several recent accidents around the county resulted in little or no personal injury.

Following a one-car accident Mary L. Coddington, Cumberland, was taken to Sacred Heart Hospital, Cumberland, by the Northern Garrett County Rescue Squad. Her condition was not determined. She was traveling east on U. S. Route 40 just west of Shade Hollow road. The operator lost control of the car which ran off the road and then struck a tree. Tfc. D. E. Tharp investigated.

One passenger in the car of a one vehicle accident was apparently only slightly injured last Wednesday afternoon. The mishap occurred on State Route 135 just west of Chestnut Grove road while Earl E. Burkhardt, Cumberland, was driving west. The injured passenger was Bertha E. Wilson, Cumberland.

The operator lost control of the car which went off the road and struck a culvert. Tfc. G. D. Broadwater charged Burkhardt with operating at a speed greater than reasonable and prudent.

Alma Ann Maust, Grantsville, was operating a farm tractor west on U. S. Route 40 near U. S. Route 219 followed by Rupert R. Moore, Alexandria, Va., in a light truck. Alma Maust had mechanical and hand turn signals operating to make a left turn into a farm lane. Moore

The remains of Kotchie R. Leslie Crosco, 19, who died apparently on March 25, at Lost Land Run, near Kitzmiller, were released by authorities to her husband, Robert L. Crosco, Sr., a few days ago, and funeral services were conducted Sunday afternoon September 9 at 2 o'clock from Rosedale United Pentecostal church, Oakland. Rev. Ralph E. Jacks officiated, assisted by Rev. Roy Riffle, and interment was in Garrett County Memorial Gardens.

The badly decomposed body had been discovered the latter part of July in a remote area of the county, and positive identification was made through dental records in conjunction with an autopsy.

Attempted Theft Under Investigation

A frustrated thief ended his stealing attempts by vandalising a boat, according to a report filed by Natural Resource policeman Harry Miller.

Sometime between the day after Labor Day and last Tuesday, someone attempted to hot wire a boat belonging to Edward Cunningham, Bethesda, when their attempts failed, they bore the cover of the boat and ripped wires. Approximately $25 damage was done to the property located off the Pergin farm road near Deer Park.

Natural Resource police have also been investigating a rash of complaints from boat owners whose gas storage cans in their boathouses have been emptied. Evidently some tightwad would operate his boat until short of gas, stop at a likely looking boathouse, leave his empty gas can, and take the owner's full can. John Williams is investigating these complaints.

Ten Are Injured In Three Week End Mishaps

Ten persons were injured in three motor vehicle mishaps in the Southern part of the county over the weekend. Three persons were hospitalized and listed in satisfactory condition Tuesday.

Daniel Allen Ahern, 31, driver of the car, Kenneth Ray Ahern, 12, and Esmeralda Gale Ahern, 23, his passengers all of Oakland were listed in satisfactory condition Tuesday morning at Garrett County Memorial Hospital. Patricia L. Meadows, 11, and Bonnie A. Meadows, 13, both of Oakland, also passengers in the Ahern car, were treated and released from the hospital.

Daniel Ahern was driving west on Dilly road about a half mile west of Old Crellin road Sunday about 5:30 p.m. Ahern lost control of the car when it went to the right. It then went across the road and came to rest head-on into a small tree. Tpr. Dale K. Williams charged Ahern with negligent driving.

Four teenagers were treated and released from Garrett County Memorial Hospital following a one vehicle accident at Gorman Sunday afternoon. They were passengers in a Dodge pick-up driven by Henry Washington Lewis, Baltimore. The four injured were Mary E. Lewis, 16; Janet F. Lewis, 13; David E. Lewis, 14 and Michael E. Moon, 17, all of Baltimore.

Henry Lewis was headed east down grade on U. S. Route 50 south of Gorman. He lost control of the pick-up which went to the left side and hit some guard rails. Tpr. G. D. Broadwater charged Lewis with operating at excessive speed. The injured were taken to the hospital by the Southern Garrett County Rescue squad.

James Armstead Gorell, Fourth Street, Oakland, was treated and released from Garrett County Memorial Hospital following a motorcycle-car accident in Mt. Lake Park Saturday afternoon.

John P. Justice, Mt. Lake Park, was headed south on the Deer Park-Broadford road near Washington Avenue. James Gorell driving west on Washington Avenue, pulled onto Deer Park-Broadford road and was hit by the Justice car, and thrown from his motorcycle. Tpr. Williams investigated the mishap.

A one-car accident occurred on State Route 135 about 1.5 miles west of the Deer Park Hotel road Monday afternoon. Mary Jane Mackley of Piedmont, W. Va., was apparently not injured when her car turned over. She was headed west and started to pass two vehicles. When she did, the vehicle just in front of her also started to pull out and pass the lead vehicle. Mary Mackley then swerved to the left, lost control of the car, ran up an embankment and turned over. Tpr. Robert E. Friend made no charges.

DON'T WAIT 'TIL WINTER TO WINTERIZE YOUR HOME

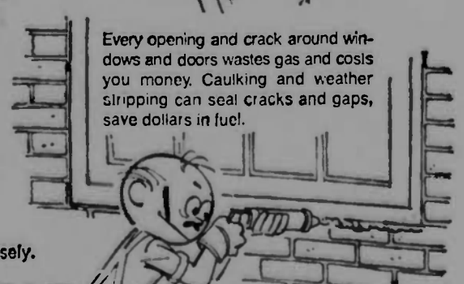
By following these simple tips, you'll use a lot less gas next winter. And as prices rise, it's especially important that we don't waste valuable natural gas.

Install adequate insulation. Simply laying a 6 inch thickness of insulation in the attic can mean significant savings in gas and money.

Storm windows and doors, or plastic sheeting can reduce heat loss as much as 10%. Your home stays warmer, your furnace uses less fuel.

If you have an old conversion burner, you'll be wise to replace it with a modern new gas furnace, designed to operate with less gas. As a present gas heating customer, you can install a new gas furnace and be sure of getting gas supplies in the future. A more efficient new gas furnace will give you more heat for less money. Plus it will save space in the basement. Why not call your dealer for advice, while the weather's nice?

Every opening and crack around windows and doors wastes gas and costs you money. Caulking and weather stripping can seal cracks and gaps, save dollars in fuel.



Gas is precious ▲ pure energy... use it wisely.

Valley High Halts Southern 26 to 14

Valley high school of Lonaconing spotted Southern a first period touchdown, then rode the strong right arm of Joe Langham and the feet of Jamie Foote to a 26 to 14 victory over the visiting Rams in a Tri-Valley conference contest last Friday night at Lonaconing.

Jeff Friend scored the Rams' touchdown from the one yard line in the first period to give Southern a 6-0 lead.

The Black Knights struck back in the second period with a pair of scores. Foote went in from the seven, but failed to convert on the run for the extra point. Moments later Langham connected with Don Andrews from the ten and Foote tacked on the point after with a run.

Dave Duncan hauled in a 35-yard pass from Langham in the fourth period and Foote raced 27 yards for Valley's score.

The Rams scored again in the final period on a two-yard run by Dave Sharps.

Southern had thirteen first downs, 8 by rushing and 5 by passing, compared to 11 for Valley, with 10 rushing and 4 passing. Southern attempted 9 passes and completed 5. Valley tried 13 and completed 6. Total passing gain was 119 yards for Southern and 140 for Valley.

Both teams had three fumbles and both teams recovered two of their own fumbles. Total offense showed 233 yards for Southern and 369 for Valley.

Northern Loses To Shade Hi, 16-8

Northern High school opened its season last Saturday evening, losing to Shade High of Central City, Pa., by the score of 16 to 8, at Accident.

The Huskies, with only 18 players on their roster, were both outnumbered and outweighed by the defensive-minded Pennsy gridders.

Shade's defense line, which averaged 216 pounds, has a middle guard weighing 300 pounds, almost stopped the Huskies cold in the defensive battle. The Pennsylvanians did all their scoring in the first half on a six-yard run in the initial quarter and a 55-yard screen pass in the second.

Northern scored its only touchdown on a 15-yard pass from sophomore quarterback Dave Bender to Ed Frazee in the fourth. The same pair combined for the two point conversion.

The Huskies will play another home game against Berlin high on Saturday evening, September 15 before meeting Valley High of Lonaconing, also on the home gridiron.

The cost of making a dollar bill is going up too.

A SLOW LEARNER MAY HAVE OTHER PROBLEMS

Often a young child that does not keep up with the rest of his class is singled out by his classmates as a subject for teasing. This in turn causes resentment by the child and can lead to definite anti-social behavioral problems.

Very frequently the reason for so-called slow learning may be due to a physical impairment such as poor eyesight, bad hearing or a speech problem. If you have a child who is doing poorly in the early grades it may not be his fault. Have your physician check it out before the problem gets serious.

I didn't know how to tell Billy about the accident. How can you say to your son that his mother is injured and there seems no hope?

I held him close, but could find no words of comfort. Suddenly I heard Billy start to pray softly. I had always left prayers and that sort of thing up to Mary. I somehow felt it couldn't really help, but I felt myself kneeling with Billy.

Softly he prayed as his mother had taught him. To my surprise I heard no begging plea but rather earnest conversation like that with a trusted and loved friend, "Thy will be done," not hopelessly, but serenely acknowledging the goodness of God's will.

Miraculously, we brought Mary home yesterday, and I plan to spend the rest of my life praising God, not only for her recovery, but also for the faith I have learned from our son.

You can bet that when Mary and Billy go to church next Sunday, I'll be right there with them —singing, praising and believing.

A "Taxing" Adult Education Adventure

Mrs. Justice Gilley
Oakland Office Manager

A unique educational opportunity is being offered to adults on the Mountain Top by H & R Block, America's Largest Tax Service.

The H & R Block Basic Income Tax course provides students with the tax knowledge necessary to save money by preparing their own return, or if they desire to seek employment as a tax consultant. Nearly a quarter of a million students from all walks of life have attended Block's Income Tax course in recent years.

The course will be offered in over 2,000 communities this year, and enrollment is expected to surpass 40,000 students, making it the largest school of its kind in the United States. The school is designed to fit the scheduling problems of work, family and other commitments which prevent many individuals from participating in adult education opportunities. A selection of morning, afternoon and evening sessions is offered, and the course is designed so that the same lesson is taught the same week, all across the nation.

The 13½ week school consists of a minimum of 81 hours of in-class instruction with two, three-hour sessions per week. Classes begin Thursday, September 13 and end just prior to Christmas. Instructors are all veteran H & R Block employees who emphasize practical application of tax regulations to the various forms necessary in completing State and Federal tax returns.

The modest $75.00 tuition covers the cost of all books, supplies and tax forms needed to complete the course. Training materials for the course have all been written, edited and printed by H & R Block. There is no need for previous accounting knowledge or experience. All the prospective student needs is a desire to learn and earn.

For further information about this unique adult education course, contact H & R Block, 116 South Third Street, Oakland, or call 334-3555.

Groups Invited To Serve Meals For Autumn Glory

Food is again expected to be an important feature of this year's Autumn Glory Festival, to be held in the county October 11 to 14, is was pointed out this week by Robert E. Proudfoot, chairman of that particular committee of the Oakland-Mt. Lake Park Lions club, which is sponsoring the sixth annual event.

Turkey dinners will be available each day in a number of locations. Seafood from the Chesapeake Bay also will be served at street booths by the Lions club and other civic groups will be in charge of booths serving sandwiches and snacks.

The Food Serving committee will have the responsibility of serving thousands of people, and has enlisted the aid of other service and civic groups to achieve the goal of total food coverage.

Mr. Proudfoot said a few booths and food service areas remain open at this time and any service group, church organization or others that wish to participate may still obtain a vending or food service facility. Inquiries should be directed to Mr. Proudfoot.

It was pointed out that all vendors and purveyors of food must be licensed by the Mayor and Town Council of Oakland. Applications for licensing are to be directed to the Autumn Glory Festival office at the Promotion Council office on Alder street. It was stressed that no one person or organization would be allowed to vend during the festival unless they are duly licensed.

In Calif. they said, recently, 'eat well' but be ready to pay.

Truth About America

What is America really like? Hundreds of thousands of Europeans are finding out since the devaluation of the dollar and higher salaries abroad. America has long fascinated its neighbors abroad, and now many middle class foreign tourists can afford to learn about this country first hand.

Government and airline officials foresee a 20 to 25 percent jump in travel to the United States this year, with Japan leading the pack, followed by Britain, Germany, France and Italy. Last year, excluding Mexicans and Canadians 2.6 million foreign visitors set foot on American soil.

This growing influx of visitors could be the best thing to happen in international relations in a long time. The newcomers are curious about everything. They want to see with their own eyes and experience for themselves the real United States. Hopefully these people will see us in a realistic light — not as a money-hungry, imperialistic monster, but for what we actually are: an energetic people trying to make our democracy work and doing a pretty fair job of it.

Mortgage Program Outlined Monday

Some forty persons, troubled by the tight home financing market, were at the County office building in Cumberland Monday night to hear state officials explain how Maryland has injected itself into the mortgage business.

And there was some good news for Garrett and Allegany county residents; a threatened October 1 deadline for cutting off $400,000 of potential mortgage money for the two counties apparently will be rolled back until at least November.

Robert Miller, of the Department of Economic and Community Development, and Mrs. Alicia Heath, who handles single family home financing for the Department, were brought to Cumberland by State Senator Edward J. Mason to explain the program.

The state had set aside $16 million state-wide, and $200,000 each for Garrett and Allegany counties, to help persons who are having trouble getting money for home purchases.

Mrs. Heath ran down a checklist of how one applies for a home loan from the state and what steps are taken once an application is received.

She explained that the income limit for applications is $19,069 for a family of one. For each additional family member, $300 is added. Loans are made at the going eight percent interest rate but are actually tabulated at six percent since the state sold the bonds for the mortgage money at less than five percent.

Application processing sometimes take 30 days, sometimes as long as 45 days. Mobile homes are not acceptable under the state program but modular homes are.

Statewide thus far $12 million worth of home loans have been applied for, while only $10 million is available. If the money allocated for Garrett and Allegany isn't used, then that money will be spread out to other areas in the state which are applying for the funds.

A pioneer program in the U. S. the state has had such favorable response that Mr. Miller said there is talk of selling another $20 million in bonds to increase the program funds for next year.

Applications were distributed to those attending the meeting and are also being placed with real estate brokers. Senator Mason said other distribution points may be set up. They would also be available from the office in Annapolis.

THE POWER DETANGLER

by Gillette

Purrr is the first power de-tangler by Gillette. It was invented to help prevent hair damage. Tugging an ordinary comb through tangles can split ends and break strands. But Purrr's double row of wide teeth move back and forth — gently separating the individual hairs so it glides right through snarls in wet or dry hair. The more you use Purrr, the more split ends you'll end. And your hair will look smoother and healthier. Purrr, the first power de-tangler.

1974 Chevrolet

A better-than-ever way.

GM

When the wheel belongs to you, the road goes anywhere you say. And it's so much better with a '74 Chevrolet.

Caprice Classic. Introducing an elegant motor car, just asking to be enjoyed. Outside, an imposing new grille, and on the Coupe, a distinctive new roof line. Inside: peace, quiet and convenience. With standard power steering to do most of the turning, standard power front disc brakes to do most of the stopping, and a standard Turbo Hydra-matic transmission to do the shifting. If you want the luxury and comfort of a car that leaves little else for you to do but enjoy the ride, you don't have to look beyond the '74 Caprice Classic. However, the freedom of the open road begins with the freedom of choice:

Vega GT. This year's version of last year's *Motor Trend* Economy Car of the Year. (And *Car and Driver* Readers' Choice as Best Economy Sedan for the last three years.) With a reshaped nose, bigger bumpers, nicer carpeting, new stripes and new colors. Plus more good things to make it better. See what it's like to drive a winner.

Camaro. The way it looks is the way it goes. Quick, sleek and nimble. With a low, wide stance, responsive steering. And comfort that's rare in a car that handles so well. Plus classic new styling, and plushness from the cut-pile carpeting up.

Malibu Classic. A luxury Chevelle, new this year. With full foam seats. A fold-down front armrest. Wood-grained vinyl accents. Elegant inner door panels. Extremely tasteful upholstery and cut-pile nylon carpeting. That's just inside. The exterior is just as classic, in character and in detail, as the interior. Yet, it remains mid-size. And, it remains all Chevelle. With Chevelle handling and at a Chevelle price. Now that you've looked, come and see the new Malibu Classic—and all the 1974 Chevrolets. The ones shown here, plus Impala, Monte Carlo, Nova, Corvette, pickups, vans and all our new cars and trucks.

William Goldsborough, County engineer, and three employees Lawrence Skipper, Norman Wine and Edsel Calhoun had been charged with malicious destruction and defacing a sign valued at $200 belonging to Donald Bowman at Mcllenry. Beall High Trims Southern 20-13

Beall High jumped into a 20-0 lead after three quarters, then held off a fourth period rally by Southern to top the Rams 20 to 13 in a Tri-Valley conference game last Friday night at Oakland.

The Mountaineers started quickly in the contest. Gene Morgan ran 55 yards on a reverse on the fifth play from scrimmage to give Beall the lead. They added two scores in the third period to seemingly lock up the contest. Brad Walters went over from the two, then Don Faley slipped over from the 10 to up the margin.

The Rams finally got on the board in the final period on a 29-yard pass from Jim Mellenry to Denny Skeweris. Mellenry rolled in from two yards out to narrow the margin to 20-13 but the rally was halted.

Morgan finished with 124 yards on 15 carries for Beall, while Jeff Friend rushed for 77 yards in 16 carries for the Rams.

Beall had 14 first downs to 10 for Southern. Southern attempted 17 passes and completed 6, for seventy yards. Beall tried 5 passes, completed one and had one intercepted. Beall had two fumbles and recovered one. The Rams had one fumble. Beall had 237 yards total offense compared to 216 for Southern.

Southern's third game will be played Saturday night in Cumberland against the Bishop Walsh eleven. This will be a Potomac Valley conference game.

Meet The Staff

SANDRA VIRTS

A three year veteran of our front end department is Sandra Virts from Swanton, Md. Sandi began her duties after graduating from Bruce High School in Westernoort.

Sandi is a conscientious, hard working individual who has become quite versatile in the front end department. In addition to being an excellent cashier she is a part time office manager and is in charge of ordering and merchandising all bar candies and gum.

We're proud of Sandi because she is always cheerful and takes a sincere interest in whatever job we assign to her. As a cashier you'll find that she is friendly, courteous, accurate, and handles your order in a professional manner. If you've ever been to our store and can't find your favorite candy bar or chewing gum, it's probably Sandi's day off, because she makes sure that our rack is always fully merchandised.

Many times Sandi has proved to us her ability to manage. Whenever one of our front end managers is absent, we can count on her taking over and running the entire operation. Sincere, interested, and talented personnel like this make our store a better place to shop.

Sandi enjoys dancing, swimming, and socializing in her spare time, which she spends mostly in the Keyser area.

ENTRUSTED TO US

Lesson for September 17, 1973

Background Scripture: 2 Corinthians 5: 11 through 6:10
Devotional Reading: 2 Corinthians 5:11-15.

I once saw a cartoon that depicted a woman who had leaned too far out the window of the second story of her house and fallen into a trash can below. She lay there, dazed but uninjured, while a foreign visitor passed by. Noticing her, the tourist said to himself, "Americans are very wasteful: that woman was good for five to ten more years!"

Rev. Althouse

The cartoon, of course is absurd, but the idea behind it is not: we are often very wasteful with human life. We are much concerned about the ecology of natural resources today — and rightly so — but we need to be even more concerned about the conservation of the most precious of all resources: human life. We waste it, squander it, and our human junk-piles are more disgraceful and unsightly than those that become the final resting place for our cars and other material goods.

Beyond the human point of view

There is a very human, natural tendency for us to spend more effort in trying to decide who are the "good" and "bad guys," than in trying to change the "bad guys" into something else. Like many of the legalists of the Old Testament and even the scribes and Pharisees of Jesus' day, too many people would rather be involved in judgement than in redemption.

For the last six or seven years I have been involved as coach of a football project for late elementary school children. The temptation of any coach is to look upon his task as determining which boys have athletic talent and which do not. Those who do, he will try to develop and those who do not he will dismiss from the squad. I have conducted the program, however, with a different goal (of course, I have not had the pressure upon me to produce "winning teams" since we do not have that kind of competition). I have regarded it as my task to try to develop all the boys who want to play. In fact: I have determined to try to spend more time and effort on those boys who are awkward and indicate less potential athletic ability.

His appeal through us?

One of my greatest satisfactions has been to watch a boy who, initially clumsy and unpromising, in time develops some ability and proficiency. He may never play high school football, but the new confidence he gains in himself, the sense of accomplishment, obviously gives him a new lease on life.

This is the way it can be in so many areas of life. Instead of wasting human lives because we think they are spoiled or without promise, Christ calls us to be ambassadors, agents of reconciliation, to reclaim lives for God that seemed unsalvagable to those who never look upon their fellow men with anything but a "human point of view." That is the task entrusted to us.

Technology is abroad in the land. Everywhere big yellow and green machines pound and churn the earth. Highways unroll, apartment complexes rise and amusement parks expand.

Our children watch. They know power when they see it!

Some of our children, though, don't know about another power for building. They have not been taught to see it. It is the power of God and it also shakes and moves us. It is necessary for all men—a gigantic source of energy and strength.

Take your children to church on Sunday. They will be tomorrow's builders.

Feed Grain Program Details Given

The 1974 Feed Grain Program provides producers with the opportunity to expand production, according to J. Walter Margroff, Chairman of the County Agricultural Stabilization and Conservation (ASC) Committee.

There will be no set-aside requirement and no restriction on planting for the 1974 crop program and there will be no conserving base requirement for the 1974 through 1977 crop years, the duration of the Agriculture and Consumer Protection Act of 1973.

Barley will be included in the Feed Grain Program for the duration of the act.

Mr. Margroff said the new legislation provides for establishing allotments for Feed Grains in the same fashion as for Wheat. The allotment for 1974 is set at 89 million acres. The allotment for the Feed Grains is approximately 68 percent of the base acreage used in former Feed Grain Programs. However, any payments will be paid on the full allotment;

Whereas, previously, payments were based on only 50 percent of the feed grain base. The feed grain allotment for 1974 does not represent a limit on acreage, but is computed only for the purpose of distributing payments to producers should such payments be required.

Target Prices for 1974 are $1.38 per bushel for corn, $1.31 per bushel for grain sorghum ($2.31 per CWT) and $1.13 per bushel for barley. There are no target prices for oats or rye.

Producers may substitute any non-conserving crop or any conserving crop used for hay or for grazing in order to preserve their Feed Grain Allotments and to make them eligible for any payments under the Target Price feature. Crops for which Marketing Quota is in effect are excluded, Mr. Margroff added.

Chief Judge Hamill Restrains Pickets

Chief Judge Stuart F. Hamill signed a temporary restraining order in Allegany County Circuit court, limiting picketing activity of Local 453, International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, in the vicinity of the Motor City location of Automotive Testing, Inc.

The union was restrained from mass picketing, blocking ingress and egress, pursuing company vehicles, harassing operations or impeding movement at locations other than the business property. The union was limited to two pickets.

Pickets had been located at the Motor City entrance to Automotive Testing's property, since a dispute erupted early in August. Three other corporations besides Automotive Testing use the same entrance, the Potomac Motors, Inc., Motor City Body Shop, Inc., and Luxury Leading, Inc.

The Teamsters union filed an answer to the temporary restraining order, asked the court to rescind the order.
